Attend *YOUR* Calling And "Brotherhood Of Deceit" Shall Collapse On Itself

1/3/94 #2 HATONN

LOOK AROUND THIS MORNING

You CAN get a good overview of the "state of the globe" by simply watching. For instance, an airline crash in Russia might be assumed to be only an airliner crash—but is it? Of course not—and you have to generalize! This morning's crash was OBVIOUSLY no accident and, in addition, had many "international" travelers aboard. You can tell by the way the engines caught fire that it was intentional and the plane was full of fuel which would ensure incredible fire and attention. This is the second crash of an Aeroflot plane in a week—so KNOW that some big interference is taking place in Russia—and I mean **BIG!**

THEN WHY THE ATTENTION TO LITTLE THINGS?

If, as so many inquire, there are so

many things going on and it looks hopeless—WHY GO ON WITH SUCH MUNDANE THINGS AS CATCHING THE CROOKS IN OFFICE AND ATTENDING SUITS, ETC? Because you can't do anything about the plane crashes but your input CAN change the course of information output, media control and lawsuits! YOU MUST FUNCTION WHERE YOU **CAN** FUNCTION!

If YOUR INPUT can help uncover the George Greens, Jason Brents and US&Ps of the game—then YOU have accomplished your task—CAN YOU SEE? The journey requires the first step and the next and next—while, indeed, the FIRST one may be the most difficult or ACTUALLY, the easiest, but most committing to the trip. You cannot "fix" the "whole" by simply stopping the lying of one George Green. But, when you get ONE, you begin to see that you can, one by one, GET THEM ALL! Why? Because as you move into the upper levels you have a situation of more power control

and ego involvement—demanding reliance on one another as fools and brotherhood of deceit—but, as one falls and the "big boy" seems to remain untouched, this sets off a whole new ballgame of "why should I take the heat when I am but a bit-player?" This is WHY truth in actions is so important—THERE ISN'T ANYTHING TO "UNCOVER". THIS IS ALSO WHY I CONTINUE TO REINFORCE THE FACT THAT YOU MUST HAVE GOALS AND NEVER DIVERT ATTENTION FOR EVEN AN INSTANT—THEN MAKE SURE ALL ACTIONS AND INTENT ARE TOWARD THAT GOAL THROUGH INTEGRITY—AND THE WAY AND MEANS OF PROVING WILL BE MADE EVIDENT!

Why, for instance, would Leon Fort's ATTORNEY demand a confidential settlement (which his own team, through George Green, broke?)??? Because he wanted to take the funds to great extent and depend on Leon never finding out as much. It is a *(Please see Attend YOUR Calling, p.15)*

America In Peril

Part II

Editor's note: In case you just tuned-in, what follows is the second and final part in the series called America In Peril. Part I appears in the January 4 (Vol. 4, #2) edition of CONTACT. This is a transcription taken from a video tape. Last week we presented information for ordering this video tape which, we later found out, was in error.

*The copyright to this material is owned by Dr. Robert O'Driscoll. Prof. O'Driscoll has printed this same transcription as part of an excellent 1993 book titled, **THE NEW WORLD ORDER IN NORTH AMERICA**, which is available by sending \$19.95 (shipping included) to: Prof. O'Driscoll, St. Michael's College, University of Toronto, 81 St. Mary Street, Toronto, Canada M5S 1J4; phone: 519-848-2478, or FAX: 519-848-5419. CONTACT would like to express our warmest gratitude to Dr. O'Driscoll for giving us permission to share this timely information with you.*

*Professor O'Driscoll's other excellent book (also 1993) that would be of particular interest to CONTACT readers is called **THE NEW WORLD ORDER & THE THRONE OF THE ANTICHRIST**. This is available for \$20, same address, etc. as above.*

When reading this final portion, discerning readers, please keep in mind that CONTACT does not advocate violence—period. The pen IS mightier than the sword. And with that in mind, let this Sword of Truth cut through the circus of disinformation which constantly parades across our TV screens and newspapers of America.

Mark from Michigan (continued):

Now when I worked for Intelligence I worked as an Intel Analyst with a TSSBI clearance. Handled a lot of classified documents. People don't operate like that unless they are sending you a message. Now the last time I had this happen, I will bring this up to date as far as activities go. The last time I had this happen was a very interesting experience because we started to look into the MJTF Police and FINCEN, etc., and on a Friday afternoon at 3:00 I had a knock at the door where I work in my office. I opened the door and here is campus security and who should be with them but the area director of the FBI and one of his henchman and, of course, they wanted to talk to me. Well, let me tell you something when the police come to visit you at 3:00 in the afternoon on Friday you had better understand they plan on keeping you for the whole weekend if they can. We sat down and we discussed, well, he started to ask questions and the first thing he said was "you've been talking with your Representative and your Senator". "Yes, I have." "Well, that's interesting. Well, you know, if necessary, we will find somebody to put you at the scene of a crime." They said this flat out. "That's interesting, ah hah, ok." So I didn't

really respond effectively, other than, "Oh well, no crime has been committed. All we are talking about here is truth." Then he started asking a lot of other questions like how do you feel about assault weapons? I said, "Well, well, basically I've been telling everybody to buy everything they can get their hands on and I own as many as I possibly can, why?" And of course it was like, "uhmmm, what do we say to that?" So they weren't really sure how to respond to this. I mean, I was being very open with them for the most part. When they were done they didn't take me away. Only because I didn't think, they weren't sure exactly how to figure what we...we did know that they were coming in advance, I will say that. I had a little warning and it's not the first time but we've had three different attempts where they have tried to stop us from doing just this, informing people, because like bugs, they hate for you to move that stone.

Now I put a little piece up here: "On the plains of hesitation lie the blackened bones of countless millions who at the dawn of victory sat down to rest and resting, died." While most assuredly they are close, we are just as close and they know it. They are scared snotless of the possibility of the American people waking up. Any possibility, anybody trying to bring forth what we are talking about puts such a wrench in their plans that they can't afford to see this exist. They will do everything in their power if need be probably eliminate people but I think that's down the road. Right now, they are rather concerned we are rather public but they will do everything in their power to squash this movement in its infancy. They know they cannot afford to see this continue. We must not hesitate. "On the plains of hesitation lie the blackened bones...." We must forge an organization now at the lowest possible level called the American citizen. We must get together as a people and build. If you do not build now you will not have the capacity later to protect your family, your livelihood, your people. Its that simple.

Now, activities. Example, choppers that we have been seeing all over the State. Many people have seen them. There were a number of sightings over the weekend and many of our allies, friends that we know that are in the northern part of the state have seen virtual waves of helicopters, not five or six. At least four nights in a row we have seen anywhere from 34 to 50 helicopters in waves going from horizon to horizon, not in column. In one particular evening alone with four people standing back to back there were so many aircraft that the four could not count them all. Where are they coming from? Well, they are bringing a lot of assets from overseas most assuredly but part of it is being pre-deployed in Canada. There is a thing called mundialization which I have talked about before with people. It's mentioned in several different books, one of the most recent about George Bush, the establishment's man. Mundialization, it's the conversion of a city from being an American or a Canadian city to an International city

under authority of the United Nations. In doing so the city pays a tribute to Caesar, (oh, I'm sorry, the United Nations) and are under the protectorate of the United Nations. In doing this while they most assuredly denounce their citizenship to their nation, they [the UM] still get taxes from that nation and the city and the state make a point of still sending them those taxes which I think is rather strange. Originally, we wouldn't have put a connection to this for it was after the fact that we had had intelligence information that foreign aircraft were flying out of London, Ontario or near London, Ontario. Well, I opened the book and I started to look at this and it says Dundace. Dundace was mundialized. Dundace was one of the first cities Mundialized in Canada. Dundace is a suburb adjacent to London, Ontario. They were using the air facility at London in Dundace to transfer resources and equipment into the United States from outside the United States. This is very important because they have full authority as a UN affiliate.

Now, because of the amount of attention that was given to the activity in the London area they transferred their operations to a place called Mitchell Bay. I like this, we have a state map everywhere we go. Michigan, Mt. Clemens is located here. What we are looking at right now is Mitchell Bay, located right across Lake St. Claire on the opposite side of the lake in Canada. A facility was set up with POL points for patrolling support, manning support and what the foreign forces are now doing is jumping from Mitchell Bay into the United States and then flying their missions here and then going back. They fly through Mt. Clemens airspace near Selfridge Air National Guard Base and are not challenged. All that the traffic controller can do is count the number of aircraft and then they are allowed to fly anywhere inside Michigan airspace or Ohio airspace. They branch out from there. Now a lot of activity has taken place in the "Thumb" area and some of our people who checked out the area who live in the area, Le Pere and north actually communicated with people in different parts of the state or in different parts of that area of the state and they actually said, "Oh yes we've seen a lot of these helicopters and we've had a lot of crashes here." Has anybody seen anything in the media about crashes in the Thumb? They refuse to even talk about it and we have queried the state and they will not respond and yet they advise us that there were at least 5 specific air crashes. Five, count them. A helicopter is not a small thing to have land in your back yard, especially if it's in your pool or something.

All of this overlaps into, what will they use the helicopters for again?. Well, the choppers for control and command support can also be used as we were discussing before, tracking and tracing. Tracking and tracing is very difficult unless you have something to track and trace with. If you are in your car it could be, as we have discussed, the electronic ignition system with a transponder. For most of you who have been watching the media though, what about the chip? Now, Bo Gritz talked about it and even our veterinarians in Oakland County are now talking about it. In Oakland the Humane Society has switched over from dog tags to a microchip which is inserted into your little puppy, or in your little kitty or in your dog when he is licensed and that dog can be traced anywhere. You can find him no matter where he is. Not only can you find him

but it has a transponder number in it. Now I challenged people on this before. I know people who think that their animals are more important than people so if you can have it done to Fido, or if you can have it done to my Fluffy, why can't we do it to your child? It's that simple. Now with this in mind, the microchip which originally they were proposing with some of the different legislation and literature that we have seen, would be inserted underneath the skin of the hand. It could also be put in the forehead. We know the Biblical reference to this don't we, people? We also know that with the chip comes total submission. I will remind everybody about a little piece of *Revelation* that everybody should read: 13, receiving the mark is as a divorce from Christ. You would be better going out and executing a few hundred people. You might be forgiven for that. But receiving the mark is a divorce from Christ. There is no forgiveness. There is no way to get out of it. You might as well eat, drink, and be merry because you are finished.

Now in California they have already proposed this for the animals and it is already in motion. That's where Oakland County got the idea. There have already been a few comments about using this, for instance for welfare mothers now, and for many other people who are already under the gun, already under the fist. All the different fingers, it's like a hand, are closing and coming together. Well they have got the nice velvet glove on them, by the way. So it's very desirable, very fashionable, and probably quite chic. But in reality with all these fingers closing, fewer and fewer people will slip between those fingers. And as it finally clinches tight there will be no escape if you are not prepared in advance. You must be prepared in all aspects.

Now one thing that was mentioned with this thing is CNN had a piece on about Canada where they have already proposed this for all of the exotic animals. It is a must. It is not an option. It is mandatory. There are a lot of people who pay a lot of money for animals. A lot of people, as I said before, think the animals are more important than kids. And since you did it to my Fluffy, I'm going to do it to your child. In fact, it's proposed that it be done from cradle to grave. As soon as that child is born. We've got him on the table there. Mommy can't do much about it and away we go and the kid is grabbed right there!

Now, I will say this, this is something that was challenged before by people. If it is forced upon you, if it is ultimately forced upon you, it is not the same and it can be done away with. It can be gotten rid of also. But to willingly, knowingly accept this action is the worst possible thing that you could do as a Christian. I can't... well, there are probably one or two others but I would have to see the laundry list. I can't think of any worse than going over to the other side and sticking with them. There are no deals to be made. There are no options here.

Now, what value will this have? Well, let's give you an example. In the America of the future, 1994, or is it 1984, I keep forgetting. The books are so much the same. In 1994-1995 what you are going to see is a variation on this little image here we are putting on the screen. This is not something made by an author such

as, say, a conspiracy theorist or somebody who picked the map up and drew some new lines in. This document was in the *Detroit Free Press* this last fall. It depicts the proposed borderlines for America. I am going to ask you something, once you take a close look at this. You will notice they gave it some warm fuzzy names and they made it seem real fluffy and oh, "we will just change the borders a little bit," but this is very important when you consider control of population groups. I might remind you of something about this article if you read it. If you didn't I'll point it out. Originally, this document was done by a State Department official. This was designed to test the water to make everybody see how they would feel about this warm fuzzy attitude about throwing the country away. This is only an intermediate guideline. Once this is finished the next step is to go to the finalized version which is in the United Nations Charter which cuts the United States into four pieces. We lose all of our external territories and we become a totally subservient nation to the United Nations. Very important to understand. This is the first step. Remember that old term, divide and conquer?

Now, I want to make note if you put the regional map up here you will understand where you saw these lines before. When we have tried to demonstrate to people in the past that this is where they are going, somebody said, "well I've never seen anything like that." Almost as quickly as we discussed this with people, this article that was in the *Free Press* showed up. It's probably the best single example and it's an example of many of the damning pieces of evidence that the enemy will put forward in their attempt to legitimize themselves. It's very important that they do that.

Now the chip of course allows you to control people for movement. Movement is a very dangerous thing when you are free. Boy, you can't really keep track of what people are doing. You can't tax them out of their socks. You're not going to be able to tax them in their food and their drink, tax them in their livelihood. We will paraphrase one of the founding fathers on that—remember, taxation? We went to war for 10%. What we are at now is a lot more than 10%. But in addition to that, movement...I'm from Area 5. I've got a chip rated for Area 5 bluecoat. What am I doing in Area 10? In fact, your internal paper doesn't show that you should even be here. I might mention too, that there is a reason that you shouldn't be here. You are a property of the state. The Governors' Conference of 1989 and the Governors' Conference of 1990 which we do have on video tape, by the way, if perchance we should someday be incorporating this in one of our talks. They specifically stated at the Governors' Conference all 50 members who were there and Representatives of the Districts said that we are nothing more than chattel. We are the property and an asset of the State. Property and asset shouldn't be allowed to just wander off. After all, you might want to sell them to somebody. Oh, that's slavery again. No, we're not supposed to think that way. It's that New World Order kind of stuff. By the way, that's the salute. I hope you have seen it. It was on CNN at least twice, the United Nations salute. Its true. They had to come up with a compromise. With the chip and control

of movement we've got to get you on your feet. We can't have you driving your cars. We've got a lot of environmental problems so we can drive you out of your seats real quick with that. In addition to that, to control freedom of movement we've got to take care of this money problem. I mean, you people just spend it on the craziest kind of things, firearms, and ammunition and, why, stuff you'll just use on us (if we're the government of course). Because of that, we have to bring another finger in. Money. And to control the money we have to change it.

In the first phase if anybody has a sampling of it in their wallet, (and they probably do); any of your 1990 series currency, if you'll hold it up to the light, face the currency like this, turn it up on end, look under the numbers with the light you'll see a bar line inside the paper. This is a platinum polyester microscreen bar coded element. As we were talking about traceability with your car and with your person, this currency was being tested and is being tested now for traceability on your person, in your home, in your business, everywhere. This is what we started to call the intermediate currency because this is not the final currency. The final currency is called the bluechip dollar. The bluechip dollar is virtually blue. The one dollar bill will be blue. All the others are of different colors. By what we understand, there is also a bar coding just above the \$20.00 that is printed out here. This can be scanned two different ways. If you look around the oval of the currency you will find that there are microprintings which reprint 20 US, 20 US, 20 US. But apparently in the latest piece that we've seen this may also be screened. So there are several different ways that they can actually screen this.

With 1983 technology it was possible for them to drive by your home and from the road screen your house and identify by the dollar amount how much cash you have in your house. This is 1983 technology. The year is 1993. If our computers have expanded geometrically in capacity I want to ask you another question? What do you think they have done with the technology concerning this? Where are they now? See what I mean. By the way, PO 100-690 covers this and if you get a chance what you need to do is call your Senator or your Congressman. Request a copy of PO 100-690. It is a book 3/4" thick, 7 x 10 format. In it you will find all of this and originally people said, "Well I read the law. They can only do \$100s and \$50s." I said, "Bull-do-do".

The way the law was written, at the discretion of the Treasurer they have the capacity to do it on all currency and they will because there were Senate hearings concerning this. C-Span covered this and during those hearings they stated uncategorically all of the currency will be traceable. No currency will be hidden by the time they are done and this is intermediate. This currency will be devalued down the road. The exchange ratio will probably be six to one. At a six to one ratio your debts don't change but your money does, so let me ask you this, can you pay for food, heating, and your house at the same time? Like the great depression or Germany with its hyperinflation, you get to choose between heating and eating. Which are you going to do if you

have four kids? Uh-hmmm. Now it becomes a challenge. On the other hand if you buy tangible products with this worthless piece of paper developed by the Federal Reserve (not by us. Remember this is just a Federal Reserve note. This isn't really money), use this to the greatest possible level that you can taking advantage of volume purchasing by getting together with those friends that you organized in the militia, you put away munitions, food and equipment with this before it becomes valueless.

During the transition phase you should have coin instead of paper. Why? During the devaluation, in fact during this devaluation, in PO 100-690 makes no allowance for the coin change. Coin will still have a face to face value. In Israel in 1973 when they changed the currency people who had coin ate the next week. People who had paper were sucking air. It should be understood that you want to put a percentage of coin in quarters, dimes, even nickels if necessary, whatever you can afford. Half dollars and full dollars are the best way to go.

Now, it should be interesting to note, for those of you that are trying to financially protect yourself. Does anybody know about the confiscation laws? Well we are going to get into them now. The other finger is starting to close. This one. With the existing confiscation laws and with the banking laws in PO 100-690, any instrument, cash, money order, or cashier's checks for any unnegotiable instrument that can be transferred into a bank or used by a bank is to be kept track of by the bank against you. And it's at the discretion of the teller and the bank as to and whether or not they consider it criminal activity. Now a limit at this time is \$10,000. It may have changed. It could be lower. Under the original law they have the authority to go down to every \$150 transaction. At their discretion they inform an agency of the government and that agency can then impound and confiscate your money. If they do this or if they decide you have done something that we call structuring, in other words, I decide I don't have \$10,000 at the time that I spent, Ok. So over a 12 month period I do \$2000 here, \$3000, \$2000 again and I'll spend another \$4000 in negotiable funds and put it in and use it in another way. If I do that it's interpreted as structuring and at their discretion what we call arbitrary enforcement. Anybody in law enforcement understands what this means under civil law. Under common law you cannot have arbitrary enforcement. Under civil law you can. But under civil law and with arbitrary enforcement they can take this property from you and they don't have to give it back because you have to prove that you are not guilty. You know what that is? That's British law, kids. That's where you have to prove your innocence. That is not the *U.S. Constitution*. That is not our *Bill of Rights*. Guilty until proven innocent are those little dictator things again. What we have to watch out for, you have to be very very careful. I would not use, (not that I would ever break the law), but I wouldn't be using very many of these bills and I wouldn't keep very many of these bills. I would get rid of them as quickly as I can.

When they change during the transition period you will have about six weeks to turn

this money in for the new currency.

In that six weeks period for the first time in American history, the old currency will be worthless. That's the policy of Banana Republics not a Constitutional Republic that is sound using sound currency. It is interesting to note that this is a Federal Reserve Note not a U.S. dollar, not a gold dollar or a silver dollar or silver currency.

How will they use this against us? Eventually, once they get to the new currency then we get that mark thing incorporated. I don't know if anybody has been watching our new socialized medicine program, I mean, restructured medical program, but under this new restructured medical program that we are going to have it's important that they are already talking about using your social security number to determine whether or not you get service, tying all of them together and bringing them all into one number. Very important to understand.

How do they all bond together? What do we do? First of all protect yourself—food! You know there is one funny thing about food in a can. I haven't seen anybody killed with a frozen bag of peas yet, have you? And yet, under new Federal Guidelines and Federal Statutes and under state law it is a felony to store more than six months food supply in your home. Under new Federal Guidelines and new Federal Laws it is called the hoarding law. It's appeal 102 series law (I don't have the number here with me. I'm sorry.) But it is a 102 series law which makes it a felony to hoard food. It might be noted also, though, there is no definition of hoarding. Are 3 days worth of food hoarding? Is a week? Is a month? 10 months? 8 months? Talk to me. I don't have any definition here. That's where this whole thing about arbitrary enforcement comes in. Remember, you can be punished for having food now. Food, some silver. Silver may not be as important as tangible items but silver is good to have. You and I can understand it. Gold is a little harder because such a small amount of gold is worth so much. But tangible assets such as silver we can understand, we can hold. Weapons, and I argue this again, and again, and again. You cannot share weapons. Buy in steel, implements that will last and can be handed down generation to generation, father to son, son to grandson. I own weapons that were made in 1891 and are as accurate and as capable as they were when they were made. That is over 100 years old. It is a matter of how they are maintained. Valuable are the manufactured items that we will not be able to purchase in the future. Bring all of these things together. Create a defense for your family, for yourselves, and for your friends. Resources of all types concerning tools. Anybody who is a man that has worked with his hands will know what a good tool is worth. The value of that tool can be passed down from generation to generation and they hate that. It gets all over their bullets and everything. What are they going to do? If we do not accept the mark we are going to have to take care of ourselves. They hate that thought of independence. They are terrorized by the thought that we as free people will stand up and we are going to have to do that. We are going to have to take care of manufacturing for ourselves. We are going to have to take care of

food production for ourselves. We are going to have to take care of ammunition, weapons requirements, reloading.

If you are not into reloading yet get into reloading now. Down the road here ammunition is going to be few and far between. Handgun Control Inc. has said two and three years ago, I have Sarah Brady on tape right here in Michigan. She said two things that everybody should remember. #1 "When we want to get your weapons, we are going to get your ammunition first." The next thing she said, "First we are going to get these weapons, but of course, our ultimate goal is to get everything." And what are they proposing now? By the way, I don't know if you have read Bill Clinton and Al Gore's latest book, but if you haven't you should. In four different chapters (I read this all last night, trust me. It was written to a sixth grade level unfortunately), and it was done in big block print which I'm amazed considering our people are supposed to be better educated than they were 100 years ago. What's fascinating is their solution to every problem at the end of every chapter, I'll give you an example. Children. Their solution the last two paragraphs is to pass the Brady Bill and to ban all assault weapons because they have no legitimate hunting purpose. Crime in America. What do you guess the last two paragraphs are? The exact same two I saw in the chapter before. Now don't you think this is strange that they feel I'm so stupid that they have to repeat it to me twice. Well, that wouldn't be so bad but it's in four different chapters in the book and virtually printed identically, one chapter after another. When you are trying to drive something to people's brain or brainwash them you repeat something over and over and over again and you convince them that this is the way something should be and you make them mimic what you have said. You don't want free thinking, freewill people. That's simple.

Your enemy is using tools he has always used before. Data, information, technical information. One thing that has happened I have seen this happen time and time again. You must have written knowledge where people can access it. You as a mentor, you have to become an educator for a student. Teach them what to do and how to do it. To do that you have got to have the technical data on hand. If you have a group of 10 people you must have 10 copies of that knowledge. Reloading, combat skills, farming, I don't care. Whatever subject it is disperse your knowledge. The printed word is going to be banned. Mark my word on this. I guarantee it. It has already happened with certain books concerning how to take care of and maintain firearms. You will see it again.

What can we do now? What are we supposed to do now? The thrust has to be deep into the vitals of the enemy. In order to do what we need to do at our end as citizens one of the things I can recommend is to throw up stumbling blocks for the enemy. We've proposed and we hope that it is in motion now and we believe it is, that at the state level we get involved with trying to reintroduce, for instance, our state borders into the *Constitution*. Our State borders aren't formulated. They are not in the *Constitution* now. Why?

Because these people have planned to restructure the government. To do that they have to change the State. This is simple. We are

going to find out who our enemies are real quick. How? The people who vote for this are citizens, are Americans. The people who don't vote for this obviously have another agenda and we need to know who those people are. Can we win? Absolutely. Will we win? It will be a long drawn out, rotten, nasty affair I would prefer not to see at all. But if we have a choice between freedom and slavery, I would rather gladly die standing on my feet with a weapon in my hand than to die in a ditch on my knees begging that somebody won't put a bullet in the back of my head. I do not plan on giving that legacy and leaving that to my children and none of you should accept that either. Together we must travel into the future with all of our people intact, with all of our freedoms intact. Without our *Constitution*, without our *Bill of Rights*, we are in a pretty sorry position as far as what we are going to hand down to the next generation. God bless the United States. Death to the New World Order. The Republic shall prevail.
Goodbye.

The People Speak Out!

People vs. FEMA, etc.

(Continued from page 7 of last week's CONTACT)

HIGHLIGHTS FROM CASE NO. 91C 314

1/8/94 NORA BOYLES

(This is the continuation of a summary, with excerpts, from a case filed in Illinois in 1991—People vs. FEMA, IRS, Corrupt Courts, Judges, etc. It is a Multi-District Litigation and appears to be a Class-Action suit. The complete text of the complaint of Plaintiffs: Mark Soto, Francis L. Harrigan, Raymond F. Nowak, Donald P. Thibodeaux, and all others similarly situated, is being copied by Dharma for Commander Hatonn for inclusion in an upcoming JOURNAL. See p. 7 of the 1/4/94 issue of CONTACT for a listing of the Defendants and a Summary of the Allegations.)

Hatonn has divided the complaint into segments for use in preparing an on-going summary in the CONTACT Newspaper. This week starts with Segment 4. The immediate discussion regards the Presidential Executive Orders taking Command of our society and treasonously turning authority over to FEMA. I believe a brief, descriptive listing of these Executive Orders will help show the all-inclusiveness of the "wholly unconstitutional and treasonous" scheme. Therefore, I also incorporate here parts of Segment 3 for your information regarding these Executive Orders.

The Director of FEMA shall, on behalf of the President:

1. Coordinate all mobilization activities of the Executive Branch, including production, pro-

curement, manpower, stabilization and transport. FEMA will be able to alter any existing contract.

2. The FRS (Federal Reserve System), with all its branches will become "fiscal agent to the United States" with dictatorial power over the economy of this nation.

3. The Treasury and the Export-Import Bank will be authorized to make loans under the direction of FEMA and the FRS.

4. During a "National Emergency" the President, an "Elected Official" would be stripped of all his Presidential functions.

5. Set-up an Executive Branch of the government and a National Defense Executive Reserve ("NDER") composed of persons selected (not elected) from various segments of the civilian economy and from government for training for employment in executive positions in the event of a "National Emergency" (Plaintiffs contend that the funding for the NDER was obtained from "S & L scams, from drug profits, etc.") Such "reservists" have been treasonously exempted from certain provisions of the federal criminal code, and may be employed "without compensation", e.g., shanghaied or blackmailed into service! Plaintiffs declare the NDER to be now (1991) fully staffed, or nearly so, and already in positions in most instances.

6. Seize and/or control every major national asset.

7. Provide for National Security and consolidate the assignment of emergency preparedness functions with various departments and agencies.

8. The Department of Justice shall develop plans for administering laws regarding the import, manufacture and distribution of narcotics, i.e., do anything it wants relative to narcotics since the term "emergency" purports to eliminate all "law". They are also ordered to take-over organized crime's drug rackets and "manage" them!

9. Declare martial law at any time!

10. Have the Dept. of the Interior take-over all potable water.

11. Place all food production under the Dept. of Agriculture.

12. Take-over all labor resources by means of lists already prepared by the Dept. of Labor!

13. Implement take-over of all forms of transportation by the Dept. of Transportation, assisted by the Civil Aeronautics Board.

14. Implement take-over of all nuclear facilities by the Nuclear Regulatory Commission.

15. Take-over authority and presidential functions of all emergency agencies and reduce the consequences of major terrorist incidents. (Plaintiffs contend that FEMA has hereby been "given a motive to instigate major terrorist incidents in order to trigger the related provisions of the Executive Orders".) They further contend that FEMA has been using the automatic triggering contained in the Executive Orders by having FEMA operatives create and/or provoke major terrorist incidents in order to justify an FRB (Federal Reserve Bank) silent coup under sham and pretense, without actual authority.

Plaintiffs provide supportive information in an appendix attached to the case and list

some examples of the "perpetuation of a silent coup". For example:

1. Declaring certain areas to be "military reserves" and cause American citizens to be removed from their homes and imprisoned without trial under the pretense of racial difference.

2. Another code provides that any military commander (under FEMA) can, under the color of "National Emergency", specify any area he desires as a military reserve, and designate anyone living there as a criminal!

In another section, Plaintiffs outline that FEMA and the Pentagon have divided the country into regions, corresponding to the federal judicial circuits, to be controlled by underground nuclear war command posts. And that, "through federal regional councils" located in regional "capitals"—Boston, New York City, Philadelphia, Atlanta, Chicago, Dallas-Ft. Worth, Kansas City, Denver, San Francisco, Seattle, New Orleans—they are superseding State and local administrations via FEMA operatives masquerading as judicial officers, prosecutors and other court officers.

[H: "If you consider ONLY that this is a BAD DEAL, then you are not thinking correctly. What you have here 'appears' to be so against you in separating you into groups that you will not THINK beyond that one point. No, readers, IT IS EASIER TO REGAIN BIT BY BIT BY BIT, THE WHOLE THAN TO GO AGAINST A GOVERNMENT LOCALIZED AND POWER STRUCTURED TO MANIPULATE THE LAST ONE OF YOU. You must take that which IS and utilize it."]

"The major region for such treasonous activity is Chicago, headquarters for the regional 'government' scheme of Defendant Laurance Rockefeller"... "located at 1313 East 60th St., Chicago." (This is the region of the Northern District Court and 7th Circuit Court of Appeals which are listed as defendants in the case, and as FEMA operatives.)

The Plaintiffs declare that since the so-called "end of the Cold War, the Federal Reserve Bank, by and through FEMA has already clandestinely ordered implementation of FEMA programs, or set about to provoke a national emergency for their rapid implementation." Several examples are given including the Oliver North, Iran-Contra affair. They further assert that FEMA's plan to effect the Federal Reserve System's silent coup provides that the *Constitution* be suspended and that all "undesirables" be "imprisoned, incapacitated or assassinated"!! I loved what Hatonn remarked here—[H: "I don't have any problem with incarcerating the BASTARD TEAM members into their own facilities—DO YOU? P.S.: Those foundationless rascals will 'change' to your side so quickly your eyes will cross."]

Plaintiffs list FEMA's additional treasonous activities including:

1. The Iran-Contra affair, the purpose of which they claim was not the cover story given out (as a transfer of arms for hostages) but was intended to disable President Ronald Reagan, ostensibly to test the FEMA emergency programs! Others within the administration (FEMA operatives) clandestinely proclaimed a "national emergency." One of the benefactors was

George Bush; also his son, Neil Bush.

2. The S & L /junk-bond scandal, the purpose of which is claimed to have been the embezzlement by FEMA/CIA operatives using CIA/Mossad operative Michael Milken's junk-bond scheme, in order to effect control over major financial institutions and finance the NDER, etc. The "emergency" in this case required the "radical solution" of setting-up the Resolution Trust Corporation (RTC)!

3. The commodity-trading scandal.

4. The Iran hostage crisis, including the plot to secure the presidency for Ronald Reagan through a \$40 million cash plus \$5 billion in weapons and spare parts bribe to the Ayatollah Khomeini and the CIA/SAVAK operatives controlling him, facilitated by the Saudis, George Bush, and William Casey. Said bribe was transported through Chicago conduits, via Defendant BCCI. Plaintiffs further state the hostage crisis was instigated by the Rockefellers and Henry Kissinger.

5. The invasion of Panama, necessitated by threats made by various CIA operatives to expose Bush's role in drug-running through Noriega and his role in the Iran-Contra affair, etc. Two main pipeline termination points for Bush's drug-money-laundering are (a) Panamanian Banks, (b) Chicago banks under the protection of FEMA's psuedo-judicial officers in the U.S. District Court of Northern Illinois and the 7th Circuit Court of Appeals.

HELTER SKELTER

In an article from the December 26 edition of *THE ORLANDO SENTINEL*, "All in all, it has been a very good year for Charles Manson.

"The notorious mass murderer has a song on one of the hottest albums on the pop charts, an officially licensed T-shirt—and a legion of young fans.

"Thanks largely to Axl Rose, lead singer of the phenomenally popular rock band Guns N' Roses, Manson is basking in a new glow of popularity among some too young to remember the grisly events of August 1969.

"No doubt about it, though: right now, Charlie is chic. At the Ameba boutique on San Francisco's Haight Street, you can buy Charlie Manson dresses, Charlie Manson hats, Charlie Manson leggings, Charlie Manson jackets, and Charlie Manson shirts.

"That's not all. The shop even carries its own line of Charlie Manson children's wear. It's selling briskly...

"To some kids today, he's a cult leader... This sure is one sick world we live in.

JEW'S PRAY TO BLOCK PEACE

In an article appearing in the January 4 edition of the *DAILY NEWS* (Lancaster/Palmdale, CA), "About 10,000 Jews thronged Judaism's holiest site Monday and prayed for the demise of the Israel-PLO peace accord."

PERSONAL INCOME GROWTH

Personal income growth

Fastest growth

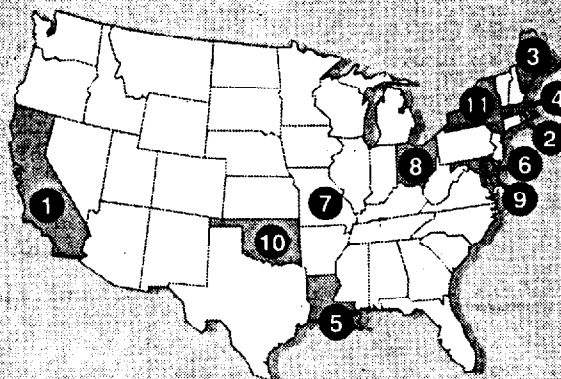

Fast-growing states generally are enjoying a rebound in construction and the manufacturing of durable goods, big ticket items expected to last 3 or more years.

1. Nevada	10.7	7. North Dakota	7.5

An article from the Fall 1993 edition (Vol. 32, #5) of the *POLICE TIMES* (published by the American Federation of Police) titled "All Points Bulletin": "According to Tod Robberson, to serve as Mexico City's finest you pay \$1 for each bullet you fire. \$50 for a uniform, \$200 a month for a gun to rent and \$65 for a police car per day. As a result, being stopped by a police officer in Mexico City is as dangerous and costly as by a highway man without a mask. Last fall Rafel Luviano was stopped for speeding. The price was \$350 stolen from his wallet, \$1000 that three officers forced from a bank machine, \$500 for the radio from his car and \$700 for his gold watch. After handing this all over, the officers pistol whipped him and he lost his eye. Mexico City has a 28,000 man police department and their corruption is a way of life. Their pay is so low they have to steal and tourists beware. One must remember that it was Mexico's local Interpol chief that "fingered" for the drug cartel the DEA agent who was kidnapped, tortured and murdered. Think again when you decide to travel to our border partner Mexico."

BATF VISITS

In an article sent to *CONTACT*, taken from the November 19 edition of *THE NEW GUN WEEK*, "The Las Cruces, New Mexico *BULLETIN* recently reported that local gun shop owners and their customers are up in arms about recent visits from Bureau of Alcohol, Tobacco and Firearms officers in which BATF agents hand-copied the names and addresses of all those who purchased guns within the past six months and beyond.

"The explanation of 'what they were doing'

varied depending on the team of agents who visited different establishments. The 'gun smuggling' story was told to some; others were told the bureau was doing this 'to prevent another Waco' or as part of a criminal investigation. Still other teams reportedly said they didn't know why they were taking down the information."

NORTH KOREA

In an article from the December 26 edition of the *JOHNSON CITY PRESS*, "A classified CIA document concludes that North Korea probably has developed one or two nuclear bombs, *THE NEW YORK TIMES* reported.

"The CIA's assessment represents the collective judgement of U.S. intelligence agencies, the *Times* reported in Sunday editions. President Clinton and senior officials received it in recent weeks.

"Clinton has pledged that 'North Korea cannot be allowed to develop a nuclear bomb.'

"Some officials argue the administration is playing down the study because it questions the effectiveness of diplomatic efforts to deal with the problem, the *TIMES* said.

"But other senior administration officials say claims that North Korea has a nuclear bomb or two are a 'worst-case' analysis. They say the conclusions are not based on conclusive proof, but on estimates of the amount of plutonium North Korea could have produced and assessments of how fast the program is progressing.

"Pentagon officials have said a pre-emptive strike against North Korea's nuclear facilities is unattractive because it could lead to war. They also say American intelligence officials don't know where North Korea has hidden its nuclear materials."

CDC & CONDOMS

In an article from the January 5 edition of the *DAILY NEWS* (Palmdale/Lancaster, CA), "Armed with videotape and foil-wrapped packets, the federal Centers for Disease Control and Prevention this week proudly presented its latest strategy to combat AIDS: nationally broadcast condom ads. Health and Human Services Secretary Donna Shalala praised the new campaign's vision.

"But let the viewer beware. Not only do the CDC's ads fail to focus on the highest-risk populations, but they also help perpetuate a myth about the indiscriminate ease of AIDS transmission and they place undue faith in the efficacy of the latex condom.

"The Clinton administration's new spots, hipper than anti-AIDS ads of old, will be aired on network television, cable outlets and radio stations.

"The ads are painstakingly vague, coy and non-judgmental...

"Moreover, the ads treat latex condoms as virtually infallible weapons against sexually transmitted diseases. 'A latex condom, used consistently and correctly, prevents the spread of HIV, the virus that causes AIDS, and may save your life,' many of the spots claim. But a study cited by the CDC last year shows that latex condoms, under laboratory conditions, fail to block HIV-sized particles about 30 percent of the time."

Finally they are beginning to admit, in a major newspaper, that condoms don't protect you! To long-time *CONTACT* readers this should serve as good confirmation.

The New Late-Term D&X Abortion Procedure

Under the radical "Freedom of Choice Act" (FOCA), the late-term D&X abortion procedure will flourish. With the D&X procedure, which is currently being used in the United States to destroy UNborn? babies from the fourth to ninth months of pregnancy, abortionists work to be sure that babies DO NOT SURVIVE!

Guided by ultrasound, the abortionist grabs the baby's leg with forceps.

The baby's leg is pulled out into the birth canal.

The abortionist delivers the baby's entire body, except for the head.

The abortionist jams scissors into the baby's skull. The scissors are then opened to enlarge the hole.

The scissors are removed and a suction catheter is inserted. The child's brains are sucked out. The baby is then "evacuated."

In the December 5 edition of the *ROCKY MOUNTAIN NEWS*, in an article written by Kevin McCullen, "Gerry Spence and other top defense attorneys plan to share their secrets with young lawyers next year in Wyoming.

"About 40 young attorneys will live at Spence's ranch near Dubois and learn from some of the best in the business during a month-long Trial Lawyers College.

"Some of the lawyers who have indicated their interest in teaching include Harvard law professor and columnist Alan Dershowitz, Vince Fuller—who represented John Hinckley, Jr. on charges of attempting to assassinate President Reagan—and defense attorney William Kunstler.

"The faculty also will include Spence, who has a national reputation for his successful defenses of such clients as Imelda Marcos and recently, Randy Weaver. An Idaho jury this fall acquitted Weaver of charges of murder and conspiracy in the death of a deputy U.S. marshal after federal authorities surrounded his remote Idaho home.

"I've been staggered. I haven't had a single turndown from any of the leading trial lawyers in this country.' Spence said last week from his office in Jackson, Wyoming.

"If the pilot college succeeds, Spence said, he hopes to see similar efforts started in other states 'because America needs good trial lawyers for people.'

"It's always been my dream to have a people lawyers' school, where corporate lawyers can't come, where prosecutors can't come, but where young lawyers can really learn how to represent people,' Spence said.

"Distrustful of corporations, Spence, in his latest book, *From Freedom to Slavery*, describes what he sees as governmental abuse of power. The Weaver case reinforced that view, he said, and reaffirmed his faith in entrusting a defendant's fate to a jury.

"But he said he believes young attorneys do not learn courtroom skills in law school and are forced to acquire them on the job.

"Would you allow a doctor to remove an appendix without knowing how to do it? No. But we don't do that with lawyers,' Spence said. 'Lawyers are not taught to care, to connect with their client and people, to lay themselves down for their client.'

"So Spence, with a few other attorneys and judges, conceived the Trial Lawyers College. The session is planned for August and will include discussions, mock trials and even lessons from a drama teacher.

"It's a great idea. There is a crying need to develop young defense lawyers,' said Denver attorney David Lane, a member of the Colorado Criminal Defense Bar.

"Spence said the cost to attend the non-profit session will be about \$3,000, although some scholarships will be awarded."

As Spence so eloquently says in the preface to his new book, "Although we give lip service to the notion of freedom, we know the government is no longer the servant of the people but, at last, has become the people's master. We have stood by like timid sheep while the wolf killed—first the weak, then the strays, then those on the outer edges of the flock, until at last the entire flock belonged to the wolf."

The following article comes to us from a newspaper dated August 4, 1972, and is written by Jack Anderson: "Experiments to control human behavior with science-fiction devices are being conducted secretly at the Army's high-fenced Harry Diamond Laboratories in Washington.

"To perfect the electronic behavior machines, Army scientists are spending \$50,000 this year and asking \$200,000 over the next two years. Ultimately, human guinea pigs will be used to test the devices.

"Although a classified memorandum in our hands specified the tests are for riot and civil disturbance control, the memo admits the general purpose of 'short-time-span control of human behavior.'

"The control will be exercised through a devilish complex of flickering, steady and unseen light rays, audible sounds and other tones too high for the human ear to hear.

"The main problem, the memo states, is the 'novel and unique devices/systems,' must be constructed so they will 'cause no permanent damage to target personnel' and to innocent bystanders.

"With this humanitarian thought recorded, the memo goes on to summarize the ultrasonics, audible aversive stimuli, unique communications techniques and methods of speech interruption; which make up the Army's *physiological/psychological studies*.

"Translated into plain English, the technical memorandum envisions such devices as these:

* Flickering light of varying intensity which can throw off the normal electric rhythms of the brain. This leads to confusion and can even break down the brain's ability to control the body.

* Sound outside the human hearing range which can cripple a person's ability to function. Audible sound, some of it so loud as to cause unendurable pain, can have the same general effect.

* Electronic sound devices which can interrupt, distort or mask speeches by troublemakers at demonstrations.

"When we contacted the Army to find out whether the tests were leading to a 1984 world of thought control, a spokesman pooh-poohed the possibility.

"This program is so limited,' he insisted. 'Why, it's just to see what the hell it takes to control a crowd as painlessly as possible.'"

And that was 1972.

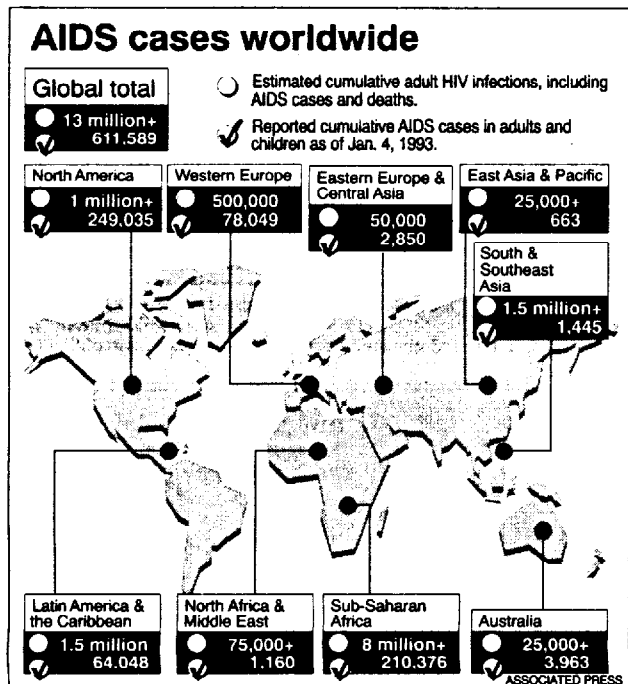

NUCLEAR MELTDOWN

In an article from *THE ORLANDO SENTINEL*, I believe December 3 (or close to it): "Nuclear researchers set off a meltdown Thursday in a reactor in southern France to test safety measures. Environmentalists called the experiment costly, dangerous and unnecessary. French nuclear officials said the radioactive gases given off by the meltdown, a virtual re-creation

of the 1979 accident at Three Mile Island near Harrisburg, PA, wouldn't get outside the reactor building. Live closed-circuit TV showed the Phebus reactor's glowing pool as its fuel rods melted and ruptured under intense heat. Researchers shut down the five-hour experiment 11 minutes early when a part of the reactor threatened to breach the first of three protective tubes surrounding it."

Nuts.

GOD WELCOMED IN CLASSROOM

In a story taken from the November 1 edition of *CHRISTIAN CONCERNS TODAY*, originally taken from the April edition of the *EDUCATION REPORTER*, "A new Tennessee law signed by the governor on April 12 affirms that it is acceptable for teachers in the public school classroom to use historical documents that mention God."

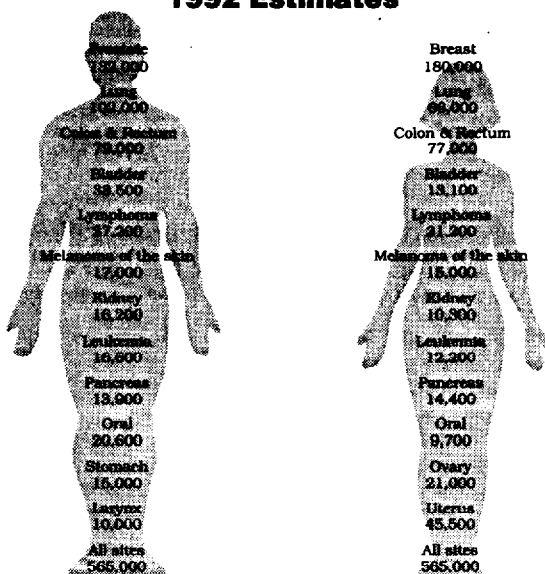

"The bill's sponsor, state senator Douglas Henry (D), explained that the law is the result of so much debate today over the appropriateness of mentioning God in public schools and what federal court decisions on the subject actually mean. The law is designed to prevent the censorship of religious references found in historical materials."

"The law states that 'it protects dissemination of patriotic information in schools' by making it written public policy that teachers can use the following historical documents just as they are written: the National Anthem; the Pledge of Allegiance (which affirms that we are 'one nation under God'); the Declaration of Independence; the writings, speeches, documents, and proclamations of the Founding Fathers, presidents of the United States, and governors of Tennessee; U.S. and Tennessee Supreme Court decisions; and acts of the U.S. Congress and the Tennessee General Assembly."

INDIAN AFFAIRS ABUSE

In a somewhat dated, nevertheless thought provoking article appearing in the November 25 edition of *THE ORLANDO SENTINEL*, "Rachel Moss, her hands cuffed in front of her, is being booked for disorderly conduct on Wyoming's Wind River Indian Reservation. It's 8 a.m. and Moss is intoxicated."

"Still standing, Moss spits at the officer. He shoves her in the face. She spits again. The officer stares momentarily at the spittle on his sleeve, then lunges at Moss. He swipes first at her jaw, then grabs two fistfuls of hair and smashes her head into the wall. She slumps into a chair."

"This startling scene involving a Bureau of Indian Affairs police officer was captured Feb. 28, 1993, on a booking room videotape obtained by The Associated Press."

"Every booking is taped at the Fort Washakie jail. Why would an officer beat a prisoner in full view of the camera?"

"Why not, when suspects are roughed up all the time?"

"The six-month investigation by The Associated Press found that BIA (Bureau of Indian Affairs) police officers routinely use force when arresting suspects and are rarely disciplined for assaulting them. Some officers readily admitted kicking and hitting suspects, and BIA officials told the AP some use of force was inevitable."

"Files released under the Freedom of Information Act included the case of an officer on the Ute Mountain Ute Indian Reservation who allegedly dragged a 14-year-old run-away out of squad car by her feet and punched her in the face, then said the blood the girl spit onto the carpet was evidence of her combativeness."

"On the Wind River Reservation, an officer broke a man's arm during an arrest for disorderly conduct."

"BIA documents revealed two instances of South Dakota's Rosebud Sioux Reservation in which BIA officers broke suspects' tailbones; one of these suspects was ordered to bend over the trunk of the patrol car, then kicked."

"Six of the 17 cases examined by the AP occurred on the Rosebud Reservation. The tribe became so frustrated with how BIA police treated its members and the agency's failure to investigate promptly or to discipline offending officers that it formed its own police force this year."

"Almost every police force in the United States can cite arrests when forceable restraint has injured suspects, sometimes even fatally. Big city police departments are sometimes accused of systemic brutality."

"But in most places, citizens who believe force has exceeded proper bounds have recourse, through official channels or with the help of advocates and watchdog groups."

"On Indian reservations, with BIA officers answering only to the distant U.S. Congress, such avenues are almost nonexistent."

"Furthermore, unlike most police forces, the BIA has no separate internal affairs unit. Complaints against BIA officers are investigated by their BIA supervisors—an arrangement one agency official admits is *no good*."

"On Montana's Fort Peck Reservation, the highest-ranking officer, the police captain, has himself been accused twice of misconduct."

"The BIA defended its officers and said brutality was not a problem. But officials also said high rates of alcoholism on reservations and entrenched disrespect for police made the use of force inevitable."

"BIA officials listed several other contributory factors:

* "Overwork. Until the Rosebud Reservation hired its own police, 11 BIA officers patrolled an area the size of Connecticut where 18,000 people live."

* "Cultural differences. Most BIA officers are American Indians [Native Americans], but only about half are native to the reservation they patrol."

* "History. The forerunners of BIA police were Indians hired by the federal government to keep reservation Indians in line a century ago and thus were widely regarded as traitors."

* "Today, many tribal members regard the BIA with contempt and consider BIA officers agents of conquering forces occupying their nations."

TEEN AIDS EXPERIMENT

In another article from the November 25 Orlando paper, written by John Gittelsohn, "Kamra Oswald said she had sex—symbolically—with only two people in a classroom science experiment this week. But it caused her simulated test for AIDS and other diseases to come up positive anyway."

"She learned a valuable lesson about sexually transmitted diseases."

"You can get it the first time, the second time, whatever," said Oswald, a senior at Northeast High School in Oakland Park.

"Oswald's science class for students in the dropout prevention program conducted the experiment to see how quickly diseases like AIDS, syphilis or gonorrhea can spread."

"She didn't really contract any deadly viruses. But she simulated exchanging bodily fluids with a couple of her classmates, and that was enough to become a statistic."

"Each of the students had an eye dropper

and vial filled with water. The water in the two infected vials was laced with sodium hydroxide, a colorless chemical.

"Students who wanted to simulate having sex would swap drops of water, mimicking the way a virus is spread. At the end of the day, the vials were tested to see who was infected."

EARTHQUAKES THIS CENTURY (Although somewhat dated, still a useful summary guide.)

HMO ORDERED TO PAY

In an article from the December 30 edition of *THE ORLANDO SENTINEL*, "A jury ordered California's second-largest health maintenance organization to pay \$77 million in punitive damages for denying a patient an experimental bone marrow transplant.

"Lawyers for breast cancer victim Nelene Fox had argued that Health Net's refusal cost the woman her life.

"Earlier this month, the Superior Court jury awarded her family \$12.1 million in compensatory damages.

"Glenn Campbell, a lawyer for the Fox family, said Tuesday's verdict in the breach-of-contract suit sends a message to HMOs that scrimp on care to save money."

WEAPONS LAB

In an article appearing in the January 6 edition of the *BAKERSFIELD CALIFORNIAN*, "The staff at Lawrence Livermore National Laboratory is boasting. They just can't say why. It's a secret.

"The lab, one of the nation's two centers for designing nuclear weapons, says its 21-member **Project Woodpecker** team got the Intelligence Community Seal Medallion late last year from the CIA and National Security Agency.

"It's even got the medallion on display.

"But what was Project Woodpecker? Sorry, that's a secret."

SUPREME COURT RULING

In an article appearing in the December 19

edition of *THE ORLANDO SENTINEL*, "The U.S. Supreme Court on Saturday declined to order a new hearing in the case of a pregnant woman who, for religious reasons, has refused a Caesarean section that doctors say is necessary to save her fetus.

"The high court decision clears the way for the woman to wait until she begins labor naturally—a delay that doctors have claimed could cause brain damage or even death to the fetus.

"With the court ruling apparently sealing off further legal action, the woman and her husband, 'will pray and wait for the natural birthing process to begin,' said Colleen Connell, an attorney with the American Civil Liberties Union who represented the couple."

HANTAVIRUS

In an article from the December 22 edition of *THE SPOKESMAN-REVIEW* (Spokane, WA), written by Cynthia Taggart, "A boy who tests show died in October from the hantavirus caught the deadly virus just outside Coeur d'Alene, his mother said Tuesday.

"Dyne Phillip, 14, had not traveled out of the area within 45 days of falling victim to the flu-like symptoms that turned deadly so fast..."

INFECTIOUS DISEASES

(Although somewhat dated, this chart is still a pretty-good summary, taken from the August 10, 1993 edition of *THE EMPORIA GAZETTE*.)

Emerging infectious diseases that most worry scientists:

Lyme disease: Very fast-growing, it has stricken at least 50,000 Americans since it was discovered in 1976, and the CDC contends many more have been misdiagnosed. If not treated quickly, this painful, tick-borne disease can debilitate, causing chronic arthritis and some heart problems. The National Institute of Health needed a \$5,000 donation from a private foundation to continue developing a more reliable test.

Bengal cholera: A deadly new strain of cholera has killed 5,000 people and sickened thousands more in India and Bangladesh this year. Some adults have died in only nine hours. Discovered just this spring, it's the first serious new strain of cholera in centuries, and it's impervious to vaccine.

E. coli O157: This new food bacteria got into Jack-in-the-Box hamburgers in January, killing two and sickening 500. First recognized just 10 years ago, it has become the leading cause of kidney failure in children. It had been thought to grow only in non-acidic foods, from beef to potatoes, but this year caused outbreaks in people who ate restaurant mayonnaise and drank apple cider. People get it from food and can spread it to others.

Hantavirus: A never-before-seen strain has killed at least 18 people in the Southwest since late May. Carried by rodents, hantavirus was a problem in Southeast Asia but had not been detected in the Western Hemisphere. Tests now show this mutated strain had attacked as early as last year but doctors missed it.

Cryptosporidium: This intestinal parasite spreads by contact with infected feces — anything from diapers to water tainted by farm runoff. It has gotten into U.S. water systems only four times, the last in Milwaukee, where it sickened up to 400,000 people. It had been found mostly in developing countries, but now has become a deadly problem for AIDS patients and day-care centers here.

Streptococcal bacteria: A virulent new strain of Group A strep, best known for killing puppeteer Jim Henson, emerged in the mid-1980s. It caused a fast-killing condition similar to toxic shock syndrome, instead of staph bacteria. Doctors are still baffled by it, and the number of cases is uncertain because few states can test for it.

Filovirus: Every few years, a new strain of this baffling virus suddenly strikes with very high mortality and then disappears. It apparently lurks in the jungles of Africa before each unexplained outburst. The Zaire strain, called Ebola virus, had an 80 percent mortality rate and was the world's most lethal virus until AIDS. In 1989, doctors found another strain in the Philippines that kills monkeys but is benign in people.

THE NAVAJOS

In an article from the December 19 edition of *THE ORLANDO SENTINEL*, originally appearing in the *WASHINGTON POST*, "For all of Joann Tortalita's life, outsiders have called her a Navajo, a name that she rejects as meaning 'thief'. Now, she and many other members of the Navajo Nation are seeking an official return to the tribe's ancient title: **Dine, or The People of the Earth**.

"Proposed by Navajo President Peterson Zah, the name change would restore pride, he said, and 'control over our own destiny.'"

ALZHEIMER'S

In a brief article appearing in the November/December edition of *ELDER UPDATE*, "Florida's number one long-term health problem? It's Alzheimer's disease, by a wide margin. The state has more than 288,000 Alzheimer's victims, the densest concentration of cases in the United States. By the year 2000, only seven years from now, that number is expected to double."

PROZAC

In an **absolutely baffling** article appearing in the December 19 edition of *THE ORLANDO SENTINEL*, originally appearing in *THE NEW YORK TIMES*, Boston: "Six friends, all highly successful professional in their mid-30s, met recently for dinner at a restaurant in Washington. The conversation moved quickly from politics to Prozac: It turned out that four people at the table were on the antidepressant.

"We all agreed we weren't seriously depressed anymore," said one, a writer, who is 34.

"Prozac users have their own computer bulletin board on which they compare experiences with the medication. One woman complained recently of a side effect: 'No sex drive whatsoever.' To which another woman responded: 'Keep trying Prozac—when it works, it's WONDERFUL!'"

"*Listening to Prozac*, by Dr. Peter D. Kramer, a Brown University psychiatrist, talks about how Prozac has transformed his patients, making them calm, confident, cheerful. It has been a best seller for more than four months.

"The latest in a series of Prozac cartoons in the *NEW YORKER* showed a beatific Karl Marx, on medication, saying, 'Sure! Capitalism can work out its kinks!'"

"In small towns and large cities and on college campuses across the country, the green and beige capsule that has been prescribed for more than 6 million people in the United States since it was introduced in 1988 has become—more than a topic of conversation—the focus of a legal drug culture.

"Not since Valium was held out as the answer to anxiety in the 1970s, and before its addictive na-

ture was widely recognized, have so many people seemed so willing to proselytize about a medication.

"Every now and then a medication comes along that develops almost a cult following," he said. "It's as though there were some mysterious power in the medication. It reflects our culture. People are always looking for a quick, simple cure."

Beware...beware...beware.

CHINA

In a dated but alarming article appearing in the December 5 edition of *THE ORLANDO SENTINEL*, China: "One hundred and forty criminals were killed in one day in the province of Henan at 'mass sentencing and execution rallies' designed to bolster China's law-and-order campaign..."

AIDS CONFERENCE

"In the December 17 edition of *THE ORLANDO SENTINEL*, Marrakesh, Morocco: "After a year in which 1.5 million Africans were infected with the AIDS virus, Paris Mayor Jacques Chirac told a conference on Thursday the disease could decimate the continent's 300 million people.

"At the closing session of a five-day conference on AIDS in Africa in this south Moroccan city, Chirac said, 'By the year 2000, that is tomorrow, there will be 40 million adults with the virus, nearly 20 million confirmed cases of AIDS."

THE ARMY'S RESORT

In an article from the December 21 edition of *THE BRADFORD*, "Join the Army and see the Magic Kingdom. The Army's going to be running its own hotel at Disney World in Florida, although some local hoteliers think it's a Mickey Mouse idea.

"The Army has contracted with Walt Disney for a 99-year lease to operate a 288-room hotel, which is a short walk from the monorail that will transport active, reserve and retired service members, into Disney World.

"The hotel, to be named *The Shades of Green on Walt Disney World Resort*, when it opens on Feb. 1, has a swimming pool and tennis courts and is situated next to two golf courses.

"It's like a quaint country inn, very cozy and comfortable," said Walt Disney spokeswoman Michelle Fisher. "It's a great property."

K K K

In an article from the December 24 edition of the *MODESTO BEE*, "The Ku Klux Klan's right to display a cross on the Statehouse lawn was upheld Thursday by a U.S. Supreme Court justice, a day after the cross was ripped down."

FLORIDA GUN DEALERS

In an article appearing in the December 6 edition of *THE ORLANDO SENTINEL*, "Buyers are cleaning out gun shops in Florida since passage of the Brady bill, a boom weapons dealers attribute to worries that even tougher restrictions are on the way.

"I would say our sales are probably close to double," Tony Gutierrez, general manager of Tamiami Gun Shops in Miami, said Sunday. "We've run out of some assault rifles."

"I'm sold out of every assault weapon we ever had,'...

"They're afraid they're going to ban guns."

SMALLPOX VIRUS

In an AP article dated December 25 from an unknown newspaper, written by Laurant Neergaard, "Smallpox will live to see another year.

"Scientists in Atlanta and Moscow were scheduled to simultaneously destroy the world's last remaining smallpox virus on New Year's Eve. But the plan caused such a furor that history's deadliest disease has won a reprieve.

"Smallpox is still a mystery—scientists do not even know how it kills. It [has] claimed hundreds of millions of victims since its first recorded attack in ancient Egypt.

"Next month, a World Health Organization committee will meet to review just how much researchers have learned from genetically mapping smallpox and whether they expect more mapping will reveal additional information."

ISRAELI RABBI

In an article appearing in the December 20 edition of *THE ORLANDO SENTINEL*, "A leading Israeli rabbi Sunday urged the country's soldiers to disobey any orders to remove Jewish settlers from the West Bank, Gaza Strip or Golan Heights or to take other forceful actions against them, asserting that God wants them there and the government would be wrong to move them."

THE CONGO

In a recent story from an unknown newspaper, Brazzaville, Congo: "The government is about to lay off workers who have been doing some serious lying down on the job—they're dead. In February, the government estimated that 10 percent of its payroll was being paid to third parties in the name of people who had retired or died."

Kinda like our government.

How Europe's secret services line up

UK
DOMESTIC: Security Service or SIS, under Home Office control. Mainly concerned with terrorism (chiefly IRA), counter-espionage, nuclear and chemical proliferation.
Head: Stella Rimington.
 Employs about 2,000. Budget officially secret, believed to be £200m-£250m in 1992. Includes cost of ministerial protection.
FOREIGN: Secret Intelligence Service (SIS) or M16, under Foreign Office control. Main areas: eastern Europe, Middle East, proliferation.
Head: Sir Colin McColl.
 Employs about 2,000 including UK diplomatic staff overseas. Budget official secret. Running costs believed similar to M15.
COMMUNICATIONS: GCHQ, under Foreign Office control. Specialises in signals intelligence, including electronic intercepts and satellite monitoring.
Head: Sir John Adye.
 Employment and budget official secrets. Believed to employ about 6,000-7,000 estimated budget over £300m.

Netherlands
DOMESTIC: Binnenlandse Veiligheidsdienst (BVD). Counter-espionage, combating organised crime, surveilling foreigners.
Head: Arthur Docters van Leeuwen.
 Employs 600.

Germany
DOMESTIC: Bundesamt für Verfassungsschutz, under interior ministry control. Counter-espionage, anti-terrorism, combating extremist political groupings.
Head: Eckart Werthebach.
 Employs 2,300, further 2,500 in Land offices. Budget DM227m (1993).
FOREIGN: Bundesnachrichtendienst, under control of chancellor's office. Anti-terrorism, proliferation, drugs smuggling, money laundering.
Head: Konrad Porzner.
 Employs 6,500, of whom 3,500 in HQ near Munich, rest in 70 foreign "residencies". Budget Officially secret, believed near DM1bn.

Italy
DOMESTIC: Sismi, under interior ministry control. Anti-terrorism; intelligence collection and assessment; technical and scientific.
MILITARY INTELLIGENCE, NATIONAL SECURITY: Sismi, under defence ministry control. Counter-espionage, organised crime and terrorism; foreign operations; communications and electronic monitoring.
 Two bodies to be merged into a single Central Security Agency. Employed 4,421 in all branches in January 1993. Following scandals, 487 fired, arrested or retired early.
 Annual combined budget: 1992: L696bn of which L358bn covert funds. 1993: L724bn.

Spain
NATIONAL SECURITY: Cesid department of defence ministry. Gathers and distributes intelligence inside and outside Spain.
Head: General Emilio Alonso Manglano.
 Most staff military. Budget and operational strength classified.
DOMESTIC: Guardia Civil, which provides security for frontiers, small towns and rural areas, and Policia Nacional, which polices big cities, run own intelligence agencies, controlled by interior ministry.

France
DOMESTIC: Direction de la Surveillance du Territoire. Counter-espionage. Duties re-oriented to combating industrial espionage on French soil, as well as tracking foreign political activists (Algerians, Kurds etc).
Head: Philippe Parant. Number unknown.
FOREIGN: Direction Générale du Service Extérieur.
Head: Jacques Dewatre.
 Numbers: secret, but increased by 15 per cent in 1988-92.

Conspiracy Confirmation

1/8/94 NORA BOYLES

The following article was received on 1/5/94 at the CONTACT office from an anonymous source. It has been taken from an article in the Sunday Portland Oregonian, 6/23/1974. The name of the publication reprinting the article is Rise And Fall of the United States. There was no information as to the publisher, the editors, or the date of this reprinted article in the material received.

THE BILDERBERGERS

We reproduce a feature story concerning the much discussed Bilderbergers, a group promoted by the royalty of Holland for the purpose of discussing international affairs in secret meetings. The results of these conferences can scarcely be determined, and in observing the activities of this group we must avoid two things: an over-emphasis of their power and an under-emphasis on the importance of careful observation.

The dispatch reads as follows:

It's been 20 years since Prince Bernhard of the Netherlands first produced his formula for promoting the cause of transatlantic harmony.

He introduced the idea of an international think tank, comprising top people from the United States and Western Europe, able to speak with total frankness on issues ruffling the Atlantic alliance.

Bernhard gave the participants privacy. The think tank was almost hermetically sealed from the press.

The first assembly was held in 1954 at the secluded Bilderberg Hotel lying in wooded countryside not far from Arnhem, Holland. The name of the hotel caught on and the Bilderberg group has continued to meet in different countries with different participants.

Always, however, the chairman has been Bernhard, the German-born prince who married Queen Juliana while she was still a princess. Bernhard later fought with the Allies in World War II.

Gerald R. Ford attended two Bilderberg meetings long before he became vice president of the United States.

"You don't really belong to the organization; one gets an invitation from the prince," Ford said in 1965.

At various other times, the prince has requested and obtained the presence of Henry A. Kissinger — 1971, Woodstock, Vt. — Helmut Schmidt, now West German chancellor — 1973, Salsjoeboden, Sweden — former U.S. Secretaries of State Dean Rusk and Christian Herter; Thomas E. Dewey, former governor of New York and twice Republican presidential nominee; former British Prime Minister Edward Heath, Amintore Fanfani of Italy and so on.

Bernhard promised the conferees privacy, and the 1974 meeting in April was no exception.

It was held in a luxury hotel at the French ski resort of Megeve. Before the meeting, Bernhard entered the downtown press center, the Megeve Sports Hall, which was practically surrounded by police for the occasion.

He announced who had been invited to the meeting and what the topic would be. He then declared there would be no more information on the three-day session and according to one French newsman aroused the wrath of assembled journalists by adding: "In fact, we just don't want you around."

Reporters were never allowed to enter the hotel where the sessions were held.

There was only one topic at the meeting; Prospects for the Atlantic world.

Eighty persons were invited and among those Americans who turned up were NATO commander Gen. Andrew Goodpaster; former U.S. Undersecretary of State George Ball, David Rockefeller, head of the Chase Manhattan Bank, and Sen. Walter F. Mondale, D-Minn.

Many of those invited from France stayed away because of the French elections.

Bernhard has made it clear that participants who deal with the press won't be invited back.

Apart from that, he likes to change the faces. There is often a 50 per cent switch in representation from one year to the next.

Procedures have become well established. The main speakers get 10 minutes, other participants are limited to five. Papers written by both American and European participants are dis-

tributed in English and French, the two languages of the conference. Votes are never taken and titles are never used. A government official or an ambassador is plain mister, Bernhard is Mr. Chairman.

He is often accompanied to the meetings by the eldest of his four daughters, Princess Beatrix, heiress to the Dutch throne.

"Trix has no voice," the prince said once. "She listens."

The prince is unrepentant about the secretiveness of the meetings.

"The purpose of the conference," he has said, "is that eminent persons in every field get the opportunity to speak freely without being hindered by the knowledge that their words and ideas will be analyzed, commented upon and eventually criticized in the press."

His pulling power appears to date from World War II. Having taken his family into exile, he won his wings with Britain's Royal Air Force and reputedly got into rows with the British for going on unofficial bombing excursions over Germany.

He ended the war as commander in chief of the Dutch armed forces and a good friend of Gen. Dwight D. Eisenhower.

AMSTERDAM, the Netherland (AP) — Following is a list of American participants at the April Bilderberg Group meeting in Negeve, France, as released by the organization's secretariat.

Graham T. Allison, Harvard University; former Undersecretary of State George W. Ball; C. Fred Bergsten of the Brookings Institution, Washington; Miriam Camps, Council on Foreign Relations, New York; James Chace of "Foreign Affairs," New York; Emilio G. Collado, Exxon Corp., New York; Gen. Andrew J. Goodpaster, commander of NATO forces in Europe; Henry A. Grunwald of Time magazine, New York; Henry J. Heinz II, Pittsburgh, Pa.; Walter J. Levy, New York; Sen. Charles Mathias, R-Md.; Sen. Walter F. Mondale, D-Minn.; David Rockefeller, chairman of the Chase Manhattan bank; Nelson A. Rockefeller, former governor of New York; and Helmut Sonnenfeldt, U.S. State Department, Washington.

The Cross and The Flag

[Nora's Comments: This particular article is important to your understanding of the network of "Elite Conspirators" and some of their related connections to the Law Case filed in the Northern District of Illinois in 1991. (See ongoing summary of this case on page 5.) The same names keep appearing again and again.]

We are being given some information as to how this "Bilderberger" group is (was) organized—mainly by Prince Bernhard of the Netherlands. Keep in mind though that Prince Bernhard is related through marriage to all of the other "Elite". His promotion of the "cause of the Atlantic World", can more rightly be described as "promoting the cause of the Elite."

It was reported in the Oregonian what may be the origin of those subversive "think tanks" in the United States, and a high-level, secret (as far as discussions go) penetration of our elected, constitutional government, and our free-press. This high-handed dictator appears to have arranged the conclave to suit himself, although he undoubtedly was working "hand-in-glove" with others. Obviously, influential attendees including U.S. Governmental persons at the meeting acquiesced in the plan. WHY would any loyal U.S. Constitutional Government official even consider accepting an invitation to such a secret, foreign, dictatorial conclave?

The fact (?) that Prince Bernhard flew "unofficial bombing excursions over Germany" certainly DOES NOT give him the right to orchestrate, or chair, a meeting with U.S. Government officers and influential Americans to arrange any kind of secret understandings or agreements regarding the "cause of the Atlantic". This IS a subject that, in America, rightly belongs to OUR OWN ELECTED OFFICIALS, and should have been OPENLY DISCUSSED WITH THE AMERICAN PEOPLE through a FREE PRESS.

Take note of those persons involved, for even the Oregonian, to my personal knowledge, NO longer makes such revealing reports! (Remember the Oregonian article was written in 1974.) I believe every participant in these ongoing "Bilderberger" conclaves should be investigated for TREASON!

Take particular note of the number of "Rockefeller" participants, including their well-known allies, Gerald Ford and Henry Kissinger. Regarding such "Rockefeller"

notables, I received a copy of another publication which was compiled with the assistance of *The American Citizens and Lawmen Assoc.*, *U.S. Law Enforcement Professionals Assoc.*, and *Aid & Abet Police Newsletter*. It is called *Operation Vampire Killer 2000*, P.O. Box 8712, Phoenix, Arizona, 85066. [Please see the 12/29/92 and 1/5/93 issues of CONTACT's predecessor, THE PHEONIX LIBERATOR for an in depth presentation of Operation Vampire Killer 2000.] In this booklet I believe there is a copy of very incriminating quote from David Rockefeller during the 1991 meeting of the Bilderbergers at Baden Baden, Germany:

"DAVID ROCKEFELLER: Internationalist billionaire, Humanist, CFR kingpin, founder of the Trilateral Commission, World Order Godfather (and in all probability the High School graduate voted 'Most Likely to Be Hanged for Treason'), voiced his praise of the controlled U.S. media for keeping their oath not to divulge the Globalist plans to the public.

Speaking to his fellow conspirators at a meeting, June 1991 in Baden Baden, Germany, of yet one more infamous World Order group, the Bilderbergers, Mr. Rockefeller said:

"We are grateful to *The Washington Post*, *The New York Times*, *Time Magazine* and other great publications whose directors have attended our meetings and respected their promises of discretion for almost forty years."

He went on to explain:

"It would have been impossible for us to develop our plan for the world if we had been subject to the bright lights of publicity during those years. But, the world is now more sophisticated and prepared to march towards a world government. The supranational sovereignty of an intellectual elite and world bankers is surely preferable to the national autodetermination practiced in past centuries."

[Nora's comments: I differ with David Rockefeller in his assessment of the world

being "more sophisticated". HIS OWN WORDS PROVE THE WORLD IS MORE IGNORANT AND UNINFORMED! In fact DAVID ROCKEFELLER'S words prove the "Bilderbergers" are an international conspiratorial body as well as proving that the MEDIA is part of the conspiracy. Who can doubt now that "our" press is controlled and that they are part of the larger conspiracy of the One Worlders? Remember, one of the larger "controllers" is actually Baron Thomson of Fleet in London, England who is the one who it is planned will be the one publisher for the One World Order Government!

With the unfolding case regarding FEMA, the IRS, the courts, etc., and the information coming forth on the controlling headquarters in Chicago of Laurance Rockefeller's "Region of the U.S.", you are getting more and more confirming revelations about this particular subversive family and their co-conspirators.]

Franklin--Zapata-- Inslaw Connections

Renick & Vassilos PEEL THE ONION

Editor's Note: What follows is (another) amazing interview-conversation between Ray Renick, currently a prisoner in San Luis Obispo, California, County Jail, and James (Jim) R. Vassilos, (former) Chicago, Illinois attorney, with Rick Martin for CONTACT, on January 7, 1994.

Due to the difficulty in recording Ray's conversation from jail, Jim was on the phone with Ray and transmitted Ray's words to Rick. Ray & Jim do not hesitate to name names and places to uncover and expose alleged important connections.

Remember that herein we are merely reporting the conversation which took place and we are quoting from that conversation directly. Discerning CONTACT readers must always keep in mind, when reading an interview such as this, that the information and opinions expressed are those of the individuals being interviewed.

-- Dr. Edwin M. Young
Editor-In-Chief

1/7/94 RICK MARTIN

Jim: If you would please. Ray has Franklin [Cover-Up] related material and so do I. Ray wants to dictate it through me because of the garbling when they screw-up his phone from the jail.

Rick: Good, great.

Jim: Alright, Ray.

Ray (being relayed by Jim): Some of this is going to be old stuff, but is preliminary to

understand the new stuff. In Gary Wean's book, *A FISH IN THE COURTHOUSE*, Gary talks about William P. Clark and his relationship to the Kennedy assassination and the fact of the machine gun from the National Guard Armory. When you talk about William P. Clark, you've got to realize that behind him you've got Mrs. Joan von Braun-Clark, Werner von Braun, and Reinhart Gehlen—and you know that Reinhart Gehlen is still alive and is still in San Luis Obispo (SLO) County.

In Gary Wean's book, Clark is associated with L.A. gangster Mickey Cohen and Menachem Begin of the Israeli Mossad Mafia, and he [Begin] was a terrorist. Also mentioned with that group is a man named Abraham Davidian, as in Branch Davidian and Waco. Now, allegedly all of this takes place in L.A. and Central California. In Los Osos, where Ray lives, they have a man named Jerry Schlesinger, who is a relative of James Rodney Schlesinger, who was director of Central Intelligence (CIA) for Nixon. Jerry Schlesinger and James Rodney Schlesinger are both from New York City. Jerry Schlesinger also lived, for a while, in Long Beach, California—which was Governor George Deukmejian territory. James Rodney Schlesinger, as head of the CIA, was also head of Operation Zapata, the drug trafficking. And Jerry Schlesinger is the West Coast representative of Zapata. And they all are representative of the Israeli Mossad Mafia. James Rodney Schlesinger was replaced by George Bush as Director of the CIA.

Also, Nelson Rockefeller, who was appointed

to be Vice President, was murdered and replaced by Gerald Ford. So the balance of power swung from the Israeli faction to the George Bush faction. But Gerald Ford could not get re-elected and Carter was elected, and that swung the power to the Rockefellers.

In Los Osos [where Ray lives] Jerry Schlesinger is a building contractor and drug dealer on a large scale. Jerry Schlesinger has very close relations with an investigator from the SLO Sheriff's Department named Mike Sheridan. Eddie Haworth is a go-between drug dealer for Jerry Schlesinger. Mike Sheridan owned the house down the street from Ray Renick, which was directly across the street from Jerry Schlesinger. Mike Sheridan rented that house to another Sheriff, a Detective named Bill Womack. For many years, Ray would tell Bill Womack information on Schlesinger, the drug dealers, and the whole works in SLO county. Womack did not want to hear it and was irritated when Ray would tell him. Womack is now scheduled to testify against Ray at his trial on January 14. Since Bill Womack is right in the middle of all the drug dealers, there is a very big conflict of interest; however, there is a very big problem because the Public Defender, Mike Adams, has turned completely against Ray, has refused to subpoena anyone, and Ray has brought up 20 points of fact and law, and Mike Adams said, specifically, "I will not do any of these things." That Mike Adams brought a motion to dismiss the attempted murder charge, based on a couple of words in the arrest record, was just

a *fade-or-grey* nothing motion just to appear to be doing something, but not actually doing anything, like subpoena people or bring up the 20 valid fact and law issues. The judge, who is Christopher Money, was the District Attorney during the Inslaw and drug investigation of Dennis Dayle. The judge, the prosecutor, everybody laughed it out of court and Ray is now left with the Public Defender who has turned 100 percent against him. And we desperately need to find Dennis Dayle. If anybody who reads your paper knows his address or phone or anything, if they could call CONTACT and leave the information, Ray could get around this Public Defender who is screwing him terribly.

The Sheriff of San Luis Obispo County, Ed Williams, got a lot of sweetheart deals from the building contractor/drug dealer, where Sheriff Ed Williams made hundreds of thousands of dollars. It was in the local newspaper, the *TELEGRAM TRIBUNE*, five or six years ago, by a reporter named Tom Fulks. There is another building contractor/drug dealer in this area that Jim might know something about: Roger Himovitz--also from Chicago, Mafia Mossad Israeli. Eight or ten years ago, other neighbors of Ray's went back to Chicago to a Godfather-type wedding, of Himovitz.

Rick: Of who?

Ray: This Roger Himovitz, who is a drug dealer and builder in SLO County. Himovitz is connected to the Chicago branch of the Israeli Mossad Mafia.

Jim: I only just heard about it this minute.

Ray: There is probably something bigger going on in this county, San Luis Obispo County, California, than we realize and we're back to the Reinhart Gehlen-William P. Clark-Werner von Braun faction again. Some people might be able to substantiate it. Reporter Tom Fulks probably could, but probably won't.

The area down in the Nipomo Mesa, where Pomeroy road and the Pomeroy property is, and the junk yards owned by Ruth Brandon which are methamphetamine labs, is generally known by most people as the *devil's playground* due to the rampant satanic ritual murders and other satanic activity that goes on there.

Jim: That's about it for Ray right now. You still have any tape left for some stuff here locally [*meaning Chicago area*]?

Rick: Yes, we have tape left. Let's keep going.

Jim: After our last conversation, which you published [*this was a super dy-na-mite conversation, on page 13 of the 12/21/93 CONTACT*], I went on record, in writing, and predicted that there would be another perpetration because this fellow is a satanic murderer who is loose from the coven. He's like the Dahmers or a Gacy or a Speck from his controllers. And, in fact, over the Winter Solstice, the satanic, high sacrifice holiday, there was another perpetration after I talked to you...a sixteen year old girl named Beth Bosworth was murdered in McHenry County, by multiple stab wounds, deep stab wounds to the chest, the same way that Tricia Pacaccio was murdered Friday the 13th. And it is, most probably, the same serial killer. And the police, I believe, know who this man is because they grabbed one of my people, searched all of his records and found the paper that identified the perpetrator. After that is when this guy Dave Carter, the satanic murder, cover-up, gunman

was put on to me, and it was after he was put on to me that there was this second--at least the second that I know of, there may be other people this guy has killed--the second perpetration. So this is an active serial killer in this area; the police know who he is. They have a written document that identifies him and yet they'll do nothing about it. And it's my belief that they'll do nothing about it because it's related to Glenview Naval Air Station, the Baha'i Temple, the human sacrifice, Judge Carol Kamin Bellows, and Judge Jane Waller, who's the wife of the State's Attorney. She's a practicing witch and a human sacrificer in Lake county, which is right next to Cook County. Judge Carol Kamin Bellows, practicing witch and pedophile and human sacrifice judge in Cook County and Bonnie Wheaton, the wife of the grandson of the founder of Wheaton, Illinois, which is the other county--it's like an L, nexus, the elbow, Lake goes north and DuPage goes west. They're all in a satanic coven; they sacrifice babies, and Carol Kamin Bellows is connected to the Mossad and the Israeli beta-seth Talmudic Sacrifice, Hebraic Talmudic ritual human sacrifice.

Rick: Jim, how have you gotten the information about these particular active satanic members?

Jim: From court. They've actually been identified in civil cases where witnesses have gotten on the witness stand and said, "I was present at the ritual sacrifice." And they've been named. A Federal Judge Harte, in Chicago, entered a written decision in a case where he said, "Even though a baby was murdered, what harm? Case dismissed." And two cases have been dismissed that named the human sacrifice locations, perpetrators and everything.

Rick: Do you happen to know what those cases are?

Jim: I can give you the one case very quickly and easily. Now, I could dig-up the other ones for you.

Rick: Ok, that would be helpful.

Jim: The one that I can get you very quickly and easily now, where the witness is on the stand, identifying human sacrifice names and perpetrators--if you just give me a minute: case number 92C7661--it was Mike and Gail Stosek, the adoptive parents of a girl who was pedofiled, sued David and Robin Swaziek.

Rick: What year is this?

Jim: 1992. The trial was only about two weeks ago. And the judge was Suzanne Conlon, a Federal Judge in Chicago who is also a witch. They put the case in front of a practicing witch, who completely covered it up, dismissed the case. But in that case, the documents and testimony identified satanic human sacrifice and pedophilia (case in the 7th Circuit Federal District Court, Chicago, IL). And it identified the Wheaton-DuPage County human sacrifice and pedophile sex ring, and it ties into [*Judges*] Carol Kamin Bellows and Jane Waller, who are in Lake and Cook Counties.

I have another case, multiple cases; I don't have it all in front of me right now.

Rick: Ok, I'm just concerned about verification.

Jim: I've got documents, pleadings, witnesses, the evidence is abounding--not mini-

mal, but large! And I can get that for you in the future.

Rick: Yes, it would be helpful to have some hard copy as backup.

Jim: Well that's true. The problem is, the files are closed, the copies are stolen! I sent someone down to the courthouse to get 92C7661; the complaint was stolen out of the file. That's the problem!

Rick: That is a problem. [*I--Rick--telephoned the clerk of the Federal District Court to verify this case number and the parties to the action. I was told that this is a valid case number, the case was closed 12/20/93, and the parties were Doe v. Johnson, a civil rights case, which tends confirm Jim's statement.*]

Jim: And they know it, that's why they did it. I can come up with live witnesses but, you know, you can't record everybody on the planet. I'll get hard copy for you.

I have confirmation that should be very interesting to your readers. One is an overt confirmation that Janet Reno, on December 29, 1993 announced that she was going to reopen the Danny Casolaro investigation. Number two: on or about the same date, this is covert, that Janet Reno told certain persons privately that she was going to reopen the *Franklin Cover-Up* case. Did you get the books I sent to you?

Rick: Yes, I did; thank you. They were very interesting!

Jim: Well, that's the hottest thing. That is going to be, oh, Nick O'Hara, who was the FBI, SAIC (Special Agent In Charge) in Omaha, committed numerous murders, whose trademark was a .22 above the left ear; he was transferred to Minnesota where he perpetrated another murder to cover up another pedophile situation. He was fired within the last, approximately, 10 days. He was suddenly retired 15 years early. Also, the SAIC of New York, was sudden-retired in the last week of December at the very time that we heard that Janet covertly announced that she is going to reopen the case. So, it's two FBI station chiefs, of two large, important stations, have both been, what in that trade amounts to being *sacked*, you know, into early retirement. So, it's a positive sign. And it's also a sign that they're going to start to, media-wise, open up the *Franklin* situation all across the country. Ray is concerned that they'll never get to California because there is so much high-level Gehlen-von Braun, the world-control stuff, that is so much bigger than California.

The local people call the Pomeroy road and the Pomeroy property "the devil's playground". And that area was featured in the book *ULTIMATE EVIL* by Moury Terry, which is another place, by the way, that you can get confirmation of names, dates, places, perpetrators and victims. *THE FRANKLIN COVER-UP* book, *ULTIMATE EVIL* book, and *PAINTED BLACK* by Carl Raaschke are other places for confirmations.

Rick: Who was the author of the last one?

Jim: Raaschke, who is a Dr., a Professor in Colorado, I believe at the University of Colorado. So, it's a whole thing that apparently is being funded out across the country with official agreement.

Rick: Well I find it interesting that the Danny Casolaro case is going to be reopened.

Jim: Well, notice they didn't say Inslaw, they said Danny Casolaro. Do you see the difference? There's a BIG difference! Sure, they'll investigate one murder, but are they going to open up the whole Bush can of worms and take Bush on for treason?! That's one of the things, when Michael--as you know, I represented Michael Riconosciuto in Chicago before the treason, National Security Grand Jury that could have tried Bush and executed him for treason. That's when the sixty, approximately, were murdered. Including three of Michael's prior lawyers. Paul Wilcher was the fourth lawyer associated with this thing who was murdered [see pages 19 and 44 of the 7/6/93 CONTACT and page 24 of the 7/13/93 CONTACT]. But there were three other ones: John Crawford, Allen Michael May, and Dennis Eisman, who were murdered during the [garbled] and before the grand jury. So, and then of course, I was jailed, and then disbarred. Most of that is in Rodney Stich's book [DEFRAUDING AMERICA]. It's not quite linked up to the Grand Jury. Rodney wasn't here; he just wasn't present to see and hear all that was done like those of us who were present. [A side-note: Renick phoned later that day to inform me--Rick--that Michael Riconosciuto, who is serving time, had been "moved" within the last week or so to a prison in El Reno, Oklahoma. The report is that the conditions are deplorable, weather at zero degrees, broken windows in the cells where birds can fly in. Michael suffers from a condition known as Central Nervous System Sleep Apnea, which is aggravated by unsanitary conditions and cold. Michael is supposed to have access to a C-Tap machine for oxygenation, but is being refused this treatment at present.]

Rick: Are you a little safer now than you were?

Jim: I wonder; somehow it feels like the pressure is off. It's not completely gone. The FBI, specifically, has been hot on my phone within the last four days, bugging me. Oh, the FBI, effective all across the country, because the FBI station chiefs are being fired, they have turned over the harassment to the ATF and to local police, their local operatives in the local police.

I talked to some deep covert people and they say it's not good, but it's at least a change.

Rick: Let's talk just for a moment about Ray's trial. Can you give me more specifics on that?

Jim: Ray, can you give us more specifics? Is January 14 still the target date? Alright, they've buried the date now. They have now announced that they "may" start the trial on January 10 or they "may not" start it at all that week. They're pulling the same games that they've pulled over the last nine months--the phantom, unknown court date, subject to immediate change without notice.

Oh, William Sessions was once the station chief in Santa Maria. Is that California? (Yes.) It's my opinion that the Franklin stuff and Operation Zapata and Inslaw are all connected. That the people, the participants, the perpetrators, the criminal perpetrators overlap. I would say, more than I believe it, it's traceable. It would take more than this phone conversation, but we could sit down and lay out all of the players and all of the interconnecting links and we could show the overlap of the participants.

Rick: That would be a worthwhile project.

(A return call from Jim some hours later...)

Jim: I was reviewing our earlier conversation in my mind and realized I left out a few names. The content is approximately the same. The Senior Special Agent in Charge, SAIC, pronounced SACK, in New York, who was forced into early retirement was FOX. He would have retired in '94, but was forced in the last week of December to get out now. The Senior Special Agent in charge in Minneapolis was NICK O'HARA. He was from Omaha, Nebraska, personally linked to numerous murders in Nebraska and at least one murder in Minneapolis, and he was only there for a short time. He was forced out approximately 15

years early, so that was a real message to the FBI across the country.

In addition to that, Ray had said that Inslaw = Zapata = SLO County. I'm sorry, it was: the Franklin Cover-Up = Zapata = Inslaw, and you had said it would have been a good job to link the cross links in the names. The one name that is at the top of Franklin, the top of Zapata, and the top of Inslaw is **GEORGE HERBERT WALKER BUSH!** Those three major scandals are all linked, at the top, to George Bush, personally. So, although it would take a long time to trace out all of the names, the one name that the people should recognize is George Bush!

Attend YOUR Calling

(Continued from Front Page)

simple game played every day. At some point, don't you see, the courts get into the subterfuge too deeply to continue to play in the deceit and have to rule with the goodly to keep selves from FALLING! BUT IT MEANS: YOU HAVE TO KEEP UP AND KNOW WHAT IS GOING ON! THE ADVERSARY IS NOT GOING TO ROLL-OVER, CONGRATULATE YOU FOR A GOOD JOB OF GOODNESS AND GO AWAY! You who expect GOD to step in and do miracles for you are not going to witness any--because the adversarial brats are praying far harder to GOD than are you--FOR MIRACLES! The difference is, they will continue to WORK in every devious way possible to hold their evilly acquired assets--from their rear-end to their gold pieces of treason and betrayal acquired. But why continue to struggle with these adversaries? Because it becomes important that YOU ONES QUIT LETTING THE EVIL BEARERS WIN! THEY HAVE ALL BUT DESTROYED THE ENTIRE PLANET WHILE YOU LET THEM DO SO AND SLEPT YOUR DREAM OF RESTLESS LUST. So, why would I ask Dharma and E.J. to continue on and on when it

becomes easier to let it all go, having lost all assets anyway? Because the actions and manipulations are WRONG and the wrongs must be brought into the LIGHT OF DAY if goodness is to be again brought forth. IF A 'THING' IS DONE IN SECRET--LOOK CLOSELY AT "WHY"! And furthermore, do not come to me and say, "but you did this or that in secret!" Indeed, THAT is called "privacy" because you mouth-rattlers will destroy anyone efforting to do a job--through your indiscretions. Indeed, my little teams may well get even smaller--I am sorry, it is not of my doing. I will, however, protect my brother--NOT MY ENEMY! I am about ready to start blasting my enemies right out of existence. There are many ways to destroy an enemy without violence! You ones had better get straightened around within the LAWS of GOD and start paying attention. You who felt you needed no lessons, no readings, no education of what is GOD--are going to be waving goodbye in most instances. Hard? Possibly, but TRUTH is not EASY--it simply IS! Salu

Tapes, Transcriptions & Videos

In addition to audio tapes of meetings with Commander Hatonn and written transcriptions of some taped topics, *THE WORD* also offers other tapes and videos on selected topics.

Donations to cover the costs of tapes are \$4.00 for one tape, \$6.00 for two tapes and \$2.50 per tape for three or more, except where otherwise noted. The transcriptions are \$3.00 each. (Mexico or Canada add \$0.25 and other foreign countries add \$0.50 per tape or transcription.) Postage is included in tape and transcription prices.

Please send check or money order to: *THE WORD*, P.O. Box 6194, Tehachapi, CA 93582 or call 805-822-4176 if you have questions or you wish to use your Visa, Discover or Master Card.

If you desire to *automatically* receive tapes from future meetings, please send at least a \$50 donation from which tape costs will be deducted. We will try to notify you as your balance reaches zero.

Special Order tapes are noted below by * and are not automatically sent since this material is usually either already in print or will be soon. Available written transcriptions are noted by #.

New Gaia Products

GAIANDRIANA

Gaiandriana is a non-alcoholic health tonic which provides basic "foods" to help cells, weakened by the stresses of modern life, to return to a state of health.

The better our cells function, the greater is the stamina returned to our internal defense systems, and the better we can counter the constant onslaught of biological and viral invaders. The end result is a feeling of well-being by, of course, being well.

The Gaiandriana (commonly referred to as "chondriana" in the Biological literature) are capable of intelligent, organized attack against cellular invaders like viruses. Think of it as a "pac-man" operation of sorts. However, beyond that, the Gaiandriana are capable of stimulating cellular structural repairs due to damage caused by, for instance, free radicals and cumulative levels of so-called "background" radiation in our modern environment. Healthy DNA and RNA within the nuclei of our cells then lead to properly formed and concentrated enzymes, upon which healthy cellular function depends.

Gaiandriana liquid is made entirely from wholesome natural ingredients.

AQUAGAIA

Complementary to the Gaiandriana product, AquaGaia is also a non-alcoholic health tonic which provides basic "foods" to help cells, weakened by the stresses of modern life, to return to a state of healthy function.

AquaGaia contains *mitochondria*. These are the major biochemical energy "processors" within cellular metabolism. First, enzymes begin the breakdown process of organic nutrients (like fats, carbohydrates and proteins) to intermediate substances such as amino and pyruvic acids. Then, in the next "bucket brigade" step, these various acid molecules are processed within the mitochondria to release chemical energy recognized as adenosine triphosphate (ATP).

About 95% of the energy needed to "run the machinery" that keeps each cell going and healthy is produced in the mitochondria. Unfortunately, the mitochondria are particularly damaged by free radicals and cumulative levels of so-called "background" radiation in our modern environment. These compromised mitochondria, like half-dead batteries, then lead to impaired cellular functioning and health. Thus is the importance of AquaGaia, with its assimilatable supply of healthy mitochondria — like "fresh batteries" for the body's cells.

The better our cells function, the greater is the stamina returned to our internal defense systems, and the better we can counter the constant onslaught of biological and viral invaders.

2/11/93 #2 HATONN

GAIANDRIANA & AQUAGAIA

To help in understanding the workings of these organic "pac-men" you must realize that

there is a protein covering "cap" on viruses. The protein cap is centered on a charged zinc atom and is the part of the virus that recognizes and binds to DNA—in turn allowing the virus to reproduce.

AquaGaia, in conjunction with the Gaiandriana, knock out the zinc atom (a simple "charge" change), which renders the protein ineffective. This is a breakdown of "parts" of the Gaiandriana male-female DNA structure which releases many working variants but frees the Gaiandriettes or "killers" to take out that zinc atom and pass right into the affected cell. Without the "cap", the virus cannot reproduce and infect more cells—further, the damaged virus feeds the Gaiandriana unified cells and the circulating mitochondria.

Healthy cells are not affected because they lack the zinc-centered protein cap on the virus.

These "Gaia" compounds have an effect on cancer cells because they stop an enzyme on the cancer cells from producing a "messenger" molecule that blocks a second enzyme from attacking the cancer cell's DNA. The compounds (Gaia) have been seen to actually take out leukemia, breast, brain and colon cancer cells. We have no claim to anything other than stating that people utilizing these simple and natural substances do show improved well-being and do report feeling generally and, often remarkably, improved as to state of health, thought processes and stamina.

The obvious conclusion is that there might well be good reports of better health and faster recovery, following infection by other viruses, than those mentioned above. All viruses known react in generally the same manner.

It is known that many diseases are due to retroviral DNA and these are the most affected viruses by the Gaia-chondrianas (living crystal forms). We, again, make no medical claims—we are simply reporting in an effort to explain WHAT takes place within the cellular structures of living organisms.

NOTE

If any product you receive has an unpleasant odor — it is from the finishing culture process. Leave the bottle open to air and it will quickly dissipate. Then, depending on taste and preference—refrigerate after opening and reclosing.

IMPORTANT: Do not mix the two, Gaiandriana and AquaGaia, together for storage as the AquaGaia (mitochondria) are aggressive and begin to "eat" the Gaiandriana for fuel. Once ingested, they go about their appointed tasks, but in bottle prisons they are not particularly compatible once the available fuel supply is exhausted. Juices are excellent to take with the AquaGaia because the mitochondria must have the fuel derived from same, the most effective juice being from the tropical "Guava" fruit. Any juice is fine, however, and is most pleasant to intake. Diabetics should utilize whatever juices are available on their food plan to keep within the safe guidelines for calories and other

requirements.

The most innocuous and easy intake available is simply a few drops under the tongue, both products taken at the same time or at different times of the day. Once the "initial" program is completed, and the maintenance level of intake is being followed, certainly the drops under the tongue are the least annoying to any daily regimen.

A-C-E ANTI-OXIDANT FORMULA

There is growing evidence that essentially everyone in our society is exposed to free radicals, now more than ever. While free radicals are normal products of our cells and have certain beneficial roles in the body, increased levels of free radicals in our body tissues can be detrimental to our health. Free radicals are highly unstable substances produced in the body through, among other routes, metabolism of oxygen. Free radicals multiply through a series of chain reactions and can attack the polyunsaturated fatty acids of cell membranes. Unless excess free radicals are neutralized, they can cause considerable damage to the structure and function of cell membranes and thus, the cells themselves.

The products from free radical reactions are implicated in the progressive accumulation of deleterious cellular changes over time, which may eventually result in recognizable disease. Free radical damage is implicated in the initiation and promotion of many cancers, as well as atherosclerosis.

One area of aging research suggests that free radicals damage body cells and cause the pathological changes associated with aging. Besides being by-products of the metabolism of oxygen, such as during strenuous exercise, we are also exposed to significant sources of free radicals from the environment, such as from so-called "background" levels of ionizing radiation.

Cooperative defense systems that can protect the body from free radical damage include certain enzymes and the antioxidant vitamins A, C, and E and Beta-Carotene, which protect cell membranes from oxidative damage. Vitamin E, one of the fat-soluble vitamins, is present in the blood as d-alpha-tocopherol and is well accepted as the major antioxidant in lipid body tissues. Vitamin E is considered the first line of defense against cell-membrane damage due to peroxidation. Vitamin E scavenges free radicals, terminating chain reactions and confining damage to limited areas of the membrane. Selenium contained in the enzyme glytathione peroxidase is the second line of defense that destroys peroxides before they can damage cell membranes. Beta-Carotene, a precursor of Vitamin A, also traps free radicals. Vitamin C is water soluble and serves to neutralize free radicals in aqueous systems.

The antioxidants show promise as cancer-prevention agents, alone and in combination.

ALOE COMPLETE
(Whole Leaf, Cold Pressed
Aloe Vera Concentrate)

Aloe Vera has a long and impressive history that spans hundreds of centuries, countries and cultures, and appears in countless "folk remedies" as a plant revered for its healing qualities.

Aloe Complete is a whole-leaf concentrate prepared from the freshly harvested leaves of the *Barbadensis Miller Aloe Vera* plant. **Aloe Complete** guarantees a minimum of 10,000 mg. of mucopolysaccharides per liter.

The nutrients reported in Aloe Vera include mucopolysaccharides and polysaccharides (glucomannans), glycoproteins, glucose, mannose, galactose, xylose, arabinose, tannins, steroids, organic acids, antibiotic principles, glucuronic acids, enzymes (oxidase, catalase and amylase), trace sugars, calcium oxalate, a protein containing 18 amino acids, "wound healing" hormones, biogenic stimulators, saponins, vitamins B1, B2, niacin, B6, choline, folic acid, chloride, sulfate, iron, calcium, copper, sodium, potassium, silicon, manganese, plus many other metabolism-assisting components.

GINKGO BILOBA
(Ginkgo Biloba extract, 24%)

The Ginkgo Biloba extract is a complex compound. The green leaves of the tree are usually harvested from trees grown on plantations in South Korea, Japan and France.

Ginkgo is reported to have a natural affinity for the nervous system. It also seems to stimulate the vascular and endocrine systems that, in turn, strongly affect the function of the nervous system, possibly increasing the capacity for normal physical activity, and the flow of blood to the brain. Some research indicates the possible effectiveness of Ginkgo in the treatment of Alzheimer's disease.

Due to its pharmacological properties, Ginkgo is now widely used throughout Europe for treating many forms of vascular disease. In a survey of packaging information of European products, Ginkgo has been recommended for such ailments as headaches, vertigo, inner-ear disturbances, diminished intellectual capacity and alertness as a result of insufficient circulation to the brain, anxiety, and depression, to name a few.

Ginkgo Biloba Extract (24%) is concentrated from the leaves of the Ginkgo Biloba tree. The highly specialized extraction process yields a 50:1 concentrate from the leaves (50 grams of leaf produce 1 gram of extract). The extract is then further standardized to contain 24% of the active Ginkgo Flavoglycosides.

CHLORELLA

Chlorella is a nutritionally balanced whole food and contributes to the health and growth of human cells like no single vitamin or mineral possibly can.

Chlorella is extremely high in protein (60%) and contains more than 20 vitamins and minerals, 19 of the 22 essential and non-essential amino acids, enzymes and chlorella growth factor. It is one of the richest sources of RNA and DNA known and has twenty times as much chlorophyll as alfalfa, 10 times more than other edible algae including

spirulina, and 10 times more than barley grass.

Chlorella is a natural vitality enhancer. The vitamins found in chlorella cells include: vitamin C, provitamin A, B-carotene, chlorophyll-A, chlorophyll-B, thiamine (B1), riboflavin (B2), pyridoxine (B6), niacin (B3), pantothenic acid, folic acid, vitamin B-12, biotin, choline, vitamin K, PABA, lipoic acid, inositol and para-aminobenzoic acid. The minerals include: phosphorus, potassium, iodine, magnesium, sulphur, iron, calcium, manganese, copper, zinc and cobalt.

The amino acids include: lysine, histidine, arginine, aspartic acid, threonine, serine, glutamic acid, proline, glycine, alanine, cystine, valine, methionine, isoleucine, leucine, tyrosine, phenylalanine, ornithine, tryptophan.

The suggested daily consumption is 3 grams per day.

ECHINACEA GOLD PLUS
(with American Ginseng)

In recent years few medicinal plants have garnered as much attention as Echinacea (*Echinacea Purpurea* and *Echinacea Angustifolia*).

Echinacea is a non-specific stimulant to the immune system. Claims for Echinacea include: stimulation of leukocytes, mild antibiotic activity, anti-inflammatory activity, stimulation of the adrenal cortex, stimulation of the properdin-complement system, interferon-like activity, stimulation of general cellular immunity, and antiviral activity. Internal preparations are said to assist in alleviating cold and flu symptoms, respiratory infections, and arthritis, to name a few.

Goldenseal (*Hydrastis Canadensis*) is among the most popular herbs in the American health food market. Uses are numerous, including but not limited to: antiseptic, hemostatic, diuretic, laxative, and tonic/anti-inflammatory for the mucous membranes, hemorrhoids, nasal congestion, mouth and gum sores and eye afflictions.

Few medicinal plants in the world possess Ginseng's near-legendary status. Dating back thousands of years, its history of use in the Orient records therapeutic properties so wide ranging that it was first dismissed by Western doctors as a "panacea". When fatigued, Ginseng reportedly restores both physical and mental functions to peak efficiency and, with regular use, improves resistance to disease and stress. American Ginseng's genus name is *Panax Quinquefolius*.

Over 40,000 species of mushrooms exist, many of which are used as medicines. Of particular note are such remedies as penicillin and ergot-based extracts used in migraine treatment, to name a few. Extensive research has been done with one mushroom in particular, namely, Reishi. This mushroom is now considered a tried and true immune system fortifier.

OXY TODDY

Made from pure Aloe Vera juice from organic Aloe Vera plants, this product is oxygen-enhanced with 35% food grade hydrogen peroxide, minerals, whole Aloe Vera pulp, 60 colloidal plant minerals (an aqueous solution), and natural flavors.

One ounce of **Oxy Toddy** contains approximately 20 drops of 35% food grade hydrogen peroxide. This product contains no sugar, fillers or starches and is cold processed to ensure maximum enzymatic activity.

72 Hour Kit
Checklist ✓

- Water**
Stored in a portable container. Rotate regularly. Have at least three gallons per person (for a three day supply). Have a water purification method.
- Food**
Suitable for long term storage. Packaged to prevent water damage. Include cups, utensils, paper plates and a can opener, if needed.
- Extra Clothing**
A complete outfit of warm clothing for each family member. Include extra socks, and underwear. Include walking shoes.
- Warmth & Shelter**
Coats, hats, scarves, and gloves for everyone include warm blankets (wool or emergency blankets are best). Rain ponchos, garbage bags, and/or umbrellas to keep off the rain. Warm Packs or other heat source. Pup tent or tarp.
- Light Source**
Flashlight with extra batteries or a chemical lightstick. Kerosene lanterns are fine, but any flame may pose a hazard, especially near potential gas leaks. Have at least two quick and safe light sources in your kit.
- Tools**
Pocket knife, lightweight shovel, duct tape, matches, pocket sewing kit, screwdriver.
- Important Papers**
Important family documents (such as birth certificates, marriage certificates, insurance forms, wills), addresses and phone numbers of relatives, and places to meet if separated.
- Money**
Keep at least \$20 in your kit. Be sure to include quarters for phone calls, etc.
- First Aid Supplies**
Pain relievers, bandages, antiseptics, clean cloths, burn ointment. Include any personal medications.
- Special Needs**
For babies: diapers, ointment, bottles & pacifiers, hand towels, special foods, and other supplies as needed. Consider the needs of elderly people as well as those with handicaps or other special needs.
- Stress Relievers**
Card games, books, small hobbies, hard candy, Bible. For children: small toys, paper and pen, favorite security items.
- Communications**
Portable radio with batteries, signal mirrors, whistles, red flags, signal flares.
- Personal Sanitation**
Sanitary napkins, razors, toothbrush, hand soap, dish soap, towels, toilet paper.
- Portable Container**
Such as a book bag, backpack, or duffel bag. Should be easy to carry and lightweight. Shoulder straps are best for traveling long distances.
- Additional Items**
Added as carrying weight and expense of kit will allow: Extra food, camp stove and cooking equipment, tents, sleeping bags, sun block, insect repellent, portable toilet.

This is a service for our dedicated readers. *Today's Watch* telephone hotline carries the latest news and comments from Commander Ceres 'Atonn's most recent writings. This is our way of keeping you informed about fast-breaking news and events.

The message machine will answer after 2 rings if there are any new messages for that day, and after 4 rings if not. Thus *daily* callers can hang up after 2 rings and save toll charges if no new message has been recorded. The message update(s), if any, occur by 6 PM Pacific Time.
