Confiscation Of Citizens' *Gold And Silver* Is Now On The Horizon

2/18/96 #1 HATONN

"GOLD AND SILVER HAVE I NONE..."

This WAS the gist of a poem written by someone who probably had lived through the 1933 gold confiscation and being "in love" was supposed to be "enough" for living. I did not even say "LOVE" because you people do not recognize LOVE if it knocks you down for you only respond mostly to being in lustful "in-love".

But what of gold and silver? You are getting so close to emergency confiscation time as to be breathing down your neck. This would allow the government to disclaim any need to pay off old CERTIFICATES—legally, under emergency powers, etc. It will allow the government to even have excuse to confiscate colloids under any pretext they choose—and that, dear ones is now under way.

I do not have available space in this paper to speak substantially on these topics but I must mention them. Constitutionally, Congress has found a way to confiscate everything and call it lawful. Remember, readers, anything "they" make into a law is LEGAL.

SENATE BILL 307 (CONFISCATION OF GOLD AND SILVER)

First on the agenda when the House goes back into session there is, allegedly, going to be a VOTE as to the confiscation of gold and silver from the

PEACEKEEPERS IN BOSNIA SUFFER RASHES, POST-TRAUMATIC STRESS

From the January 26 issue of *THE PALM BEACH POST*,[quoting:]

Dozens of U.S. Army soldiers involved in the Bosnia operation have contracted full-body rashes and low-grade fevers after visiting a military storage area in Belgium where investigators are now focusing their hunt for the source of the mysterious illness. All 70 of the soldiers, afflicted with the disease over the past month have recovered within several days of becoming sick, according to Army officials who say the outbreaks have not affected the overall pace of the deployment of the U.S. forces to Bosnia. But concern that the viral infection could spread has prompted senior Army officers in Europe to order an intensive search for the germ's origin.

And from the January 22 issue of *THE TORONTO STAR*, [quoting:]

About one in six Canadian peacekeepers return from the former Yugoslavia with serious psychological problems, a senior military psychiatrist says. "You could call it peacekeeper syndrome," Lt. Cmdr. Greg Passey said. An estimated 15 percent suffer from post-traumatic stress disorder and about 13 from depression. About 40 percent of those with post-traumatic stress are clinically depressed.

"What they've been exposed to is traumatic," he said. "A buddy steps on a landmine, they see kids blown up, they're pulled out at gunpoint and told they'll be shot in the head by the time they cross the street."

Their symptoms include withdrawing from people, difficulty sleeping, heavy drinking, conflict at home and on the job and an inability to experience emotions. 'And this doesn't begin to address the casualties as far as the families," he said, adding that some cases lead to abuse.

BOSNIA REALITIES

"Peacekeeping" for the U.N. will likely be the origin of something we later call "Bosnia Syndrome. Here are highlights from an article by Trisha Katson that appeared in the February 5 issue of *THE SPOTLIGHT*, [quoting:]

Clinton Administration policy makes Bosnia an experimental laboratory for the nation-building by the global elites in the New World Order, according to Rep. Duncan Hunter (R. Calif.). Under the so-called Dayton Accord, there will be no sovereignty or independence for Bosnia. Bosnia's constitution, police, central bank, refugees and "human rights" will be laced in the hands of foreign officials for at least the rest of the century.

"Where once its existence was threatened by advancing Serbian troops, it has now been rendered incompetent by a (bewildering) constitutional structure," said Hunter. "The remnants are then absorbed by international organizations and foreign bureaucrats. The poor suffering Bosnians faced a more honorable fate in open combat."

The foreign authorities are not constrained by any constitutional checks and balances despite all the rhetoric about upcoming "free elections".

Bosnia's new constitution is "inspired by the Universal Declaration of Human Rights, the International Covenants on Civil and Political Rights and on Economic, Social and Cultural Rights, and the Declaration on the Rights of Persons Belonging to National or Ethnic, Religious and Linguistic Minorities, as well as other [*United Nations*] human rights instruments." At the end of the constitution is attached a list of 15 other human rights instruments including the 1979 Convention on the Elimination of All Forms of Discrimination Against Women, the 1989 Convention of the Rights of the Child and the 1990 International Convention on the Protection of All Migrant Workers and Members of their Families. [*Were we so naive as to think that the output from all those UN conventions would not be USED?*]

National sovereignty is surrendered under Article II which declares "The rights and freedoms set forth in the European Convention for the Protection of Human Rights and Fundamental Freedoms and its Protocols shall apply directly in Bosnia and Herzegovina. These shall have priority over all other law."

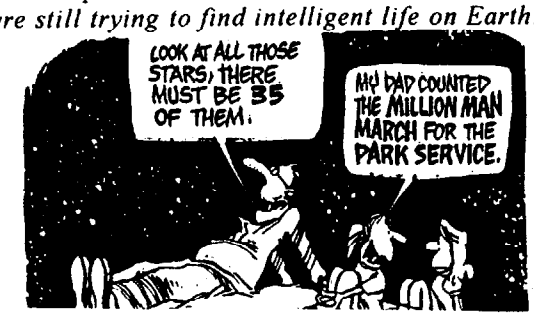
Bosnia's highest court, the Constitutional Court, will be dominated by foreign judges. The three judges who will hold the balance of power cannot be citizens of Bosnia.

Bosnia's central bank, for the first six years, "may not extend credit by creating money"—a prohibition consistent with the desires of the International Monetary Fund (IMF). [*The UN peacekeepers are stooges for the international bankers—the New World Order Elitists. That's about it, isn't it?*]

EXPANDING COSMOS

From the January 20 issue of the *MODESTO BEE*, [quoting:]

On Monday, a team of astronomers announced that, using the Hubble Space telescope [*a suspicious beginning since, according to Hatonn, the Hubble was never launched into space*], they had found 1,500 to 2,000 new galaxies in a slice of the heavens only one-25th of a degree wide. They estimate the discovery multiplies by fivefold the number of galaxies in the universe to some 50 billion. They have discovered that the universe contains perhaps 100 billion billion more stars than previously estimated. [*Amazingly, there are many, many people who still insist there is no life outside of our own planet Earth. Then there are the rest of us who are still trying to find intelligent life on Earth!*]



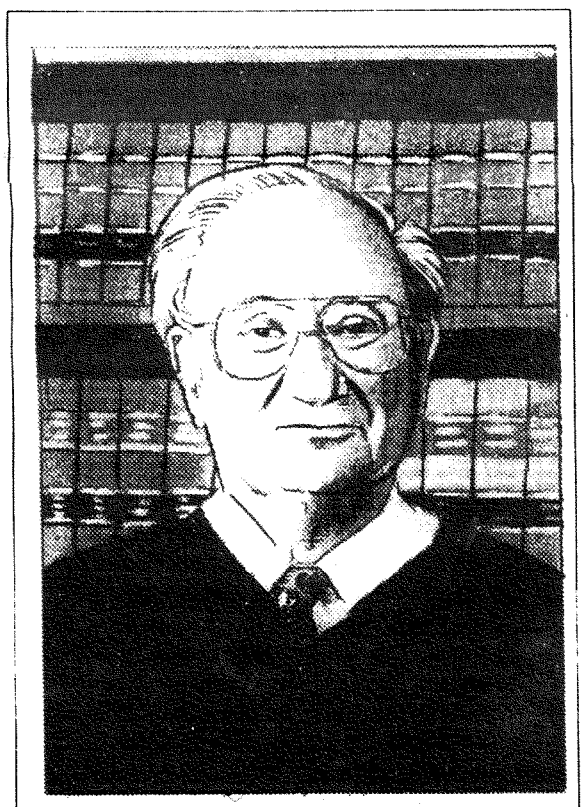
JUDGE HAROLD H. GREENE: TELECOM CZAR FRETS OVER NEW INDUSTRY RULES

In addition to his role as unofficial telecom czar, Harold Greene presided in the federal court in which Eustace Mullins filed his one-hundred-million-dollar law suit against the ADL—and inappropriately dismissed his case with prejudice, meaning it could never be refiled. The bracketed comments are from Eustace's article which appeared in the September 26, 1995 issue of *CONTACT* (pg. 23). Here's the article which appeared in the February 12 issue of *THE WALL STREET JOURNAL*, [quoting:]

On the day President Clinton signed the historic telecommunications bill last week, the ceremony at the Library of Congress was packed with politicians and everyone who was anyone in the telecom industry. U.S. District Court Judge Harold H. Greene wasn't invited. Technically, Judge Greene oversaw the 1984 consent decree governing the breakup of the old American Telephone & Telegraph Co. In practice, he became this country's telecom czar, profoundly affecting the shape and direction of an entire industry. The seven newly created Baby Bells had to go before Judge Greene, hats in hand, for his permission on many matters. And in more than 160 major rulings and hundreds of minor decisions, he dictated what they could—and couldn't—do.

The new act nullifies the consent decree, prompting some industry wags to call it the Judge Greene Retirement Act. Judge Greene says in an interview that he worries abut whether the new law is tough enough to stop phone giants from essentially re-erecting the monopoly that he spent a career helping to tear apart.

Harold H. Greene was born Heinz Grunhaus into a Jewish family in 1923 in Frankfurt. He fled [*or, like Max Warburg, was allowed to leave*] the Nazis at age 20 to emigrate to the U.S., where he changed his name. He served in the U.S. Army [*in intelligence in Germany with Henry Kissinger*] until 1947 and settled in Washington, D.C., attending law school at night and working days as a translator and watchmaker. [*He was recruited into the Sonnefelt-Kissinger Axis, a cabal of German Jews who soon infiltrated the federal government on behalf of the Rockefellers and their German Partners, the notorious I.G. Farben chemical monopoly. In Washington, they replaced the Harold Ware cell, an espionage group run by Felix Frankfurter, Supreme Court Justice, which had to go underground because of the exposure of Alger Hiss.*] He later joined the Justice Department and worked on the Civil Rights Act of 1964. President Carter appointed him to the federal bench in Washington, and on his first day on the job—May 19, 1978—he was handed the case of a lifetime: the antitrust lawsuit against AT&T.



Judge Harold H. Greene

The resulting consent decree spun off the seven Bells and banned them from equipment and long-distance service. In the later years, the Bells tried repeatedly to evade the bans. Judge Greene usually turned them down. Yet when an appeals court overturned him on several key issues, the Bells say he was slow to give them what they had won.

In his most celebrated defeat, Judge Greene in 1987 refused to let the Bells get into on-line services, arguing they might trample the fragile new market. In 1990, an appeals court overturned him. He later issued an order lamenting the risks and granting the Bells entry—but immediately suspended it until all appeals had been exhausted. The Bells filed an emergency appeal, and the appeals court granted them immediate relief, noting that Judge Greene's decisions to stay his own order was "an abuse" of his judicial discretion. [*This is one of the more insignificant examples of the treasonous crimes committed by Greenhaus in his fifty years in this country.*]

CITIZENS OF THE SOIL

Some of these names may be familiar to *CONTACT* readers. From the January 23 issue of *THE RATON RANGE* (New Mexico), [quoting:]

A group of recently arrived Raton residents claims documents filed with the Colfax County clerk—seeking the creation of a new legal currency, the arrest of the 50 states' governors, and the establishment of a new court system—are simply the means to get the United States "back to the constitution." A group calling itself "Citizens of the Soil" has filed numerous documents in the clerk's office since Dec. 1. One of the people listed as a filer of the documents said the group plans to file more documents in support of its claims. Rex Weeks said he is part of a group of people "simply documenting evidence and presenting it to get the change we believe is necessary for the country."

The filed documents claim the American people "have remained under the yoke of commercial tyranny and warfare" imposed by the government. The federal government and "its corporate subdivisions"—states—have "escalated" their actions into "outright theft, unlawful imprisonment, mayhem and murder," the documents claim. The documents accuse the government of "excessive taxation" and "unlawful fines imposed through intentional misapplication of the laws."

The group has submitted its documents to the U.S. Supreme court, asking the country's highest judicial body to support, and thus order into effect, the statements and actions contained in the documents. Along with Weeks, those signing the documents are David and Shirley Newby, Ronald and Betty Jackson, Charles Miller, Alfonso Velazquez and Donnah Wintch.

Talk about the Citizens of the Soil has circulated among officials at the county courthouse, as well as some local residents ever since several members of the group tried to file documents in late November. During one of the visits to the courthouse, members of the group visited with District Judge Peggy Nelson. Nelson said they wanted training in "common law" procedure and inquired about the availability of court room space. The judge described the group's understanding of common law as "entirely different" from hers.

"I believe they have no basis in law or reality to pursue a parallel court system," Nelson said. According to Melvin Belli, a lawyer and author who founded the International Academy of Trial Lawyers, common law is defined as a system in which disputes were settled by a judge who based his decision on "what was customary in the community", and where there were no established customs, the decision was based on "common sense and fairness". Common law has its origin in early England, and was brought to America by the colonists during a time when few legal precedents were available on which to base court decisions," according to Belli's book, *Everybody's Guide to the Law*. Nelson pointed out interpretations of common law can very widely.

Weeks claimed Washington, D.C. was incorporated in 1871 "without consent or knowledge of the people", and the federal government's jurisdiction should reach only as far as the 10-mile radius of Washington's boundaries. "States should govern themselves" with limited federal authority.

Among the claims and demands made by the Citizens of the Soil are:

* An order to nullify U.S. treaties and agreements, including NAFTA and GATT.

* A mandate that the mint of the U.S. Department of Treasury be used to print "only new lawful currency".

* Each of the 50 governors of the U.S. states be arrested and held "pending investigation into their acts". The filed documents accuse the governors of "working in collusion with foreign entities to subvert this nation and place its People into slavery."

* "Through collusion with the British Prime Minister, Winston Churchill (former President Franklin D.) Roosevelt maneuvered the Japanese government into a position of having to bomb Pearl Harbor" in 1941.

* The federal income tax "has become a prime source of commercial warfare being waged against the People of this nation."

* The United Nations is "a repugnancy and an oozing sore" whose sole purpose is the destruction of this nation, and all others, in order to place itself in a position of authority over the entire planet."

* An order that all national debt be forgiven, except for that owed to "Sovereign Citizens of the Republic".

FREEMASONS, ILLUMINATI, ZIONISTS, BOLSHEVIK/COMMUNISTS AND THE LEAGUE OF NATIONS

Article II—Section 1

At the end of World War I (11/11/18) a peace treaty was hurriedly signed between the belligerents at Versailles (outside of Paris), France, with the plan that a Peace Conference would be held later to work out specific details. Included in the plans of many at the Peace Conference was a homeland in Palestine for the Jews and a League of Nations, supposedly to insure the peace from that time forward. The Freemasons were very active in preparing and promoting the plans for a League of Nations.

I will refresh your memory on some pertinent points regarding Freemasonry, as researched in my earlier articles on the subject in the *CONTACT* newspaper. (Please see bibliography for a list of *CONTACT* issues which carry these articles.) These articles will also help you realize the truth of Hatonn's recent statement that Zionists, Freemasons and Communists are all the same! Keep this in mind as we go along.

Through the book titled *Destruction of Freemasonry Through Revelation of their Secrets*, by General Erich Ludendorf, which I reviewed, it became clear that: (1) Freemasonry is run by, or has direct links to, the Jewish Priesthood and promotes Jewish doctrines; (2) According to the Basic Constitutions of Freemasonry, which agree in all countries, the rulers of various countries act as "Vicars of Solomonis", to the real head who must be of the "lineage of Solomonis"—a Jew; (3) Many of the members of the Committee of 300 (which are the anti-Christ group, according to Hatonn), are also members of Jewish Freemasonry, called B'nai B'rith, which has its headquarters in the United States and is closely aligned with the Anti-Defamation League (ADL); (4) There are unknown numbers of secret Jewish Freemasonic orders: (5) Freemasonic doctrines, teachings and purposes support: a. a homeland for the Jews; b. the rebuilding of Solomon's Temple; c. internationalism; d. "free trade"; e. Jewish symbols, colors, *Old Testament* teachings, as well as Gnosticism, Gematria and *Caballa*; f. Weishaupt/Lucifer's Code (i.e., abolition of patriotism, religion, inheritance, marriage, morality and governments), at least, or especially within the higher degrees. This code was followed exactly (according to Nesta Webster in her book, *World Revolution*) by the Bolshevik Jews' Revolution in Russia during and after W.W.I; g. There were several secret German Freemasonic Orders which used numbers instead of names. According to Ludendorf, lodges with numbers 7 and 11 were very involved in questionable war activities in Germany before and during W.W.I. He did not have more information on them. However, when reading Antony Sutton's book titled *America's Secret Establishment*, I learned that the original lodge, now called the Order of Skull and Bones, at Yale University, was a secret, numbered German Lodge #322. Knowing the Masonic use of Gematria, which adds numbers across, it appears that #322 really means #7 lodge. The full implications of this are not yet clear.

Further, remember that when Adam Weishaupt/Lucifer was banished from Bavaria, due to the discovery of his plans for world domination, he was given asylum at the estate of Saxe-Gotha. The lords of Saxe-Gotha are related to the House of Hanover and thus the English Monarchy. Albert of Saxe-Coburg-Gotha was later Consort to Queen Victoria. It is known that Weishaupt was given an income and the title of "Honorary Councilor" by Ernest, Duke of Saxe-Gotha. He also counselled the Rothschilds and continued his subversive activities until his death in 1830. Although a record of his activities has not been provided to us, we know he was alive during much of the activity of the British East India Company, the American and French Revolutions, the establishment of the new United States Government, the witch trials in Massachusetts, General Morgan's murder in 1826 due to his publication of Masonic rituals, the Congress of Vienna, etc.

You may recall that General Ludendorf was a German General in World War I. He knew first-hand of the problems created by the Masons and the Committee of 300 in Germany, and their questionable loyalty to their own country. Ludendorf prepared and published his research on Freemasonry between W.W.I and W.W.II. Unfortunately, he did not know about or did not differentiate between Zionist or non-Zionist Jews.

If you look up the subject of "Freemasonry" in the *Encyclopedia Judaica*, you will learn that the Jews disclaim much involvement with it. The reason, I believe, is that while some leaders in Freemasonry have stated they are linked directly to the Jewish Priesthood, this link has not been made a public one outside of Freemasonry, for the most part. The fact that Freemasons, Zionists and Bolshevik/Communists are following the same agenda under a secret hierarchy, not realized by the individual groups in question, might create some concerns among those who think they are pursuing a harmless social activity.

I have reviewed the above information so that you will better understand the basic connections to and ramifications of the involvement of Freemasons in preparations for the League of Nations. The League of Nations after W.W.I was a critical part in an early plan for a one-world government under the Committee of 300 and the Jews. Count Leon de Poncins, in his book, *State Secrets*, gives an account of the preparational activity of the Freemasons prior to the Peace Conference, deliberately planned in advance to include a League of Nations within the Peace Agreements. Seeds of propaganda towards internationalism and one-world government had been planted well before the Conference. In fact, in reviewing the history of W.W.I, I found statements made by several persons in positions of government which revealed their belief in or purpose for a one-world, international government. When you consider the international scope of Freemasonry, their unquestioning loyalty to their "superiors", and the numbers of Freemasons world-wide, you realize what a base for propaganda purposes these secret societies provided to their masters.

Consider well that the League of nations was only one plan to take over the individual sovereignty of nations, and eliminate any "patriotism", according to Weishaupt's Code. The Bolshevik Revolution eliminated many "patriots" in quick order. Also, even the

Peace Conference so drastically changed national borders and governments (the victors took the spoils) that citizens had to receive special instructions as to which country they now belonged, and special teams went out to supervise new national boundaries. It is appalling what happened to the map of Europe, the Ottoman Empire, and Germany via the "Peace Conference". In my opinion, America should have continued to heed President Washington's wise warning: "Stay out of Europe's wars". He also warned against the "Illuminati", or "illuminized Freemasonry".

It may surprise you to hear that, according to Fritz Springmeier, some Jewish Masons from Turkey, speaking the latino language, are said to have assassinated the Archduke of Austria and started W.W.I (Ref.: *The Top 13 Illuminati Bloodlines*, by Fritz Springmeier). Mr. Springmeier is an avid and diligent investigator of the Illuminati. Much of his information was gathered from private interviews.

To return to the part played by the Freemasons at the end of W.W.I in preparation for the Peace Conference and the League of Nations, I will quote from Count Leon de Poncin's article titled: "Versailles to World War II", in his book, *State Secrets*, (quote):

Jewish power, which had been exercised secretly as regards Palestine, became more visible in the course of the peace negotiations which followed the defeat of Germany.

On 28th to 30th June 1917 a great international Masonic conference was held at the headquarters of the Grand Orient in Paris—an ultra-secret meeting of absolutely vital historic significance, at which nearly every Allied and neutral lodge was represented. The object of this reunion was to lay the foundations of a Peace Treaty, to prepare the creation of a future League of Nations, and to set out the general principles governing the new society which was to emerge after the war.

A commission was formed, and as a result of its labours, Brother Lebey read out a resolution comprising thirteen articles which was to become a Charter of international Masonic doctrine.

Six months later, Brother Wilson, the President of the United States, supported by Brother House and his faithful Jewish advisers, Baruch and Brandeis, set out before the whole world his famous Fourteen Points, thirteen of which were taken in their entirety from the Masonic Congress of Paris in June 1917.

This fact may be unknown to the general public, but it is nevertheless indisputably true. We will now reproduce several typical passages from this Congress, taken from the book which I devoted to the whole subject in 1936, *La Société des Nations—Super-Etat Maconnique*.

"This war", said Brother Corneau, President of the Grand Orient of France, in his opening speech, "which was unleashed by the military autocracies, has become a formidable quarrel in which the democracies have organized themselves against the military powers". (Léon de Poncins, op. cit., p. 71) [N: Germany did not declare war on the Allies, it was the other way around. The Allies declared war on Germany when she invaded neutral Belgium. Also, please note the use of the word "democracies", which will be used with more frequency from this time forward in the one-world newspeak.]

"The great war of 1914, which was inflicted first on France, Belgium and Russia, then on Europe, and finally upon the whole world by German aggression, has itself gradually and continually brought into definition the character of the struggle, which is revealed as one between two opposing principles: that of Democracy and of Imperialism....From the violation of Belgian neutrality to the rising of the USA, and not excluding the Russian Revolution, there is not one fact which cannot be brought forward as a proof of this gigantic duel between two hostile principles." (Brother A. Lebey, ibid., p. 76) [N: Isn't it interesting how Masonic leadership, following the lead, perhaps, of the media controllers, see the Bolshevik Revolution through rose-colored glasses?]

Incidentally, it is noteworthy that the Communist writer, H. Barbusse, wrote in *L'Humanité*, on 9th August 1914: "This is a social war which will witness a big step forward, perhaps the final one, in our cause. It is being waged against our everlasting enemies: militarism and imperialism, the sword, the book, and, I should add, the crown". (H. Barbusse: *Paroles d'un combattant*, p. 9). Not long after the war, Mr. Coolidge, President of the United States, publicly stated in a speech at Hammond in 1927: "The chief question at stake in this formidable conflict was to decide which form of government was to predominate among the great nations of the world: the autocratic form or the republican form. Victory finally remained on the side of the people." (*Reuter*, London, 1927)

Thus the First World War, which commenced as a national war, was transformed by Freemasonry into a social war. But it was also a holy war.

"If ever there was a holy war, this is it, and we should never forget it." (Brother Lebey, ibid., p 89)

However, Freemasonry goes further than this, and uses victory in order to establish a new order in the world, based on the principles of the first revolution of 1789. [N: We begin to see Masonry's actual purpose, a "new order in the world".]

"It is the duty of Freemasonry at the close of the cruel drama now being played out, to make its great and humanitarian voice heard, and to guide the nations towards a general organization which will become their safeguard." (Brother Corneau, ibid., p. 66)

Brother Meoni of Italy declared that "future humanity must be established on absolutely new foundations" (ibid., p. 110).

Freemasonry is also revealed as the instrument which created the League of Nations, and which in turn became the very objective of the whole war. The minutes of an earlier meeting, at which preparations for the Congress in June were put in hand, state:

"The object of this Congress will be to investigate the means of elaborating the Constitution of the League of Nations" (ibid., p. 65).

At the Congress itself, Brother Corneau stated:

"Freemasonry, which labours for peace, intends to study this new organism, the League of Nations. Freemasonry will be the propaganda agent of this conception of universal peace and happiness" (ibid., p. 71). In Brother Lebey's opinion, "the League of Nations is the whole object of the war. The whole world realizes that a peace which was simply an instrument of diplomacy would be incomplete and that it should represent the first step towards the League of Nations" (ibid., p. 84). [N: Propaganda indeed—worldwide, through the secret societies of Freemasonry.]

Finally, President Wilson is openly acclaimed as the agent of Freemasonry in this work. On page 117 of my work, *La Société des Nations*, I quote the resolution which the Congress addressed to him:

"This Congress sends to Mr. Wilson, President of the United States, the homage of its admiration and the tribute of its recognition of the great services he has rendered humanity; declares that it is happy to collaborate with President Wilson in this work of international justice and democratic fraternity, which is Freemasonry's own ideal; and affirms that the eternal principles of Freemasonry are completely in harmony with those proclaimed by President Wilson for the defence of civilization and the liberty of peoples...." (Motion by Brother General Peigné)

Brother Lebey's communication to the Council of the Order on December 9th, 1917 effectively sums up the whole situation:

"It is a question of knowing which is right: good faith or lies, Good or Evil, Liberty or Autocracy. The present conflict is the continuation of that which began in 1789, and one of these two principles must triumph or die. The very life of the world is at stake. Can humanity live in freedom; is it worthy of it? Or is it fated to live in slavery? That is the vital question in the present catastrophe, and all the democracies have given their answer.

"There is no question of retreat or compromise. In

a war in which the opposing principles are so clearly and distinctly defined, no one could hesitate as to his duty. Not to defend our country would be to surrender the Republic. Our country and our Republic. Socialism and the spirit of Revolution. these are inseparably bound together" (ibid.. p. 62).

If the Treaty of Versailles was the work of Masonry, it was also a great Jewish victory. The principal European monarchies had been overthrown. The hated Tsarist regime had been swept away, and all the members of the imperial family who were in Russia at the time had been savagely massacred. Russia had been bled white, bound hand and foot and delivered to the Bolsheviks whose principal leaders, apart from Lenin (who however was born of a Russian father and Jewish mother) and Stalin, were at that time Jewish. [N: Stalin had a very strong-willed Jewish wife, who, together with her family, continually supervised his actions.]

Revolution raged throughout Europe, and without exception all the leaders were Jews.

Finally, the Jews had achieved their supreme conquest: Palestine.

As Leon Motzkine, president of the Committee of Jewish Delegations, stated in an article entitled "The Jewish minority and the League of Nations", which appeared in *Les Juifs-Témoignages de notre temps* (September 1933): "At Versailles, everything had been minutely prepared and nothing had been left to chance. That was a moment of triumph savoured in silence".

The leaders of the three big powers at Versailles, Wilson, Clemenceau and Lloyd George, were surrounded by Jewish Advisers. The preponderance of Jewish influence in the course of the debates made a profound impression on certain observers. and their opinion had been summed up by the English writer, E.J. Dillon:

"It may seem amazing to some readers, but it is nonetheless a fact that a considerable number of Delegates believed that the real influences behind the Anglo-Saxon peoples were Semitic...they concluded that the sequence of expedients framed and enforced in this direction were inspired by the Jews, assembled in Paris for the purpose of realizing their carefully thought-out programme, which they succeeded in having substantially executed....The formula into which this policy was thrown by the members of the Conference, whose countries it affected, and who regarded it as fatal to the peace of Eastern Eu-

rope, was this: 'Henceforth the world will be governed by the Anglo-Saxon peoples who, in turn, are swayed by their Jewish elements'." (Dr. E.J. Dillon: *The Peace Conference*, pp. 422, 423) (End quote.)

I have a later book titled, *Behind the Facades of the Masonic Temple*, by Lolly Zomalsky, published in 1989, wherein a member of the P-2 Lodge in Italy and Licio Gelli's friend and supporter, writer Pier Capri, sums up what Gelli taught about Freemasonry. I quote from his summary (quote):

"The course of Masonic communities in different countries, including Italy, is determined to a very large extent by the United States, where Masonry is especially powerful...

"The US actions are directed at defending NATO and isolating the USSR and other countries of real communism. The positions of the transnationals, most of whose leaders are Masons, are fundamental to this orientation...

"The Masons have drafted under Anglo-American influence a plan for the future restructuring of the world. Its criteria are far less utopian that one might think. It envisages the abolition of national borders while the ethnic and religious differences and traditions of various nations will be retained.

"The fundamental law of the 'utopia' is merely the law of profit and the establishment of a world 'economic government'." By the same logic, the transnational monopolies have set out to subordinate the socialist economies.

"Masonry in capitalist countries encourages the tendency in which private property will be the lawful social instrument. It should be made to work first and foremost by putting commerce and industry under the control of special narrow corporations which will epitomize economic and therefore, directly or indirectly, political power...

"It is in this direction that the Trilateral Commission, considered an emanation of US Masonry, is working. Under Carter is supported the policy of detente in order to contaminate communism ideologically. Some other members of that organization argued that detente benefited the Soviet Union alone, which made a course toward an arms buildup preferable to it. That argument prevailed when US President Ronald Reagan had taken office." (End quote.)

While Capri confirms the present day, continuing, international, one-government purpose of Masonry, as well as its connections to the Trilaterist Commission, I was disturbed by this article, and its apparent propaganda. What a self-deluding and self-destructive idea is the one ascribed to President Carter and his detente with Russia as being intended to "contaminate communism ideologically". We are speaking of the President of a nation of 250,000,000 people to defend, and Capri and, apparently the Trilateralists, are playing games with us! Further, his explanation of Freemasonry's "Utopia" as being an "economic government", which he appears to believe should answer any concerns about it, begs the question of "whose" government, as well as all those "mystical", "magical" and "Luciferian" teachings of Freemasonry. I think Mr. Gelli and Mr. Capri have certainly proved themselves part of a Masonic conspiracy and certainly un-American.

Fritz Springmeier, in his book, *The Top 13 Illuminati Bloodlines*, has some comments on W.W.I, the Peace conference and the subsequent creation of the Foreign Relations Institutions (i.e., the Council on Foreign Relations and its counter-part, the Royal Institute of International Affairs—all part of the Committee of 300 organization, according to Dr. John Coleman.) (Quote:)

WORLD WAR I

Rothschild connections to the First World War are an excellent example of controlled conflict. On the Allied side the British and French Houses financially supported their countries' battles. Some Rothschilds were even soldiers, although they didn't see much action. J.P. Morgan Bank was a big financial help to the Allied cause. It was the Allies' "purchasing agent" until the U.S. entered the war. It also created a syndicate that financed "modernization" in China, to help defend that country against the Japanese threat.

The Elite wanted America in the war. Historian Charles Tansill noted: "...the large banking interests were deeply interested in the World War because of wide opportunities for large profits. On August 3, 1914, even before the actual clash of arms, the French firm of Rothschild Freres cabled to Morgan and Company in New York suggesting the floatation of a loan of $100,000,000.00, a substantial part of which was to be left in the United States, to pay for French purchases of American goods."

The *Lusitania* was a ploy. It was packed with some Morgan-owned ammunition, had been given over to England as a member of the navy, and despite the warnings of the Germans was sent into a naval war zone, specifically to be a target—the catalyst for America's entrance to the war. A knowledgeable American State Department failed to warn the U.S. citizens aboard the ship of the voyage's definite danger. Churchill ordered the *Lusitania*'s naval escort to return to port, and the fated ship was left unprotected, to be sunk. Rothschild agent Colonel House probably knew of this plot; records point to a discussion of it between him and Sir Edward Grey of England. Historian Colin Simpson called the sinking of the *Lusitania* the "foulest act of willful murder ever committed on the seas".

On the Axis side the Rothschild network was also funnelling money. Another family allied to the Rothschilds was the Warburgs. Max Warburg, brother of Kuhn-Loeb's Paul Warburg, ran a family financial powerhouse in Frankfort, Germany (one of the reasons the Rothschilds were able to liquidate their Frankfort bank, the Warburgs would run things). Max was the head of the German secret police during WWI. The Warburg connections reported to have helped the Axis powers financially.

At the end of the war in 1919, the Treaty of Versailles meetings were attended by Rothschild-connected men like Paul and Max Warburg, John Foster Dulles (of Kuhn-Loeb), Colonel House, Thomas Lamont (of Morgans) and Allen Dulles (of Kuhn-Loeb). The harsh terms of the Treaty of Versailles totally set the stage for World War II. Said one delegate: "This is no peace; this is only a truce for twenty years". Sure enough in 1939 the second World War started.

Another product of the Versailles meetings was the Elite's Charter for the League of Nations—the Illuminati's first attempt at creating a global institution. The League of Nations failed. This called for the need to create a think tank/special interest organization that could promote the new world order. Thus the creation of the Foreign Relations Institutions—the CFR, RIIA, etc. This will be discussed in a bit.

World War I helped create a Communist State. Max Warburg funded Lenin and his revolutionaries. Jacob Schiff gave a known $20 million to Lenin. J.P. Morgan & Co. helped finance the Bolshevik revolution. Alfred de Rothschild also helped finance the Bolsheviks. (End quote.)

The above quote was taken from the section of Springmeier's book titled "The Rothschild Bloodlines, Part 2", by David Smith. I recommend Mr. Springmeier's book; there is a great deal of research packed into it. Mr. Springmeier does not believe that the Jews as a group are the cause of our problems (to which I agree), but rather the problem is the Satanists, headed by the satanic bloodlines of the Illuminati (some of whom call themselves "Jews"). Mr. Springmeier has interviewed several ex-Illuminati, or ex-Satanists, who described some of the satanic rituals of the Illuminati bloodlines, having participated in them (willingly or unwillingly) at one time and having escaped them, only to be killed or unjustly imprisoned as a result of their disclosures.

The top thirteen (it appears to me there are actually fourteen identified in the book) illuminati bloodlines are Rothschild, Rockefeller, Astor, Du Pont, Freeman, Bundy, Collins, Reynolds, Van Duyn, Kennedy, Li (China), Onassis, Russell, and the "Merovingians", according to conclusions reached by Mr. Springmeier. His investigations are not yet complete. Of course, all of the families named above have branches which may use other names as well. In Mr. Springmeier's system the Sassoons are a branch of the Rothschild Bloodline.

I do not have enough knowledge on the Illuminati to confirm or to disagree with Mr. Springmeier. He does explain his reasons for including each Bloodline in the group. Hatonn recently made the statement that there are probably "seven really top-level heads" to the conspiracy and "ten fire-breathing dragons". Undoubtedly, in time, we will recognize them all!

The next article will deal more specifically with the Versailles Peace Conference, the homeland for the Jews in Palestine and the League of Nations. My purpose in writing this series is to give a "thumb-nail sketch" of how we have arrived at our present situation and through elaborating some of the critical events and stages along the way. You may recall that the assassination of Israel's Prime Minister, Mr. Rabin, and the present-day Middle East Peace Conference were the events which prompted these articles. The subject of the more recent Middle East Peace Conferences will be taken up towards the end of this series.

PART TWO OF A TWO-PART SERIES

In the fall of 1995, the two convicted L.A.P.D. officers in the Rodney King case were due to be released from the Federal Penitentiary.

Los Angeles County Supervisor Michael D. Antonovich knew the terrible problems that had beset the two officers, Sgt. Stacy Koon and Officer Laurence Powell, and their families.

In a move of compassion for their families, Supervisor Antonovich arranged a dinner at the L.A.P.D. Academy to raise funds to pay lawyers fees and expenses incurred from the two trials.

The two officers were released to what is called a "rehab house" in Los Angeles, a pre-conditioning prior to their full release but still under parole conditions.

The "rehab house" was attacked by a heavily armed man with the intent to kill Stacy Koon. Sgt. Koon was away at the time but several people were killed by the attacker before he himself was killed by the police.

In an act that amounts to vengeful persecution the federal judges are trying to increase the length of the original sentence and return the officers to the federal penitentiary.

Also, the ADL put terrific influence and power-pressure on Supervisor Antonovich to cancel the fund raising dinner.

The L.A. Police Academy is private property and this dinner in no way was connected to the city or county government or politics.

The first document you are about to read is a letter I wrote to Supervisor Michael D. Antonovich on November 2, 1995, [*see p. 22 of 2/13/96* CONTACT] regarding his intention of holding the fund-raising dinner. Along with this letter to the Supervisor, I included a copy of my lawsuit, Case No. 229531 AEW [*see Front Page story in the 9/26/95* CONTACT]. The initials are those of the judge, Arthur E. Wallace, in the County of Kern.

On December 1, 1995, Supervisor Antonovich responded to my letter [*see Exhibit F in last week's* CONTACT]. He had requested the L.A. County Counsel De Witt W. Clinton to review and respond to my lawsuit [*see Exhibit G in last week's* CONTACT], which named Governor Pete Wilson, Johnny Cochran, Robert Shapiro, and Judge Lance Ito as defendants. This set off an eye-opening set of events that will amaze the citizens of America.

In his response, L.A. County Counsel De Witt W. Clinton stated that the lawyers and "unelected" judges relied totally on California Supreme Court case Binns v. Hite (1964) 61 Cal. 2d 107 [*see page 12*]. The reading of this case, *Binns v. Hite* and a connected case, *Barrett v. Hite*, exposes the most fantastic California State corruption that, when seen and read by your own eyes, will be absolutely unbelievable.

Part II of this article includes a copy of the two infamous California Supreme Court cases and my letter of January 2, 1996, responding to Supervisor Antonovich and L.A. County Counsel De Witt W. Clinton.

In my lawsuit against Johnny Cochran, et al., there has been a little trickery conducted by the Kern County Court Clerk.

Johnny Cochran failed to answer the lawsuit and I filed an "Entry of Default", which a Deputy Clerk dated, initialed, and put in the legal file.

Due to a little clerk skulduggery, it became impossible to make a hearing set in Superior Court (Kern County) on February 9, 1996 at 8:00 a.m. On Wednesday, February 7, 1996, I sent the entire file to Superior Court Judge Arthur E. Wallace, Dept. 7, Kern County, California. Federal Express has guaranteed me that it will be (will have been) delivered to the Court Clerk not later than Thursday, February 8, 1996, 3:00 p.m.

Supervisor Michael D. Antonovich
Fifth District
Room 869

Los Angeles, Calif. 90012

Sir:

RE: Your request of County Counsel De Witt W. Clinton to "review and respond" to my correspondence of November 2, 1995, MDA:tsh 24148.

I received a copy of County Counsel De Witt W. Clinton's 'review' dated December 15, 1995, and I appreciate your prompt action of helping me to obtain this information.

Lawyer De Witt W. Clinton and his assistant Halvor S. Melom's delusive "review" and trickery deception RE: "unelected judges without any jurisdiction" reveal their secret agenda.

It is an agenda totally separate from that of the County Supervisors whose duty is to protect the people and their well-being.

The Orange County Board of Supervisors fell victim to the County Counsel of Orange County and his assistant Robert Austin. They deliberately and feloniously lied to and misled the Supervisors for over a year regarding fraudulent financial manipulations involving billions of dollars. Under these ruthless conspiratorial machinations the Orange County Government fell apart.

County Counsels are lawyers; they have their own private, exclusive organization with its secret political and financial agendas. They are committing these treacherous deceptions and misleading county supervisors in concerted, connecting and coinciding operations in every county of the state of California.

Clinton and Melom in their "review" rely totally on California Supreme Court case *Binns v. Hite*, L.A. 27737, (1964) 61 Cal 2d 107 and Election Code Sections, 25304 and 8203. They also rely on *Barrett v. Hite*, L.A. 27736, which they do not mention in their review but is very important in their deception. This pair of flagrant crooks, Clinton and Melom, are well aware that Election Code Sections 25304 and 8203 will never hold up in full light of U.S. Supreme Court decisions; the Voting Rights Act of 1965; and the *United States Constitution*. They are placing the Los Angeles County Government in dire peril.

The entire illegal "unelected judge" scam was a treasonous "set-up" from the very beginning. Engineered by Harry Pregerson, Mickey Cohen, Menachem Begin, Caspar Weinberger, Melvin Belli, Stanley Mosk, Ira Glasser and Stanley Scheinbaum, etc., etc., it has enslaved the citizens and government of California and the federal Ninth Circuit in a corrupt judicial web of absolute horror.

The people have been blocked out completely from access to judicial due process as known and practiced by Americans. I and others have been laughed at and derided by 'unelected judges' stating from the bench that they do not recognize the *U.S. Constitution* and that if I bring it up again I will be found in contempt of their court and jailed.

By 1960-'61, Harry Pregerson, Mickey Cohen, Menachem Begin and Stanley Mosk had put into action their plans to completely take over the California state judiciary and the federal judicial system of the Ninth Circuit. Much of the technical layout was actually implemented by Melvin Belli and Stanley Mosk with their associates in the Assembly, and money from their narcotics activities was used to buy off the politicians. Stanley Mosk at this time was highly involved personally in drug smuggling from Mexico with his mistress, a black madam operating in the Wilshire District.

Mosk was pulling political strings in Sacramento to assist his madam in some businesses she used for a front.

By 1962 the Assembly, with Mosk and Belli's outline, had cooked-up an amendment to Section 6 of Article VI of the state Constitution. This amendment they put in place was clearly unconstitutional and was done conspiratorially and knowingly without the necessary legislative jurisdiction to even consider it.

The amendment had to do with superior court judges who had been appointed by the governors, and they wanted them to become permanent judges without their names ever appearing on a ballot. This amendment only included counties with a population of 5,000,000 or more. Los Angeles was the only county in California who had this population.

In 1963, under Mosk's and Belli's instructions, the California Legislators, using the unconstitutional amendment they'd made to Section 6, Article VI of the Constitution, legislated a new Election Code statute without having legislative jurisdiction. This Election Code statute was called Section 25304. Now, at this point in their game, the conspirators had feloniously and fraudulently managed a new unconstitutional Election Code Section, 25304 which was derived from an unconstitutional amendment of Section 6, Article VI of the California State Constitution.

Back in the 1950s and 60s, during Pregerson and Begin's treasonous activities, my partner Frank Hronek and I were observing Mickey Cohen and Menachem Begin. We made film and audio tapes of their meetings with various people: to name a few, Caspar Weinberger, Melvin Belli and Stanley Mosk. Our operator, Henry Jacobs, recorded conversations between them regarding their operations of taking over the judiciary. At this same time there were discussions re: JFK and their anger at him.

Candy Barr, Cohen's girlfriend was present at some of these meetings and Cohen was flying Candy every week to 10 days to Dallas, Texas where she was meeting with Jack Ruby. Mary Mercadante and Marilyn Monroe were both being used by Mickey Cohen's "lover-boys", Georgie Piscitelli and Sammy LoCigno. The women were getting wise to them—the same as Nicole Simpson became wise to the "lover-boys"—and to how the women were being used to pick the brains of important men. This got all of them killed; in 1961 Mercadante was killed, and in 1962, when Monroe was threatening to tell the Kennedys how they were being sabotaged, she was killed. Both Mary and Marilyn were killed by Piscitelli at the orders of Cohen and Begin.

Many other women were caught up in the ADL spying insanity and have been killed between the time of Monroe-Mercadante and the present with Nicole Simpson. These murders were ordered by the same conspirators and for the same reason of covering up their horrendous treasons and corruption and the harm they have done to America. One notable case you should be totally aware of is the Vickie Morgan murder, which will expose the ADL Halacha fanatic mad-men assassins and the whole mess.

All of this ADL insanity was going on while Dist. Attorney William McKesson was threatening to have Frank and me killed if we did not stop our investigations.

In my last correspondence to you I said that I was fired after the meeting we had in Manley Bowler's office. That was what I had thought at the time because Capt. Joseph McClure came to the Investigation Bureau and told me that Mr. Bowler had fired me. But I later learned that Mr. Bowler had not fired either Frank or me and that Capt. McClure had lied.

In 1963 the situation was that Pregerson was prepared to move ahead on his judicial takeover of California—the conspirators had loaded the municipal and superior courts with "governor-appointed" ADL shyster lawyers.

In a fast shuffle like "who's on first, no, who's on third" Superior Court Judge Walter R. Evans declared that Election Code Section 25304 was unconstitutional. But he neglected to rule at the same time that the Amendment to Section 6, Article VI with the same wording was also unconstitutional. Election Code Section 25304 was derived from this unconstitutional amendment.

In 1964 Benjamin S. Hite, the County Registrar of Voters, then declared himself a principal of the ruling that Section 25304 was unconstitutional. Harold W. Kennedy, County Counsel and Edward H. Gaylord, Asst. County Counsel shuffled in to represent Registrar Hite so that he could put a stop to the people's right to vote for their choice of judges.

In 1964 just before the primary election of June 2, 1964 the tempo of the "fast-shuffle" picks up. Mosk and Belli's associates at the State Supreme Court set up a hearing "In Bank". Walter S. Binns et al., is the plaintiff and respondent—Loeb, Loeb and Selvin represent the plaintiffs who, in actuality, were the lawyers who were appointed as municipal court judges by the governor. Hite, the Registrar of Voters, the alleged defendant in this judicial abortion, was represented by the County Counsel.

Registrar Hite and the appointed judges were both after the same thing; they both wanted the reversal of the judgement that called Statute 25304 unconstitutional. This would give them both the absolute power and control they wanted so as to deny the people's constitutional right to vote for the person of their choice.

During all of this corrupt judicial Mutt and Jeff set-up, no one at any time represented the people and their constitutional right to vote. The decision by Chief Judge Gibson and five other "In Bank" judges was so deliberately, outrageously unconstitutional that it was unbelievable—legitimate lawyers and top constitutional students gasped in astonishment.

In Gibson's own words, "Obviating the need for balloting and the tabulating of votes did not abridge the rights guaranteed by the Constitution section entitling every citizen to vote at all elections authorized by law." Gibson went further: he declared that, "Obviating the need for the qualified electors to cast votes was not repugnant to the Constitution."

It must be understood that to "Obviate the need to vote" means only one thing: "wipe-out, disposal of, or removal of the people's right to vote."

So at the finale—to pin it down, this Obviation by the "In Bank" judges in the Appeal of *Binns v. Hite*, Case no. L.A. 27737, March 11, 1964, spells out two things: it encompasses only Election Code Section 25304 and pertains only to appointed municipal court judges and their election without being voted for, in relation to "any Judicial District" containing a population of 2,000,000 or more, of which this special law only fits Los Angeles County.

On the same date, March 11, 1964, Chief Judge Gibson, again "In Bank" with the same five judges, in Case No. L.A. 27736, *Barrett v. Hite* ruled that superior court judges who were appointed did not have to be elected. Except, that the amendment to Section 6, Article VI of the Constitution requires that this only affects superior court judges in any county, or city and county containing a population of 5,000,000 or more.

As in the *Binns v. Hite* case, Hite was again represented in the *Barrett v. Hite* case, by County Counsel Harold W. Kennedy and Asst. Edward H. Gaylord. Newell Barrett, et al., who were actually the superior court judges, were represented by Loeb, Loeb and Selvin, who were closely connected with all the appointed municipal and superior court judges. Again Hite and the superior court judges both were after the same thing, which was the reversal of the judgement that Election Code Section 25304 was unconstitutional. No one was present at any time to represent the people or their constitutional right to vote.

In Case No. L.A. 27737, *Binns v. Hite*, et al., the Municipal Court judges were the Plaintiffs and Respondents and Hite, the Registrar of Voters, was the Defendant and Appellant

Everybody wanted the same thing, but in Case No. L.A. 27736, *Barrett v. Hite*, et al., the superior court judges became the Plaintiffs and Appellants and Hite, the Registrar of Voters, had become the Defendant and Respondent. And still no one was there to represent the people and their right to vote for the person of their choice.

It was the most vicious, corrupt judicial set-up ever perpetrated against the people...the rulings in these cases were bounced back and forth like a ping-pong ball—using both of them at the same time back and forth to bolster one insane ruling on top of another.

In this ridiculous clown atmosphere, with the twisting, tortuous mutilation and contortion of the meanings and intent of words and sentences, the California Election Code became the California Selection and Choose Code.

Listen to the brain of Chief Judge Gibson, "After recognizing that 'elected' and 'appointed' ordinarily are not synonymous, in its broadest sense, however, the word 'elected' means merely 'selected'. When used in that sense the word 'elected' is synonymous with the word 'appointed', so, the county clerk or registrar is to declare that the 'incumbent' without being on a ballot is again 'chosen' or 'selected' to hold the office of judge, as so construed not only does the word have an acceptable meaning but also the term 'incumbent' is given full effect and all portions of the amendment are now harmonized."

According to Gibson, "In Bank", 1964, his ruling on statute 25304 is based on the California Constitution amendment to Section 6, Article VI of 1962. Gibson stated that the amendment of 1962 provided that with respect to superior court judges in counties containing a population of 5,000,000 or more candidates did not need to have their names appear on a ballot. Now, at this time, while still determining *Binns v. Hite*, L.A. 27737, Gibson held that municipal court judges in relation to 25304 did not need to have their names appear on the ballot in counties containing a population of 2,000,000.

Gibson admitted that section 25304 is in violation of section 11 of Article VI of the Constitution which states that municipal court judges shall be "elected" by the qualified electors of the district.

But Gibson states that section 11 also declares that except as such matters are otherwise provided in this Article, the Legislature shall provide the manner in which judges of municipal courts shall be "elected" or "appointed".

Then Gibson jumps back to case No. L.A. 27736 in which he has just ruled that the word "elect" does not mean what it really means but actually means to "select" or "choose".

With all the insanity up to now of actually changing the true meaning of words and sentences, Gibson has reached his necessary and critical point where he denies the people their right to vote.

The following "trick" sentence was put in place: "The word 'elect' has the broad meaning of 'select' or 'choose' as well as the narrower meaning of 'elect' by vote." Gibson then proceeds to rule that "The Constitution does not require that there be an actual balloting and tabulation of votes, PROVIDED there is some appropriate procedure by which the 'selection or choice' is made by the 'electors'."

Gibson then lays out his outrageously corrupt mumbo-jumbo—he presents his appropriate procedure to the voters wherein it works out that if the voters do not carry out his orders, which they are required to do if they want to vote, then they have not voted—and if they have not voted then the judicial candidates whose names are not even on the ballot become elected because they "did not" receive even one vote.

Gibson proceeds with his obscene requirements against the voters which he claims will "simplify an otherwise unduly long and confusing ballot by eliminating the necessity of voting for judges who have no

opposition."

Actually all that is necessary to do is put the candidate's name on the ballot and a box after it with the words "yes or no" to be checked.

But Harry Pregerson does not want that; he wants his ADL shysters put in "black robes" without any possible chance for rejection or someone else running against them and winning.

Gibson's "requirements"—listen to this—"If 'electors' want to prevent a candidate from becoming a judge without his being elected then they must file a petition that a write-in campaign will be conducted. If the voter does this, then the name of the incumbent will be placed on the ballot. The choice as to whether the incumbent's name will be on the ballot is thus left to the voter and if they do not take these steps it is obvious by their inaction that they have 'elected', chosen to retain the incumbent in office without requiring that his name be on the ballot and submitted to an actual vote."

Consequently Gibson then orders that the county clerk or registrar is to declare that the incumbent is again 'chosen' or 'selected' to hold the office of judge. Repeat: the clerk does not have jurisdiction to declare that the "judge" has been "elected", only that he has been "chosen" or "selected". This is what Gibson calls "SIMPLIFYING"—simplifying elections. The regulations as ordered by Gibson necessitate that 100 electors must file a petition indicating that a write-in campaign would be conducted for the judicial office. *Binns v. Hite*, L.A. 27737 was heard on March 11, 1994. *Barrett v. Hite* L.A. 27736 was also held on March 11, 1994.

The election for municipal and superior court judges that turned on these two cases was held on June 2, 1964. There were over one hundred judges in Los Angeles County alone who were up for election. The requirement that 100 electors must file a petition for write-in meant that in each judicial district wherein one judge was up for election, 100 citizens must come forth and prove to election officials that they were qualified electors. In a large county like Los Angeles, if any lawyer felt brave enough to want to oppose Pregerson's shysters they would have done so before the end of the filing period.

Since no legitimate lawyers had come forth, that meant that 100 qualified voters must get together—form an organization, a political force and canvas law firms all over Los Angeles County desperately seeking and soliciting some lawyer whom they knew nothing about to run as a write-in. If they did get some lawyer who would allow his name to be used they would have to solicit funds to run a campaign. It would take a lot of money to be gathered in a very short period. The qualified electors would have to turn into money-grubbers—political hacks—run a complex campaign—and how many lawyers have ever been elected judges in Los Angeles by running a write-in?

Gibson states that his requirements "do not impose an unreasonable burden upon voters. In view of the comparatively small number of electors signatures required in order to attain the placing of the candidate's name on the ballot there will be no difficulty in obtaining the signatures." Gibson states that, "None of this is repugnant to the Constitution."

Now, during this short period between the "In Bank" abortion on March 11, 1964 and the election on June 2, 1964 the voters are faced with enormous unbelievable burdens to themselves forcing them to become politicians, advertising experts and hucksters, and as amateurs run a giant write-in campaign just to force Pregerson's shysters to put their names on a ballot. This is viciously outrageous; their personal time and expense for most people would be prohibitive. In 1964 in Los Angeles County there were over a hundred appointed municipal and superior court judges. A hundred voters necessary for each judge would be over ten thousand voters running around trying to put together a write-in campaign. In opposition to Gibson's mumbo-jumbo, all this paper work, tabulation of write-in votes etc. would create such confusion and cost for the election office and registrar that it is ridiculous for Gibson to talk of reducing costs and chaos to the county by "selecting" "unelected judges".

1964 was thirty-two years ago; hundreds and hundreds of Pregerson's shysters have become judges without any of them ever being on a ballot. They have become judges in perpetuity without ever receiving one vote. Statute 25304 has been revised, changed, manipulated so many times that it is not even recognizable—it has now become Statute 8203, which was a number that was long ago repealed—8203 being a lower number than 25304 makes it appear to be a statute that has been in place for many years. Actually they resurrected 8203, and in 1994, 25304 was again legislatively manipulated and twisted to fit the "unelected" judges purposes in their horrendous, treasonous fraud against the people. The supposedly necessary requirements of 5,000,000 and 2,000,000 limiting this insanity to Los Angeles County had disappeared and 25304 became 8203.

In June 1990 there were 120 Pregerson shysters in Los Angeles who had been appointed as judges and who wanted to perpetuate their "black-robes" by not having their names placed on a ballot. This meant that over 12,000 qualified voters would have to come out and form campaign organizations, to raise huge sums of money to run write-in campaigns just to get these gangsters to put their names on a ballot. This increases chaos and the costs of the election office a thousandfold over what it would be if only the names had already been put on the ballot with the words "yes or no" to be checked off.

After the 1964 election the qualifications of 5,000,000 and 2,000,000 have disappeared and shysters in every county in California are perpetuating themselves as "unelected judges" and are conducting courts without having any judicial jurisdiction.

Unbelievably, after 32 years of judicial corruption there are still some of the original shysters of 1964 still wearing black robes in Los Angeles County.

In June of 1996, the people and voters of California face another monstrous judicial perpetuity of Harry Pregerson's gangster shysters in black robes.

Binns and Barrett v. Hite are Mishna, the "Jew Law" straight from the fanatical Rabbis of the Bar Ilam University of Tel Aviv, Israel. It has no place in the United States of America. By American constitutional law pursuant to Article VI, Section 1, Clause 2 the amendment to the state Constitution in 1962 is wholly void and ineffective for any purpose. Since unconstitutionality dates from the time of its enactment, and not merely from the date of the decision so branding it, an unconstitutional law, in legal contemplation is as inoperative as if it had never passed.

Since 1962 Harry Pregerson and his ADL Rabbi gangsters wearing "black robes" are responsible for every civil and criminal miscarriage of justice that has occurred in California courts. Their salaries must be returned to the people—their pensions are forfeit and must be returned to the people and they are held personally responsible for every vicious travesty of justice that they have perpetrated against the people.

The California Appellate Courts and Supreme Court are likewise liable because they were aware of the black-robe gangsters and that they themselves had no judicial jurisdiction to rule on any of the decisions made by the "unelected judges" who were without jurisdiction. The California Assembly in 1962 had no legislative jurisdiction to make their unconstitutional Amendment to Section 6, of Article VI.

Citizens, taxpayers, voters, lawyers and politicians, etc., etc., throughout the cities, counties and states encompassing the Ninth Circuit of the U.S. Courts of Appeals are highly aware of the monstrous judicial corruption involving murder, assassination, mayhem, fraud and theft of citizens' life savings and their right to due process of law in a court proceeding.

In Chelan County, Washington, the County Supervisors have filed a lawsuit against the Governor of Washington, challenging that the state illegally gave powers to controlling boards that are not allowed by the state or federal constitutions.

U.S. Senator Slade Gorton, (R) Washington, is promoting legislation to split the 9th Circuit, cut California out of the other Western States. Gorton, while the Atty. General of Washington in the 1970s, argued cases before the San Francisco-based U.S. Appeals Court and soon learned first-hand how corrupt the ADL gangster judges really are. This legislation to split the 9th Circuit passed the Senate Judiciary Committee on December 7, 1995 but has not yet been scheduled to be heard by the entire Senate. Gorton's plan for a new circuit (No. 12) would include the following states, Alaska, Washington, Idaho, Montana, Oregon, Nevada and Arizona.

That would leave California, Hawaii, Guam, and the Northern Mariana Islands in the 9th Circuit. And it would leave the entire 9th Circuit in Harry Pregerson's and the ADL's possession, a Kingdom with no restrictions or supervision from the rest of the U.S. Government whatsoever—Pregerson and Mosk and Feinstein in total control of all the dope coming in from the entire South Pacific and Asia. That's what you call cutting up America "Big-Time".

For Senator Gorton and Conrad Burns of Montana to fail to take into consideration the fact that Pregerson for years has had his agents and provocateurs networked and placed in key positions throughout the other Western States that would become the new 12th Circuit is not only the height of naivety but reckless strategy. Pregerson's judicial agents and provocateurs would soon have the new 12th Circuit right back in their pocket.

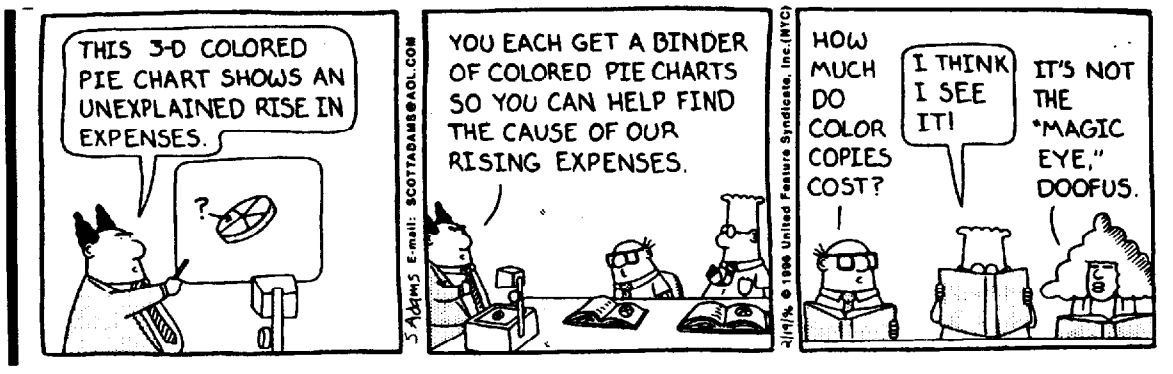
This is the answer as to why Specter and Feinstein did not stop Gorton's "New Circuit" legislation cold in the Senate Judiciary Committee.

Senator Conrad Burns, (R) Montana, is also aware of the massive federal judicial corruption in the 9th Circuit and has blocked nominations to fill four vacancies on the appeals court, and both he and Gorton will make things difficult until their legislation passes.

But, there is a much better plan than this "split-legislation" and that would be to destroy the evil corruption and the gangsters behind it once and for all and return the existing 9th Circuit to America.

The "Split-Plan" is worthless so far as solving anything. It is totally unfair, immoral and against the health and well-being of the California citizens left within the 9th Circuit and at the mercy of Pregerson.

To abandon these millions of people to this trea-



sonous, murderous Harry Pregerson without any hope of "due process of law" is unconscionable. It is also very stupid strategy. If the Republicans ever hope to regain the Presidency and remove it from the treasonous hands of the likes of Willie Clinton, they need the Electoral Vote of California and Hawaii.

Specter and Feinstein of the Senate Judiciary Committee have slyly sold Gorton a bill of goods or maybe a deal. Look at the results: Feinstein and Pregerson will still control the California Electoral Vote and the Presidency—and all the dope smuggling—and that doesn't mean that they won't still be conspiring and working feverishly on "taking over" the Senate and House seats of the states in the new 12th Circuit. They never cease their treasonous machinations.

Senators Gorton and Burns, as representatives of the citizens, have the duty and responsibility to protect all of the citizens in the country not just the ones in a new 12th Circuit.

The best "plan" is for the Senators to support the County Supervisors of every county in California to combine and follow the courageous example and actions of the Chelan, Washington, county supervisors. Halt the pay checks and pension payments to the phony, "unelected judges" in every county in California—file a lawsuit against Governor Pete Wilson who has been a paid tool of the ADL from the very beginning and prohibit him from "appointing" new "unelected judges".

Give the states within the 9th Circuit a gift of life: remove all corrupt judges and replace them with new blood, honest, new judges who respect America and the Constitution and dispense due process of law.

To officially hand Harry Pregerson, Stanly Mosk and Diane Feinstein a Piece of America for their own Kingdom of Corruption is not acceptable to the Citizens of the 9th Circuit. By doing so it would solidify the permanent loss of California's Electoral Vote and forever prevent the American people from putting a person of their own choice in the White House.

The citizens and voters of California must be given back their right for their votes to be balloted and tabulated for an honest determination in the power of the Electoral Vote.

Recovery of all the salaries, pension payments, pension fund and interests thereon, fraudulently and conspiratorially stolen by Pregerson's illegal, "unelected judges", would be a money shower of enormous proportions on every county in California. A substantial lowering of property taxes would take place and further enhance the county and citizens' prosperity. This would be a "bloodless" revolution freeing the people from a terrible oppression by gangsters of unparalleled evilness.

The astronomical power of the phony "unelected judges" in bleeding the life's blood from America is revealed in their unmerciful "bond-peddler" scams. But now every bit of these billions upon billions of dollars plus interest can be recovered by the people.

In Ventura County phony Judge Jerome Berenson and his partner, U.S. Commissioner Ben Nordman, devised a "bond-scam" that would initially cost the taxpayers 2-hundred-and-50-million dollars and ultimately build to over a billion.

These shysters' scheme was to move the courthouse's official site to a location ten miles away and build a new courthouse. They floated a "bond-issue" that was twice turned down by the voters. With connivance of corrupt members of the Ventura County Board of Supervisors and Ventura City Council members they devised a way to "obviate" the people's vote.

Bypassing (obviating) the voters' rights, the conspirators "set up" an allegedly "non-profit" corporation and they misleadingly called it the Ventura County Public Facilities Corporation and they went right ahead against the people's wishes and sold bonds anyway.

The Public Facilities Corp., behind the scenes, was actually the phony judges' and the County Counsel's, James McBride, all of whom were closely tied in with Pregerson. They prepared to quietly sell bonds indebting the taxpayers 250 million dollars plus interest.

I filed a lawsuit prohibiting the Public Facilities Corp. from selling the bonds. The "unelected judges" went berserk because they had already flown the "Big-Time" bond dealers out from New York to finalize the transaction.

In relation, in Phoenix, Arizona, these ADL gangsters had another of their organizations, the "Arizona Public Service". An investigative reporter for the *Arizona Republic* newspaper, Don Bolles, was investigating major land manipulation frauds involving the Arizona Public Service and their plan to build a nuclear power plant at Palo Verde, Arizona. This scheme involved the Los Angeles Water and Power Co., which would buy power from Palo Verde. Bolles had uncovered massive fraud involving powerful politicians and the Palo Verde scheme and had connected Arizona Public Service to another of Pregerson's corporations in Los Angeles, the Southern California Public Powers Authority.

Bolles was about to expose the whole mess with "blazing headlines" when, on June 2, 1976, he was blown to pieces in his car after being "set up". Three days later, on June 5, 1976, with my lawsuit preventing Pregerson, Berenson and Nordman from selling their Public Facilities Corp. bonds, they tried to kill me in the driveway of my home. There were eye witnesses to their attempted murder and a sheriff's official report was made.

In Los Angeles, a citizens organization, the Alliance for Survival, had filed a lawsuit to prevent an illegal adoption of the Palo Verde bond issue by the City Council. This was being worked by Pregerson's associates on the City Council, Joel Wachs, Marvin Braude and Zev Yaroslovsky, who is now a member of the Los Angeles County Board of Supervisors and still up to his ADL scams with Pregerson.

The Southern California Public Powers Authority was the same type of outfit as their Public Facility Corp. in Ventura, working their bond operation. With the lawsuit by the citizens in Los Angeles blocking the illegal sale of the bonds, you would think they were in trouble—but not so, this is where the power of their "unelected judges" came in—Los Angeles Superior Court Judge Leon Savitch merely banged his gavel and dismissed the taxpayers' lawsuit and ordered, as a starter, that 5-hundred-and-forty-million dollars of bonds must be sold immediately and that Los Angeles County taxpayers must pay principal and interest.

The politicians in Arizona that Don Bolles had uncovered were Senator Barry Goldwater, Harry Rosenzweig, Nathan Waxman and Dennis DeConcini. DeConcini was elected to the U.S. Senate in 1976 at the very time of Bolles murder.

Goldwater and Rosenzweig were tightly associated with Harry Pregerson, and the actual orders to kill Bolles came from Pregerson and Berenson in California. Their contact and "set-up" man was Max Klass who arranged the "set-up" so Bolles would park his car in a parking lot which was overlooked by Klass' office. Klass could keep his eye on the whole procedure and was one of the first persons at the scene. Klass told police that Bolles had whispered names to him, but these things that Klass claimed Bolles had told him misled the investigation and engulfed persons who were not involved.

My lawsuit against the Ventura County Public Facilities Corp. was dismissed by two "unelected judges", Robert Shaw and Robert Willard, and the bonds were sold.

Later Jessica Savitch, who was involved in the ADL's bond deal machinations was killed, along with an associate by Bar Ilan assassins. Records of the bond transaction involving all the above-mentioned organizations were secreted at the First Interstate Bank building in Los Angeles—the bond records of the Ventura County Public Facilities Corp., which revealed all the phony judges and County Counsel James L. McBride's manipulations of the bonds' ownership and cover-ups, were also kept at this bank location.

When pressure of investigations and lawsuits that I had been filing mounted, the bond records were secretly removed from the First Interstate Bank building and a fire was set in the area where the bonds had been kept to cover up the removal. A man was killed (murdered) in this fire.

An associate of mine and I met with a Los Angeles Deputy District Attorney who was assigned to prosecute these types of cases and a Dist. Atty. Investigator. The four of us met in a restaurant in Woodland Hills and talked for over two hours. After introducing and identifying ourselves the D.A. asked if we minded if he recorded our conversation. We agreed to this and his investigator set their recorder on the table. I said that he should have no objection to us also recording the conversation and I set our recorder on the table.

This Dep. D.A. was given the name of the man who had removed the bond records from the Interstate Bank and the location in Phoenix, Arizona where they had been taken; that the security company for the bank where the fire occurred was under the control of the same people who had the security at Palo Verde. The D.A. was given documented evidence revealing that Judge Jerome Berenson and U.S. Commissioner Ben Nordman had stolen over 23-million dollars in cash from the funds that they had used in the construction of the new Ventura County Courthouse. These funds had been fraudulently removed from the Federal Omnibus Safe Streets Act (the California Criminal Justice Organization), which "unelected Judge" Jerome Berenson controlled. These millions were fraudulently spread around and deposited in numerous S&Ls within Los Angeles County and later furtively removed.

The Dep. D.A. assured us that he was going to open an investigation and at my insistence he twice stated that he was going to personally advise Dist. Atty. Ira Reiner of the whole situation and particularly because the murder at the bank appeared to have been committed during the arson.

Several days later my associate and I contacted the Dep. D.A. by phone. He told me that he had been desperately sick and had not yet contacted Reiner but he was going to take care of it soon and he would contact us. The Dep. D.A. never did contact us and from that time on we diligently attempted to reach him numerous times but he refused to talk to us.

Dist. Atty. Ira Reiner covered up murder, bond fraud, grand theft and his ADL associate, Harry Pregerson's evil depredations, but now he presently appears on Larry King's ADL TV show and displays grim-faced, vitriolic anger that O.J. Simpson was found "not guilty" and has gotten away with killing the son of the influential Jewish Goldman family—and that he intends to see that full justice will be done against Simpson in their "unelected judges'" civil trial, conducted by an "unelected judge" and Santa Monica jurors.

Actually, this great, terrible anger coming from Ira Reiner and other ADL Jews is because their most carefully laid conspiracy to cause the most horrendous, destructive race riots the cities of the entire United States had ever experienced had fallen apart with Simpson's exoneration.

In *Ronald Chisom v. Roemer, Governor of Louisiana et al.*, 90-757, the U.S. Supreme Court ruled that judges are representatives of the people the same as prosecutors, sheriffs, state attorneys general and state treasurers. This includes clerks of the court and supervisors of the county board.

There is absolutely no difference between a judge and any of the other officials named above. Judges must be chosen by popular election which means being on a ballot and receive votes and be tabulated.

De Witt W. Clinton, the County Counsel of Los Angeles maintains that if judges and all the other officials are the same, then none of them have to be elected by the qualified electors; they only need to be appointed.

In the Voting Rights Act of 1965, the Supreme

Court held that the Amendment of 1982 is coextensive with the coverage provided by the Act prior to 1982 and that judicial elections are embraced within that coverage.

In the April 26, 1995 landmark *Lopez* case the U.S. Supreme Court ruled very clearly as to Congress' lack of jurisdiction to legislate unconstitutional statutes. Nor can the California State Assembly legislate unconstitutional amendments to the State Constitution and then legislate Election Code Statutes derived from such unconstitutional amendment—they do not have jurisdiction.

The U.S. Supreme Court did not hesitate to strike down the unconstitutional statute in the *Lopez* case although it conceivably could release federal prisoners other than those who had been convicted under this "non-law".

The Court obviously felt that unconstitutional law could not be allowed to stand no matter what the consequences. They also understood that the entire blame lies directly with the persons who set up these treasonous, destructive "non-laws" for their own benefit and it was no fault of the defenseless citizens.

In Los Angeles, at the California "State Bar" building, large plate glass windows have been blasted out far above the ground floors by bullets from high-powered rifles.

These acts of violence were not committed by terrorists nor by good, honest citizens who have had all their life's savings stolen by "unelected judges" and have no legal recourse. These violent acts of striking back were committed by a small group of ethnic lawyers in Los Angeles. Terrible frustrations have been built up within this group who merely wanted to file to run for a judge's seat but knew they couldn't. The terrible frustrations assailing this group center on the fact that they were warned and threatened that if they interfere with "unelected judges" and force them to place their names on a ballot that their bar license will be "ripped" from their office walls.

Obviously such destructive insanity as the unconstitutional California Constitution Amendment and Election Codes 25304 and 8203 cannot be allowed to continue their evil and be upheld by such further insanity as the *Binns and Barrett et al. v. Hite* cases.

Title 28 USC., Sec. 1257, Sub. Sec. (a), "Final judgements or decrees rendered by the highest court of a State in which a decision can be had, may be reviewed by the Supreme Court by Writ of Certiorari where the validity of a statute of any State is drawn in question on the ground of its being repugnant to the Constitution."

The ADL (Anti-Defamation League) is the most destructive, evil organization ever to be allowed to operate in the United States. It openly began its murderous saboteur, provocateur, and espionage operations against the people of America in 1913, the same time the Mishpucka (Jew Crime Family) dropped the devastating Federal Bank System on the people.

Presently certain politicians in the U.S. Congress are calling upon the Justice Department to force Farrakhan to register as an agent of a foreign country (Libya). At this time, every good American citizen should phone, fax, send letters and telegrams and contact in person each and every Senator and member of the House and demand that the Justice Department force Abraham Foxman, the official head of the ADL to register as an agent of a foreign country (Israel). I can guarantee you that Farrakhan and Libya have not done one-trillionth of the damage to America that Israel and their ADL have done.

At this time I ask that you please respond to my request and/or demand that the Los Angeles County Board of Supervisors review and act on the facts and circumstances of my job termination, loss of pay and pension, as I asked in the last paragraph of page 5 and continued on page 6 of my communication to you on November 2, 1995.

Sincerely,

Supreme Court Rulings On Judges "Elections"

37 Cal.Rptr. 323
Walter S. BINNS et al., Plaintiffs
and Respondents,

v.

Benjamin S. HITE, as Registrar of Voters
etc., Defendant and Appellant.
L.A. 27737.

Supreme Court of California,
In Bank
March 11, 1964.

Action for declaratory relief. The Superior Court, Los Angeles County, Walter R. Evans, J., declared statute unconstitutional, and defendant appealed. The Supreme Court, Gibson, C.J., held that constitution provision that judges of municipal court be "elected" by qualified electors did not require that there be actual balloting and tabulating of votes, provided there was some appropriate procedure by which selection or choice was made by electors, and statute obviating need for balloting as to unopposed incumbents but permitting 100 electors to obtain printing of incumbent's name on ballot by filing petition indicating that "write-in campaign" would be conducted for office was not repugnant to constitution, since electors could be deemed to have "elected" to retain incumbent in office without requiring that his name be submitted to actual vote if they did not take steps permitted by statute.

Reversed.

1. ELECTIONS <— 171

Statute authorizing elimination of "uncontested judgeships" from ballot was applicable to incumbent municipal court judges who had been appointed to office as well as to judges who had been elected. West's Ann.Elections Code, § 25304

2. JUDGES <— 3

Constitution provision that judges of municipal court be "elected" by qualified electors did not require that there be actual balloting and tabulating of votes, and statute obviating need for balloting as to unopposed incumbents but permitting 100 electors to obtain printing of incumbent's name on ballot by filing petition indicating that "write-in campaign" would be conducted for office was not repugnant to constitution, since electors could be deemed to have "elected" to retain incumbent in office without requiring that his name be submitted to actual vote if they did not take steps permitted by statute. West's Ann.Const. art. 6, § § 6, 11; West's Ann.Elections Code, § 25304.

See publication *Words and Phrases* for other judicial constructions and definitions.

3. ELECTIONS <— 27

Legislature has power to establish reasonable regulations governing write-in procedures, and statute obviating need for balloting where incumbent municipal court judge is unopposed but requiring incumbent's name to be printed on ballot if petition indicating that write-in campaign will be conducted for office is filed did not abridge rights guaranteed by constitution section entitling every citizen to vote at all elections authorized by law; disapproving dictum in *Cohn v. Isensee*, 45 Cal.App. 531, 188 P. 279. West's Ann.Const. art. 2, § 1; art. 6, § 11; West's Ann.Elections Code, § 25304.

4. JUDGES <— 3

Statute obviating need for balloting where incumbent municipal court judge is unopposed was within bounds of legislature's power to provide "manner" in which judges of municipal courts should be elected. West's Ann.Const. art. 6, § 6, 11; West's Ann.Elections Code, § 25304.

5. Statutes <— 77(1)

Legislature may make reasonable classifications.

6. STATUTES <— 101(1)

There was proper basis for making distinction between districts having population of 2,000,000 or more and those which were smaller, since number of uncontested judicial offices would be greater in larger districts and, therefore, statute obviating need for balloting where incumbent municipal judge was unopposed was not invalid as special law, even though it was presently applicable only to Los Angeles Judicial District. West's Ann.Elections Code, § 25304; West's Ann.Const. art. 4, § 25.

Harold W. Kennedy, County Counsel, and Edward H. Gaylord, Asst. County Counsel, for defendant and appellant.

Loeb & Loeb and Herman F. Selvin, Los Angeles, for plaintiffs and respondents.

GIBSON, Chief Justice.

Defendant Benjamin S. Hite, as registrar of voters of Los Angeles County, appeals from a judgment declaring that section 25304 of the Elections Code, added in 1963, is unconstitutional and should not be applied by defendant.[1]* The judgment was rendered in an action for declaratory relief instituted by plaintiffs, who are duly elected or appointed judges of the Municipal Court of the Los Angeles Judicial District and who are candidates to succeed themselves as such judges at the primary election to be held on June 2, 1964. The action was tried prior to the last day for the filing of a declaration of intention to become a candidate, and after this appeal was taken it appeared that candidates have filed in opposition to only two of the 26 plaintiffs.

[1] Section 25304 provides, in brief, that in any judicial district containing a population of 2,000,000 or more in which only the incumbent has filed nomination papers of the office of municipal court judge his name shall not appear on the ballot at either the primary or the general election unless, within certain designated times, a petition signed by 100 registered voters has been filed indicating that a write-in campaign will be conducted for the office and that if, in conformity with this section, the name of the incumbent does not appear on either the primary or the general election ballot, the county clerk or registrar, on the day of the general election, shall declare the incumbent reelected.[2]* By almost identical language a 1962 amendment to section 6 of article VI of the Constitution provided for a similar procedure with respect to superior court judges in counties containing a population of 5,000,000 or more. In *Barrett v. Hite*, Cal., 37 Cal.Rptr. 320, 389 P. 21944, we held that the amendment to the Constitution is applicable to incumbent judges who have been appointed to office as well as to judges who have been elected, and a similar construction must, of course, be given to section 25304.

[2] Plaintiffs assert that section 25304 is contrary to the provision in section 11 of article VI of the Constitution that judges of the municipal court "shall be elected by the qualified electors of the district"; Section 11, however, also declares that, except as such matters are otherwise provided in this article, the Legislature shall provide "the manner in which" judges of municipal courts shall be elected or appointed, and in our opinion section 25304 relates to the "manner" of the election. As we held in *Barrett v. Hite*, Cal., 37 Cal.Rptr. 320, 389 p.2d 944, the word "elect" has the broad meaning of "select" or "choose" as well as the narrower meaning of elect by vote. The Constitution does not require that there be an actual balloting and tabulation of votes, provided there is some appropriate procedure by which the selection or choice is made by the "electors". Section 25304 furnishes such a procedure with respect to an incumbent judge who is unopposed and as to whose office no petition for a write-in campaign has been filed. Under the terms of this section, if there are electors who wish to prevent an incumbent from succeeding himself in office, they may present another candidate or may file a petition indicating that a write-in campaign will be conducted, and when either step is take the name of the incumbent must be placed on the ballot. The choice as to whether the incumbent's name will be on the ballot is thus left to the electors, and if they do not take one of the steps permitted by section 25304 it is obvious that, by their inaction, they have "elected", i.e., chosen, to retain the incumbent in office without requiring that his name be submitted to an actual vote.

The fact that the procedure devised by the Legislature requires electors who are interested to take the initiative if they wish the incumbent's name to be on the ballot does not impose an unreasonable burden upon them. In view of the comparatively small number of electors' signatures required in order to attain the placing of the incumbent's name on the ballot, it is readily apparent that if there is sufficient opposition to the incumbent to have any significant effect at all, there will be no difficulty in obtaining the necessary signatures.

The case of *Chamber v. Terry*, 40 Ca. App.2d 153, 155-156, 104 P.2d 663, 666, relied upon by plaintiffs, is not in point. The court there held that the Legislature has no power to impose qualifications upon municipal court judges where such qualifications are precluded by the provision in section 11 of article VI which excepts from the powers of the Legislature "such matters as 'are otherwise provided in the article'". As we have seen, the statute does not conflict with the requirement of section 11 that municipal court judges are to be elected by the qualified electors of the district.

[3] Plaintiffs also assert that section 25304 conflicts with the declaration in section 1 of Article II of the Constitution that every citizen, with certain exceptions not pertinent here, "shall be entitled to vote at all elections which are now or may hereafter be authorized by law: * * *". Their position is that the constitutional guaranty includes the write-in vote and that the statute abridges it. The Constitution contains no express provision permitting write-in votes or forbidding the Legislature from prescribing conditions under which write-in votes may be cast. We are not confronted here with an attempt by the Legislature to abolish write-in votes but rather with a statute regulating the use of such votes, and in the absence of a clear limitation in the Constitution the Legislature has power to establish reasonable regulations governing write-in procedures. Moreover, any other interpretation of section 1 of article II would be anomalous in view of the recent amendment to section 6 of article VI of the Constitution providing for a similar procedure with respect to the closely parallel situation concerning superior courts in counties having a population of 5,000,000 or more.

Our conclusion is not contrary to *Cohn v. Isensce*, 45 Cal.App. 531, 188 P. 279, cited by plaintiffs. It was there held that sections 1196 and 1197 of the former Political Code, construed together with an act providing for recall of elective officers of incorporated cities and towns (Stats. 1911, Ex. Sess. 1911, ch. 32, p. 128), required that ballots in a recall election contain suitable blank spaces for writing in names of persons whose names are not printed on the ballots. The opinion contains language to the effect that the statutes would be unconstitutional if construed to prohibit electors from voting for persons whose names are not printed on the ballots and that this would be true even though a voter, together with other electors, could by filing a nomination paper have the name of another candidate placed on the ballot. (45 Ca.App. at pp. 538-540, 188 P. 279.) This language, however, was not necessary to the decision, and it is disapproved insofar as it is inconsistent with the views expressed here.

[4] The procedures set forth in section 25304 are without doubt reasonably designed to accomplish the legitimate purposes of the statute. As pointed out in *Barrett v. Hite*, supra, Cal., 37 Cal.Rptr. 320, 389 P.2d 944, relating to the election of superior court judges, the purposes of such legislation include simplification of an otherwise unduly long and confusing ballot by elimination of uncontested offices, reduction of the length of the ballot, facilitation of vote tabulation, and reduction of election costs. The sections permits an incumbent candidate's name to remain off the ballot only if he has no real opposition, and it provides readily available methods by which even a very few persons can obtain the printing of the incumbent's name on the ballot. When the necessity of accomplishing the purposes underlying section 25304 is weighed against the comparatively slight burdens imposed upon electors who desire to have an incumbent candidate subjected to a write-in vote, we are of the view that the statue is within the bounds of the Legislature's power to provide the manner in which judges of the municipal courts shall be elected.

[5,6] There is no merit to plaintiff's assertion that section 25304, being presently applicable only to the Los Angeles Judicial District, is a special law and therefore invalid under section 25 of article IV of the Constitution. The Legislature, of course, may make reasonable classifications (Johnson v. Superior Court, 50 Cal.2d 693, 699, 329, P.2d 5), and there is a proper basis for making a distinction between districts having a population of 2,000,000 or more and those which are smaller. The need for legislation such as section 25304 is greater in proportion to the number of uncontested judicial offices which would appear on the ballot in absence of the statute, and obviously the number of such offices will be greater in the larger districts. The Los Angeles Judicial District has 49 municipal judges, more than three times the number in the next largest district, San Diego, which has 16. (In other large districts San Francisco has 15 judges, Oakland-Piedmont 9, Sacramento 8, San Jose-Alviso 8, Anaheim-Fullerton 6, and Long Beach 6.) The sharp difference between the character of the Los Angeles Judicial Distinct and the others in the state warranted the Legislature in drawing the line where it did.

The judgement is reversed.

GIBSON, Chief Justice.

The plaintiffs in this actions for declaratory relief are judges of the superior court for the County of Los Angeles. Each of them was appointed to that office by the Governor since the last primary or general election, none of them has ever been elected by a vote of the electors, and each is a candidate to succeed himself in office at the primary election to be held on June 2, 1964. The actions was brought to determine whether the names of incumbent judges who have been appointed but not elected to office should be placed on the ballot at the primary or general election if it appears that only the incumbent has filed nomination papers for the office and if it further appears that no petition has been filed indicating that a "write-in campaign" will be conducted for that office. The question presented involves the construction of section 6 of article VI of the Constitution as amended in 1962, and the trial court held that the amendment applies to all incumbent superior court judges whether or not previously elected by the voters and that defendant should follow the provisions of the amendment as so construed.

Section 6 of article VI as amended provides, among other things, that each county, or city and county, shall have a superior court, for each of which at least one judge shall be elected by the qualified electors of the county, or city and county, at the general state election, "except that in any county or city and country containing a population of 5,000,000 or more" * * * in which only the incumbent has filed nomination papers for the office of superior court judge, his name shall not appear on the ballot unless there is filed with the county clerk or registrar of voters, within 20 days after the final date for filing nomination papers for the office, a petition indicating that a write-in campaign will be conducted for the office and signed by 100 registered voters qualified to vote with respect to the office. If a petition indicating that a write-in campaign will be conducted for the office at the general election, signed by 100 registered voters qualified to vote with respect to the office, is filed with the county clerk or registrar of voters not less than 45 days before the general election, the name of the incumbent shall be placed on the general election ballot if it has not appeared on the direct primary election ballot. * * * If, in conformity with this section, the name of the incumbent does not appear either on the primary ballot or general election ballot, the county clerk or registrar of voters, on the day of the general elections shall declare the incumbent re-elected." (The quoted provisions were added by the 1962 amendment.)

Plaintiffs contend that by employing the word "re-elected" the amendment discloses an intent that it apply only to incumbent judges who have previously been elected by the voters. They argue that in ordinary or popular usage the word "elected" means chosen to office by vote of the electorate as distinguished from "appointed", which means chosen by some official or small body of officials, and that a judge never before elected cannot be "re-elected".

The word "re-elected" appears in the latter portion of the amendment and relates only to the declaration to be made by the county clerk or registrar. The other portions of the amendment, which set forth the principal rules to be followed, refer, without qualification, to the "incumbent" in designating the persons to whom the amendment is applicable. The word "incumbent" is, of course, sufficiently broad to include all persons holding office at the times referred to in the amendment, whether elected by the voters or appointed by the Governor. Giving effect to the word "re-elected" in the manner urged by plaintiffs would therefore result either in an implied qualification of the word "incumbent" or in the creation of a conflict between the portion of the amendment using the word "re-elected" and the various other provision which by their terms apply generally to all incumbents. We are of the view, however, that the word "re-elected" may properly be interpreted so as to avoid either of these unfortunate choices.

Although it is true, as plaintiffs point out, that ordinarily "elect" refers to a determination made by voters, the word also has a broader meaning, namely, "to make a selection of: Choose * * * to choose (a person) for an office * * *" (*Webster's New Internat. Dict.* (3d ed.1961) p. 731), "to make choice of (a person) * *" (*Funk & Wagnall's New Standard Dict.* (1958) p. 798), and "to pick out, choose * * *" (*Oxford English Dict.* (1933) vol. III, p. E-74). *Roget's International Thesaurus* (1946) p. 420, gives as synonyms the following: "choose, elect, select, pick * * *; *appoint*, elect, assign, * * * designate, * * * place in office, choose for a post or position. * * *" (Italics added.) In accord with these definitions the court in *Odell v. Rihn*, 19 Cal.App. 713, 719, 127 P. 802, 805, after recognizing that "elected" and "appointed" ordinarily are not synonymous, stated: "In its broadest sense, however, the word 'elected' means merely 'selected'. When used in that sense the word 'elected' is synonymous with the word 'appointed'; * * * " (See also *Main v. Claremont Unified School Dist.*, 161 Cal.App.2d 189, 194-195, 326 P.2d 573.)

The more reasonable interpretation of the amendment is that the word "re-elected" is used in its broader sense, i.e., that the county clerk or registrar is to declare that the incumbent is again chosen or selected to hold the office of judge. As so construed not only does the word have an acceptable meaning but also the term "incumbent" is given full effect and all portions of the amendment are harmonized.

Moreover, our construction of the amendment will tend to promote its purposes whereas the position taken by plaintiffs, if adopted, would render the measure less effective. The argument contained in the ballot pamphlet in favor of the amendment explained that the purposes of the measure were to simplify elections by making it possible to eliminate "uncontested judgeships" from the ballot, to direct attention to contested offices, to avoid confusion, to reduce the length of the ballot and costs of elections, to increase accuracy and speed of vote tabulations, and to make use of mechanical vote-counting more feasible. It was there pointed out, among other things, that in a prior election the voters were forced to search through 65 uncontested judicial elections in order to find three offices for which there was a contest. It is obvious that these declared purposes would be thwarted to the extent that

CONTACT: The Phoenix Project

CONTACT is a unique and inspired newspaper for concerned citizens everywhere, though it particularly focuses on the United States because of this country's special mission in the affairs of the world. That is, "As goes the United States, so goes the world."

CONTACT is a vehicle for Commander Gyeorgos Ceres Hatonn's most recent writings on important current affairs, plus those from other en-Light-ening sources, on matters critical to a responsible and informed public at this time of planetary transition and final days of battle between the Forces of Light and the "Evil Empire" forces of darkness.

CONTACT exists to counteract the manipulating lies and clever half-truths put out (on purpose) by the regular print and broadcast media prostitutes of the Satanic Elite controllers—parasites who are in the process of economically, physically, and spiritually collapsing this once great country (and actually the entire planet) down to a slave-state level of existence under their diabolical control plan called The New World Order.

This newspaper, *CONTACT*, began life on March 30, 1993, risen, like the mythical bird, with great determination "up from the ashes" of its internationally acclaimed predecessor called *THE PHOENIX LIBERATOR*. *THE PHOENIX LIBERATOR*, in turn, began life in mid-October of 1991, having evolved from an earlier newsletter called the *PHOENIX JOURNAL EXPRESS*, which itself came into existence as a faster way to get THE TRUTH out to you readers than was possible with the more substantial "book" format of the *PHEONIX JOURNALS*. Much incredible ground has been covered so far in that mission.

While the *PHOENIX LIBERATOR's* motto reminded all that "The Truth Will Set You Free", the *CONTACT's* motto, displayed prominently in the masthead, takes that thought another important step forward and proclaims: **"Ye Shall Know The Truth And The Truth Shall Make You Mad!"**

The "Phoenix Project" is about those preparations needed—at body, mind and soul levels—to both understand and survive the great healing changes which are beginning to energize this beautiful little planet, now so frazzled and tortured from abuses of all kinds. We look forward, with great expectations, to the *CONTACT*ing with all of you—a coming together that is rapidly taking place as the entire Phoenix Project "ground crew" continues to connect, solidify, and gain strength through becoming informed of THE TRUTH. the names of unopposed incumbents who had been appointed rather than elected were placed on the ballot. The argument submitted to the voters contains nothing suggesting that a distinction was intended between elected and appointed incumbents, and it seems likely that there would have been comment on the matter if such a distinction had been contemplated.

This action was tried prior to the last day for the filing of a declaration of intention to become a candidate. After the appeal was taken it appeared that a candidate had filed in opposition to one of the plaintiffs, and, of course, the name of the opposed judge must be on the ballot. Time for the filing of write-in petitions has not yet expired, and if such a petition, properly signed, is filed the name of the incumbent judge of the office affected must also be placed on the ballot.

The judgment is affirmed.

1. CONSTRUCTION AND APPLICATION

Only if the electoral process cannot be carried out or a vacancy occurs prior to the qualification of a candidate or candidates for an office in the year in which an incumbent's term expires does subd. (c) of this section permit the postponement of an election for a superior court office beyond the sixth year of a term. *Stanton v. Panish* (1980) 167 Cal.Rptr. 584, 615, P.2d 1372, 28 C.3d 107.

Registered voters have the right to vote for and elect judges in their judicial distinct. *Koski v. James* (1975) 120 Cal.Rptr. 754, 47 C.A.3d 349.

The only effect of the 1966 revision governing appointments to fill vacancies in the superior court judgeships is to eliminate requirement that election be held during the last year of an incumbent's term if vacancy accrues during that year and to assure that the appointee will not have to stand for election until a general election two years hence. *Anderson v. Phillips* (1975) 119 Cal.Rptr. 879, 532, P.2d 1247, 13 C.3d 733.

Where person elected to superior court judgeship dies before assuming office at start of elected term but after himself having been appointed to serve out remainder of term of predecessor, the appointee filling such vacancy may continue to hold office until a new election is held and the newly elected judge assumes the office. Id.

Whenever it is possible to carry out the fully elective process, no more than six years should elapse between elations for a superior court office. *Pollack v. Hamm* (1970) 90 Cal.Rptr 181, 475 P.2d 213, 3 C.3d 264.

Exception contained in this section providing that appointee to office of superior court judge does not stand election in year of accrual of vacancy which he is appointed to fill was not applicable to case involving appointment on May 8, 1966 of petitioner whose predecessor, who himself had been appointed in January 1966 to succeed previous judge dying on December 25, 1965, had died 30 days prior to 1966 primary election and after time had expired for candidates to file for that election. *Barber v. Blue* (1966) 52 Cal.Rptr. 865, 417 P.2d 401, 65 C.2d 185.

The word "elect" has broad meaning of "select" or "choose" as well as narrower meaning of "elect by vote"; in this section providing for eliminating "uncontested judgeships" from ballot, word "re-elected" was used in broader sense; and even those incumbent superior court judges who had been appointed rather than elected were entitled to benefit of this section. *Barrett v. Hite* (1964) 37 Cal.Rptr. 320, 389 P.2d 944, 61 C.2d 103.

All judges of supreme court and all judges of courts of appeal should stand for election at gubernatorial general election whether for a full term or for the balance of unexpired term. 49 Ops.Atty.Gen. 88, 5-16-67.

The provisions of Art. 11, § § 7 1/2 and 8 1/2, which purport to provide for local courts in chartered counties and cities, are superseded by the revision of this article. Op.Leg. Counsel, 1966 S.J. 1046.

§ 25304. INCUMBENT IS ONLY NOMINEE; HOW NAME PLACED ON BALLOT; WHEN RE-ELECTED

In any county or any judicial district in which only the incumbent has filed nomination papers for the office of superior court judge, municipal court judge or justice court judge, his name shall not appear on the ballot unless there is filed with the county clerk or registrar of voters, within 10 days after the final date for filing nominations papers for the office, a petition indicating that a write-in campaign will be conducted for the office and signed by 100 registered voters qualified to vote with respect to the office.

If a petition indicating that a write-in campaign will be conducted for the office at the general election, signed by 100 registered voters qualified to vote with respect to the office, is filed with the county clerk or registrar of voters not less than 68 days before the general election, the name of the incumbent shall be placed on the general election ballot if it has not appeared on the direct primary election ballot.

If, in conformity with this section, the name of the incumbent does not appear either on the primary ballot or general election ballot, the county clerk or registrar of voters, on the day of the general election, shall declare the incumbent reelected.

(Added by Stats.1963, c. 1535, p. 3119, § 1. Amended by Stats.1965, c. 1016, p. 2650, § 1; Stats.1967, c. 17, p. 835, § 30; Stats.1970, c. 615, p.1217, § 31, eff.Aug. 6, 1970; Stats.1986, c. 866, § 19.)

1. VALIDITY

Legislature has power to establish reasonable regulations governing write-in procedures, and this section obviating need for balloting where incumbent municipal court judge is unopposed but requiring incumbent's name to be printed on ballot if petition indicating that write-in campaign will be conducted for office is filed did not abridge rights guaranteed by Const.Art. 2, § 2, entitling every citizen to vote at all elections authorized by law; disapproving dictum in *Cohn v. Isensee*, 45 Cal.App. 531, 188 P. 279. *Binns v. Hite* (1964) 37 Cal.Rptr. 323, 389 P.2d 947, 61 C.2d 107.

2. IN GENERAL

If election is in fact held for municipal judgeship, prevailing candidate is elected on day of election, and not on day results of election are officially declared. *Brown v. Hite* (1966) 48 Cal.Rptr. 869, 410 P.2d 373, 64 C.2d 120.

Under this section, date most closely analogous to day of election is last day upon which petition can be filed giving notice that write-in campaign will be conducted, and if at that time no petition has been filed, name of incumbent does not appear on general election ballot, opposition to candidacy is precluded, and he should be deemed to have been elected, for purpose of

determining whether he is entitled to hold office for succeeding term. Id.

Provision of this section authorizing elimination of "uncontested judgeships" from ballot was applicable to incumbent municipal court judges who had been appointed to office as well as to judges who had been elected. *Binns v. Hite* (1964) 37 Cal.Rptr. 323, 389 P.2d 947, 61 C.2d 107.

If an incumbent judge should run without opposition and his name does not appear on the primary ballot in accordance with this section, an attorney who was not eligible for the primary election might become a write-in candidate at the subsequent general election in accordance with the provisions of this section. 69-97, 52 Ops.Atty.Gen. 101, 6-6-69.

3. RESIGNATION

Judge's resignation prior to election created vacancy in that office to be filled by governor, and prevented his subsequent election as unopposed incumbent, even though judge resigned after determination had been made, pursuant to this section, that he was unopposed incumbent whose name did not have to appear on ballot, and even though after election, Secretary of State declared judge to be successfully elected candidate, as resignation effectively removed him from office and terminated his status as incumbent, thereby removing him from purview of this section. Letter to *CONTACT*:

In the *CONTACT* newspaper, Volume 5, Number 10, May 31, 1994, Page 5, Commander Hatonn brings to the attention of the American citizens the ungodly terror of the New World Constitution.

And that, "This Constitution was published by the Center for the Study of Democratic Institutions (1965), formerly located in Santa Barbara, California."

Approximately in 1991, I commenced an addendum to my book, *There's a Fish in the Courthouse*, which was first printed and sold in 1987. This addendum, when completed, will be part of the new edition soon to be printed. The following are excerpts taken from my addendum in context with Commander Hatonn's writings in above mentioned *Contact*.

In the mid and late 1950s I was a Det. Sgt. with the Ventura City Police Department. Ventura is a small city situated between Los Angeles and Santa Barbara. At this time I learned that the Center For The Study of Democratic Institutions in Santa Barbara was a secret Anti-Defamation League organization run by Stanley Scheinbaum along with two more Mishpucka lawyers, Norman Dorsen and Ira Glasser. These Mishpuckas were powerful heads of the so-called American Civil Liberties Union (ACLU). For a period of several years during the late 1950s, Los Angeles Police Department Chief William Parker was running to Santa Barbara for secret meetings with this evil conclave of anti-American Mishpuckas. Policeman Daryl Gates, later to become Chief, was the driver of Parker's expensive city vehicles.

Parker was doing corrupt acts for the Mishpuckas (giving them confidential police files on innocent citizens to be used for blackmail by the ADL) and the ADL, in turn, was promising Parker that their extraordinary influence and money would be used to make him the next director of the FBI. This, Parker wanted more than anything else in the world. He sold out the LAPD and citizens for these Mishpucka promises.

Ed Patton, a former Det. Sgt. with the Oxnard PD, but who in 1968 was working for the Wackenhut Security Company, and I met secretly with Bobby Kennedy in an Oxnard alley. We gave Kennedy phone company documents disclosing that a phone call had been received by the FBI fifteen minutes before the assassination informing them that JFK was going to be killed. The phone call was made from the law office of Ben Nordman and his partner, Judge Jerome Berenson. (The name of the woman making the call was given to Kennedy.)

For many years Patton and I were of the belief that Robert Kennedy had flown into Oxnard Airport and from there had driven to meet us, then had returned to the airport and flew back to San Francisco.

Since Kennedy was killed within only a few hours after we had met with him we figured he had shared the information with someone on the plane or in San Francisco who had quickly set up his murder to prevent him from acting on our evidence and information; consequently, we had focused our thoughts on who those persons would be.

However, just recently, with the killing of Don Scott, a wealthy landowner in the Malibu Mountains, by the L.A. Sheriffs Dept. in conjunction with the Ventura County Sheriff Dept., I was delving into several aspects of the case. These aspects dealt with environmentalists and the California Coastal Commission in which a Mishpucka lawyer, Paul Zifren, and his family were and still are deeply involved.

I came upon startling knowledge revealing that Kennedy had not just flown into the Oxnard Airport and left the same way on the day he met with Patton and me.

Instead Kennedy and his family had been staying at the home of Paul Zifren in Malibu and, within one hour of Patton and I giving him our information, he had confided it to Paul Zifren, who was a high ranking member of Kennedy's political campaign.

Knowing what Kennedy would do with his new information when he got back to Washington, D.C., the Mishpucka had an extreme emergency that had to be 'taken care of' immediately.

The decision and mechanics of eliminating Kennedy were a rush job, but the Mishpucka is capable of just such emergencies.

Kennedy was re-routed through the kitchen of the Ambassador Hotel where a psychedelically, mind-prepared 'killer-scapegoat' Sirhan Sirhan was strategically placed.

The critical re-routing through the Ambassador Hotel's kitchen, which would be free of any police or government protection, was repeatedly insisted on by Frank Mankiewicz, a Mishpucka associate of Paul Zifren and a member of the Democratic Party Campaign for Kennedy. Mankiewicz was a longtime, powerful member of the ADL and associated with Stanley Scheinbaum, Norman Dorsen and Ira Glasser, etc.

I came upon this Zifren connection through looking into Irwin Lachman, a rich Mishpucka and land developer. Zifren and family have inside control of the Coastal Commission and are associated with Lachman in developing the Malibu Mountains, which involves Don Scott's ranch.

Lachman claims he is developing a campground for which he does not have to obtain a conditional use permit or prepare an environmental impact report.

Going before the Coastal Commission and the LA County Board of Supervisors where the Mishpucka has already paved the way, it will quickly and quietly be approved.

But Lachman does not intend a campground area for people to come to nature's wilderness and relax.

He is going to make Latigo Canyon into a ranch resort with facilities for 400 people. It will sport a major restaurant, fitness center, basketball and tennis courts, two swimming pools and an amphitheater. Fees will be $125.00 a night. This is a development that will project a 50 to 75-million-dollar income annually. It will be done without public hearings or input.

At this point, it should be simple for anyone to see how the Mishpucka becomes outlandishly wealthy: you simply kill people, take their property and do with it what you want.

Examine this scenario: Could an Italian pull off this kind of operation and get away with it? Could the Mafia's top Mafioso Carlos Marcello design and carry out such a scheme?

No way, not in a thousand years, but the Mishpucka has these operations going every day of the week.

A short time after Robert Kennedy was murdered, the Zifren family pulled off a little scam—designed to take the heat off them and make people believe they were also in jeopardy from the Sirhan Sirhan Arabs who had killed Bobby. They reported a phony bomb scare at their home in Malibu. The Sheriff came out and roped off the scene and blocked off the road in a big bomb investigation, but that's all that it was—a phony

Excerpt from 5/31/94 issue of CONTACT, *page 5:*

A CONSTITUTION FOR THE WORLD

INITIATIVE for a World Constitution launched in California, 20 December 1993, as "Philadelphia II", to qualify for 8 November 1994 GENERAL ELECTIONS.

This "Constitution" was published by the Center for the Study of Democratic Institutions (1965) financed by the Fund for the Republic, *A FORD FOUNDATION* [H: Oops!]!

Formerly located in Santa Barbara, California, the Center appointed Socialist-oriented University of Denver Chancellor Maurice B. Mitchell as new head and merged with the Aspen Institute, Aspen, Colorado, a world government policy promotion agency. Aspen Institute Chairman is Robert O. Anderson, chief executive officer, Atlantic Richfield Company; member, Committee for Economic Development for International Education (laid the groundwork for Regional government [which would abolish individual states as they presently exist]*).*

bomb investigation, but that's all that it was—a phony Mishpucka scam.

All of these Mishpuckas are ADL members and associates of Stanley Scheinbaum, who also was a member of the LAPD Commission. With their conspiracy of riot and revolution they manufactured the 1965 Watts riots, and in the meantime, roped in Daryl Gates, who had become the Chief, and made him the same offer they had made Parker—to make him Director of the FBI, which Gates wanted just as bad as did Parker.

The Rodney King episode and subsequent Watts riot (which I had warned them of one year before it happened) engineered by the ADL and Stanley Scheinbaum was a scheme to take over the LAPD Police Commission and to appoint a new Chief.

Willie Williams, a Black man, was appointed the new Chief and was met at the L.A. Airport by Stanley Scheinbaum and limousined to Stanley's Beverly Hills palace where Andrea Ordin, Warren Christopher, Mickey Kantor and other powerful ADL Mishpuckas gave Willie his orders. His first priority was to confine all future riots within Watts and other Black areas and under no circumstances allow them to spread to Beverly Hills and other areas where they could destroy the Jews investments.

At this time, they also promised Willie that if he performed the way he was told, that in the future they would make him the first Black Director of the FBI. Assuredly the Mishpucka is lying to Willie the same as they did to Chief William Parker and Chief Daryl Gates. They already have their man, Louie Freeh, in as FBI Director.

While Gates was Chief of Police, Alfred Bloomingdale and U.S. Defense Secretary Caspar Weinberger and other buddies of Pres. Ronald Reagan were secretly filmed engaging in sado-masochistic kinky sex with Vickie Morgan, Bloomingdale's mistress.

These audio-video tapes were being used as blackmail and involved national security secrets involving Israel (Iran-gate).

In the process Vickie Morgan was murdered and her boyfriend was framed for the murder. The involvement of Weinberger and other high-ranking government officials was covered-up.

Ramroding the cover-up were Mishpuckas, Judge David Horowitz and prosecutor Stanley Weisberg, who refused to allow any evidence of the tapes into the trial. Then Stanley Weisberg became the judge in the Rodney King trial in Simi Valley and was responsible for precipitating the Watts riot in which hundreds of people were injured and killed and millions of dollars in property damage.

This is just a tiny scenario of the chaos in government and chaos among the people that the Mishpucka is bringing down on America to destroy and subjugate the people.

There is one thing the people can do to destroy the Mishpucka before they destroy America.

Daryl Gates has copies of the Vickie Morgan affair and the treasonous acts of government officials involving our national security.

An investigation of this affair by a secret Grand Jury, run by an honest, competent justice department prosecutor could open the door, free America from all the insanity, all the chaos the Mishpucka has embroiled our country in for the past 50 years.

Perhaps someone like the prosecutor in the Rostenkowski case—reading off an indictment on TV of the ADL Mishpucka, and its crimes of treason, murder, spying, drug smuggling, money laundering, and judicial corruption, etc. I realize, of course, that President Bush pardoned Caspar Weinberger for his treasonous acts against national security in the Iran-Contra affair so maybe Weinberger can't be tried and put in prison for that but perhaps Weinberger can be tried and executed or imprisoned for something else. Bush did not pardon Weinberger for murder—and for murder there is no statute of limitations.

Then again, perhaps George Bush himself was a participant of the orgy with Vickie Morgan and violations of the national security. In this event did Bush have the presidential right to pardon Weinberger and consequently himself of violations of national security and the trust of the people??

You can see how the ADL Mishpucka entangle and entwine themselves with their terrible lies and conspiratorial evil machinations.

Did Weinberger blackmail George Bush into pardoning him under threat of exposing him and the other government officials involved in the sick sex caper and murder??

All these terrible facts and possibilities bring to full light the insanities of the ADL Mishpuckas, revealing how they drag entire countries and governments through a hell on Earth, and the misery and fear they pour into the communities of diverse races bearing on their conspiracy of racial riot and revolution.

Our country cannot continue under these assaults of the ADL Mishpucka without an all-encompassing Grand Jury investigation and full blown prosecution of the treasonous criminals.

The only thing in the world that can bring the country back to sanity is bringing out the truth—the whole truth and nothing but the truth for the entire people of the country to see and to know that there is nothing, nothing at all left hanging over their heads.

The light of truth is the only thing that can save America.

Confiscation Of Citizens' Gold And Silver

(Continued from Front Page)

American citizens. This DOES mean that those old outstanding gold and silver certificates are real and are valid. This will be their way of not having to honor them while seizing assets from you at the same time.

Well, there are many ways to handle this quandary but I don't think the people involved will listen carefully enough to reclaim even part of these certificate debts. You must understand the workings to even begin to see what I mean. You have to make these debts payable somehow to non-U.S. citizens in a TREATY (WITH THE U.S.) nation with the beneficiary a non-citizen. In other words you have to "work" the system as solidly as they are working you. But everyone shies away from the game because they are "scared". Why? It is as simple as turning over to a country's Bank the collection and have it assigned—you, then, would get a portion.

Let us consider "Grandma's" certificate. It was in for collection (for several years) through Peru—BUT GRANDMA ASSIGNED THE PAYOFF TO THE u.s. CITIZENS THROUGH RUSSELL HERRMAN-HERMAN TO THE VARIOUS "SOVEREIGN" STATES FOR YOU-THE-PEOPLE.

By having citizens of the U.S. listed as beneficiaries the proceeds are then, by the above bill(s), confiscated, either in value OR gold. So the traitors in Congress with instructions from Greenspan at the Fed win again and come down to get everything you might have stored for a rainy day. The fact that the *CONSTITUTION*, Article 1, Sec. 10 says, "You cannot impair nor impede contracts." What they are actually doing here is unlawfully confiscating a "contract" but you the people do NOT HAVE TREATY COVER and PROTECTION.

Can't "I" help you? No more than by telling you this and warning you that if you continue in this direction you WILL BE THWARTED.

In 1935, after an all-out confiscation and "turn in" of gold in 1933, this non-jurisdiction of "contracts" was declared as to the Congress having no area of jurisdiction.

The FACTS are, however, that without honoring the *Constitution*, which is now set aside under "National Security" in a "State of Emergency" (Bosnia, but it will continually be some emergency as it has been since 1932), you have no *CONSTITUTIONAL RIGHTS!* NO, GOING TO WAR WILL NOT SOLVE THE PROBLEM—YOU HAVE TO WORK WITHIN THE SYSTEM UNTIL YOU RECLAIM IT.

RIGHTS OF INDIVIDUALS

We have to look backwards in order to recognize just when you lost the right to the gold standard and when the gold clause of the *Constitution* was abrogated. That clause (Resolution) declared that:

HOUSE JOINT RESOLUTION 192 (1933)

"Whereas the holding or dealing in gold affect the *public interest*, and are **therefore** subject to proper **regulation**: and whereas **the existing emergency has disclosed that** provisions of obligations or a particular kind of coin or currency... are inconsistent with the declared policy of Congress... in the **payment of debts"** [therefore all gold is to be confiscated].

Effectively, the gold was taken as a **partial** payment on the debt owed ***TO*** **the Federal Reserve corporation**. This Resolution declared that any obligation requiring "payment in gold or a particular kind of coin or currency, or in an amount in money of the United States measured thereby, is declared to be ***AGAINST PUBLIC POLICY;***" and "...**Every obligation**, heretofore or hereafter incurred, **shall be discharged** upon payment, dollar for dollar, in any coin or currency which at the time of payment is **legal tender** for public and private debts."

Interestingly, however, this does not address "payment" of DEBT, but recognizes and states: "**Every obligation... shall be discharged.**"

So is there a DIFFERENCE? I suppose so—in the judicial language as re-invented:

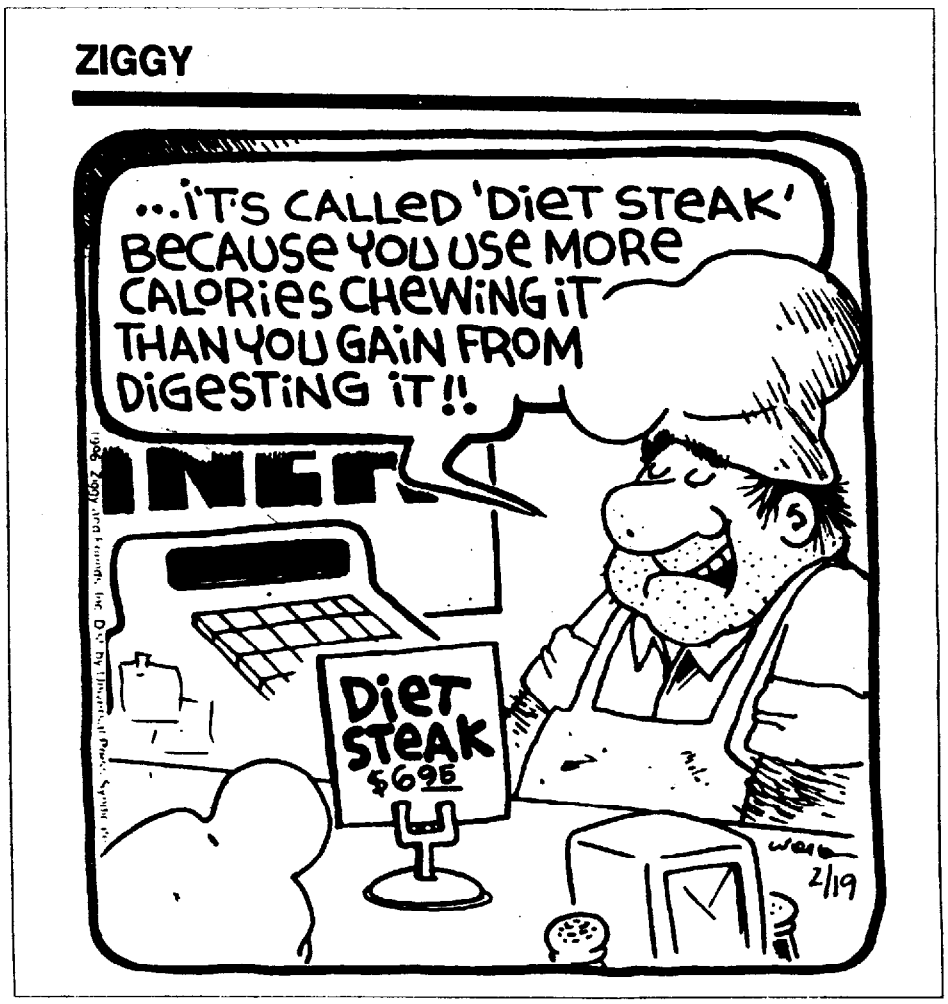
"There is a distinction between a 'debt discharged' and a 'debt PAID'. When discharged the debt still exists though divested of its character as a **legal obligation during the operation of the discharge. Something of the original vitality of the debt continues to exist, which may be transferred, even though the transferee takes it subject to its disability incident to the discharge**. The fact that it carries something which may be a **consideration for a new promise to pay, so as** to make an otherwise worthless promise a legal obligation, makes it the subject of **transfer by assignment**." [*Stanek v. White*, 172 Minn. 390, 215 N.W. 784.]

It next becomes quite clear that resulting from HJ Res 192, and from that day forward (June 5, 1933), NO ONE HAS BEEN **ABLE TO PAY A DEBT**. All that can be done is to tender in transfer of debts, and so the debt is perpetual.

The suspension of the gold standard, and prohibition against paying debts, removed the substance upon which common law operates, and created a giant void as far as the common law is concerned. The SUBSTANCE was replaced with a "National Public Credit System" **whereby debt is called "money"** (the Federal Reserve [privately owned corporation] calls it "monetized debt") over which the only jurisdiction is ADMIRALTY AND MARITIME LAW. This "Admiralty" and "Maritime" law IS NOW THE BASIS OF YOUR JUDICIAL SYSTEM—based on Admiralty law which makes the "Admiral" the TOTAL LAW. In other words, your courts are Admiralty courts wherein the powers that be are the legal "laws". This always comes to play in a time of "emergency powers" and is designated for all the world to SEE by the gold fringe outlining your National and/or State FLAG which now hangs IN EVERY COURTROOM. For a long time you had to have at least one Common Law Courtroom in a courthouse wherein the flag would NOT have a gold fringe. The gold-fringe designates both a nation at WAR and, through that war, there is National Distress and, by the way, includes the powers of Martial Law, which also became the law of the land at the same time all this other happened—in about 1932!! They had to have the privilege of enforcing the dastardly things they were about to thrust upon YOU THE PEOPLE. However, note that you went like lambs to the slaughterhouse and very little had to be done to you for if you didn't like it, just as in the Great Depression—you could just go jump off a bridge into the deep blue sea.

GOLD COLLATERALIZED NOTES/LOANS

I truly don't know of anyone except the Phoenix Institute that backed its loans from you-the-people with purchase of gold as collateral. You have to understand the system to realize that perhaps that gold is not secure



but you will have had use of "money" for projects and the VALUE will remain pretty much intact as attached to the price of gold at the time of "confiscation". There will also be ability, I think but can't be certain for you are in worse trouble than in 1933, that gold will be confiscated with a payout value of some kind. They will establish that price at a low enough level as to not cost "them" but only "you" and some of you will actually have some gain. If in the bank and being borrowed against there may actually be a measure of GROWTH value allowed as long as you don't try to buy out your own gold but, rather, just keep borrowing on its newly establishing variable levels. Of course the way they will "getcha" is that when that value diminishes or drops out—they get the gold and you get bankruptcy. So, you have to know when to hold them, know when to fold them, and KNOW WHEN TO WALK AWAY!

CHANGED "MONEY" AND DEBIT CARDS

What you will have happening, and is supposed to begin, according to the grapevines, on the 19th of February (tomorrow) will be the beginnings of a changeout of currency. This is a "long" weekend and it may or may not happen but this was the plan of introduction to this lovely new paper. Then, on or about the 22nd, there will be a closeout of being able to buy stocks, etc., on the market EXCEPT THROUGH DIGI-CARDS OR DEBIT CARDS WHICH RUN ALL TRANSACTIONS THROUGH A CENTRAL CORPORATION COMPUTER WHICH CAN CONTROL AND CHECK OUT EVERY PURCHASE, SELL, AND EVERY TRADER! **IN THIS MANNER EVERY COLLAPSE CAN BE CONTROLLED AND THE WHOLE COLLAPSE CAN SIMPLY BE A PAPERWORK DROP-OUT. THIS HAS BEEN TAMPERED WITH AND TESTED ALL THE WHILE YOU SHEEPLE THINK THE MARKET IS MOVING UPWARD—ACTUALLY NOTHING IS HAPPENING EXCEPT COMPUTER MANIPULATIONS TO FOOL MOST OF YOU ALL THE TIME UNTIL THEY GET THEIR PROGRAM "FIXED" AND INTO FULL POWER.** The Depression and 1929 collapse was simply an EXPERIMENT to accomplish this massive TAKEOVER now.

I know, it sounds really good to be "off shore" when this happens—but this game is the NEW WORLD ORDER and you will be monitored and there will be no way to get anything back in without their ability to confiscate, fine you, imprison you or simply "screw you"!

No, I do not change my ideas an iota—we still have the best mode of survival—for at the least, if we have funds NOW the big boys will leave us alone. And, further, if corporations own themselves and there are no big stockholders there is no need to squelch you little guys. Why? Because they are going to also have to EAT! The biggest problem is that after a while the dealers will not be able to find or get gold upon which loans will be made using it as collateral. So by not sharing NOW, you are going to lose a heck of a lot later. Some of you may really actually have a battle with your own soul as you develop a real desire to lynch Green for damaging our jewel in the crown. Perhaps you may have to settle for diamonds in your crown!

You will come to realize that you who pull US DOWN also destroy your own opportunity. It simply is the way it is and, therefore, all the wishing will change not an iota of the facts of it.

My suggestion is, in addition, that you effort to get some of the foreign Banksters to supply funds, with value for them received up front in the form of points so that you are not required to issue control stock to the lender, and go for your projects to be funded. We have some magnificent projects and, after values are settled out—the Banks will need good investments without worry of project failure. If the loans are PURCHASED and not "interest bearing" you can maintain CONTROL of function of the project operation and the bank is also satisfied by the actual "purchase" of the money. You will, of course, "borrow" the money because this keeps you without tax debt to the growing project until it is established and making income which SHOULD then be lawfully taxed under the *Constitution*. If, then, a profit is never realized you are not BROKEN by the burden of ongoing income taxes. You not only CAN work within the terrible system that exists, but you can actually thrive within it as it IS.

But can't they then just come and "nationalize" or confiscate the projects and businesses? Yes, anyone with a gun can do that but meanwhile perhaps a few (or many) of you will have jobs and ability to survive and perhaps quite comfortably. You are NOT competition if you stay small and out of their way and they WILL need investment avenues or they won't gain either. Surely enough, you may never pay off the debts with them but if you have "purchased" the money through overborrow in the up-front—you won't have the sword over your neck so hazardly and you bargain up front for either no payback and certainly no set balloons to ultimately destroy you. Another way to do it is to have the project revert to the lender somewhere out there—but at the least you will not have THEM in control of your project. In an all-out depression you cannot plan on having pay-back because so many people are out of work and prices can't be paid according to the costs of building the project in the upstart so you may "run in

the red" for a very long time which is another good reason for those banksters to over-loan you in the upstart, collect their money, and leave you alone. Oh well, this economics lesson is mostly a waste of time for the many, but a "few" may hear and understand and realize potential.

COLLOIDALS

We told you in the beginning of offering colloids that it might well be very short lived. Well, the big boys are now trying every known way to get them off the market, especially silver.

Shipments are being confiscated at the border of Canada as we speak and sent to the FDA for "study" in potential cause for disallowing the product's further allowance.

Our products have been "over"qualified and so we are going to have to move to minimize the contents for "testing" at FDA to meet the regulations NOW set.

We have a dual problem for, when we pass the solution of colloidalized silver through the gold electrodes to enhance the potential for frequency increase, we have trouble getting the minute amount of ions introduced to be considered on a spectrometer (measuring color) to read out silver. Color changes, not with the particulate, but with the frequency! For instance as example, Dharma can hold a bottle of silver colloid with "gold frequency potential" and she acts as an x-ray "scanner" in that the golden liquid will, within a few days, register purple (the color of gold frequency) on visual and spectrometer readings. This causes the inspectors to shout "adulteration" of some kind. What they don't realize is that if these products pass through the invisible frequencies of x-ray, higher ultra-violet, AND NOW THE INVISIBLE HIGHER FREQUENCIES BEYOND ULTRAVIOLET, YOU HAVE THIS COLOR CHANGE. The very name "ultraVIOLET" tells you the secret of the color from colloidal GOLD.

This is NOT a standard thing but only an occasional reaction to enhancement but it will cause the solution to appear to be far oversaturated and, in fact, it will sometimes "discharge" the charge within the solution and the particulate will "drop out".

I have trouble getting through to the "makers" of the original solution that QUANTITY is not the point—the point is MINIMUM (one ion per molecule of particulate) of the tinymost size which is actually smaller than most labs can measure. So, when there is tinge of color—you have almost too much! It is the "frequency" of the solution that aids in healing and enhances the immune system function—not the particulate. However, with SILVER, the metal itself is harmless to the body in particulate-sized particles in colloidal suspension—but the actual presence of the particulate IS GERMICIDAL, or I guess terminology would be an "anti-biological/anti-viral" solution, to a higher extent than, say, a 3% solution of hydrogen peroxide.

So what do we do if silver and gold colloids are shut down? Well, first of all we back way off on the solution content and ask you to take relatively MORE Gaiandriana or AquaGaia so that the Drias can take up the slack. We will try very hard to keep a stronger solution for the specific purposes of Gulf War Illness, etc., and that can be accomplished by increased amounts intaken IF there are illness SYMPTOMS present. The literature and instructions will remain the same for, when the immune system is good, then on an ongoing basis you need only a few DROPS daily. Once again the CLAIM for shutting down these products is touted: FOR YOUR OWN GOOD.

Our promise has been and is always—to act ONLY within all regulations but to use every opportunity to do what we can do until such time as regulations are changed. KNOW THAT REMOVAL FROM THE PUBLIC SHELVES CAN BE OVERNIGHT. I am asking our distributor to consider another "sale" so you can perhaps stock up a bit more if you wish to do so before we are forced to decrease quality. Actually, the minimum product as offered by most who simply "color" their solution is usually sufficient for your immune system needs. You live in a grossly deteriorating world, readers, and we cannot do much about THAT.

We can hold gold and silver in the corporation set forth for the processing of the solutions but, if they close down ability to function through confiscation of gold and silver, we are stuck with their laws.

We can probably continue to offer what is needed and get our Gaiandriana PROGRAMMED by the time of shutdown but it is not there yet. We can also substitute in the OxySol (for a while) but they are also attempting to take hydrogen peroxide (our base) off the market in food-grade strength.

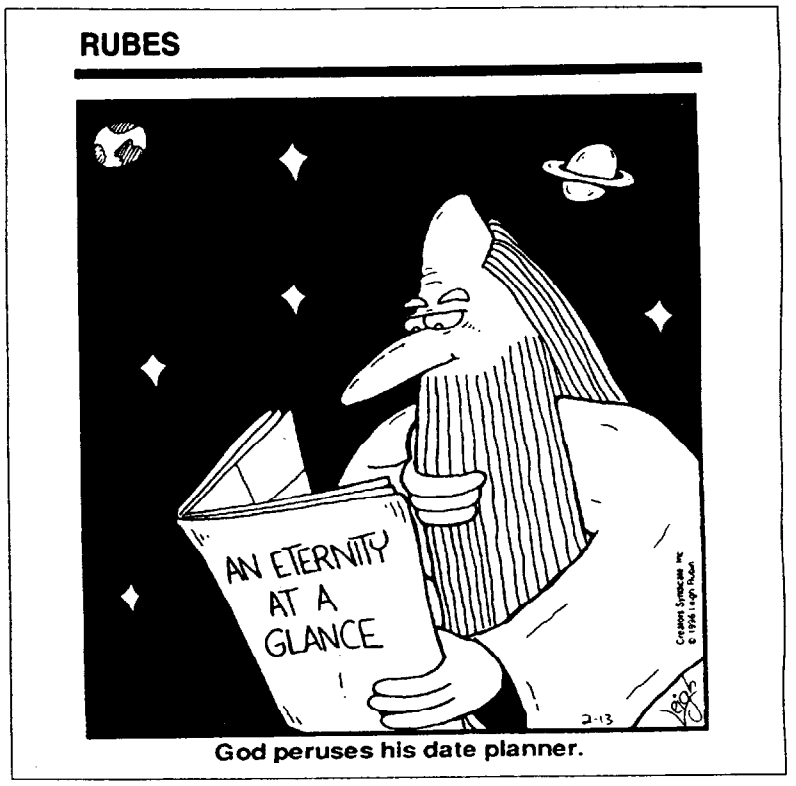
This process not only has gold and silver particulate in colloidal solution but will be basically invisible on any currently available apparatus for testing and what you have is the monatomized interaction which results in diamond crystal ions in colloidalized solution. This diamond (carbon) crystal is the most qualified substance to accept "programming". It is your computer "CHIP". The solution, when perfected as we do, will usually test out as superior, highly charged "water" on sophisticated testing equipment. This means that the test apparatus can only find simple mineralization as would be found in exceptionally good liquid. There are MANY kinds of "water" and it will be a long, long time before they can lawfully REMOVE WATER FROM YOUR ABILITY TO HOLD.

And then, readers, for every thousand of you conscientious users there are the people who LOVE their doctor and will turn in everybody for anything and everything they, themselves, do wrong. They don't want to get well—they LOVE BEING SICKLY.

I don't know what to do with our neighboring friends, readers. At the Canadian and Mexican borders both our journals, paper, and products are often stopped for search and seizure. It is worse where you have dealers who charge far more than we do for the SAME product because there is no reason to HIDE the product's movement across borders of any kind.

Our claims are within all guidelines for Colloidal Silver. It is known that it is a good antiseptic, immune system enhancer, and inhibitor of microbiological invasion while being a totally harmless substance to the body cellular structure.

Gold is not even advertised as the qualified product of antiseptic or anti-microbial that it likely is; we only claim what we know to be acceptable—good if used for the old remedies of stomach problems, confused thought, and addictions. Its higher color frequency is incompatible with most all viral invaders but we do not claim that. I think if we changed the label from "food" supplement to "mineral" something-or-other, they would leave "us" alone. I don't vouch for any other products by others.



God peruses his date planner.

Whatever is decided, we shall inform you. Meanwhile it might pay you well to do things right and stop denying yourselves and your fellow-citizens from having things because you are warped in your own desires to hurt yourself and others. I am not at war with your government or anyone else. We confront only when confronted but we do not roll over and play dead before the unlawful criminals who come against us. We will do it all under the shelter OF THE LAW, even in the courts of injustice. If we lose, so be it in this mentally warped society. We will offer what we can while we can. Remember, God wins, and because I totally serve God, I know that I shall win. You must make those choices for self, for all the gifts I can bring or hold will not make those choices FOR *YOU*.

Salu and may you make those choices in wisdom.

What Are The Phoenix Journals?

Many people have asked us what the *Phoenix Journals* are. They contain the true history (history) of mankind on this planet as well as detailed information about the most asked about and wondered about subjects (i.e., Spirituality, E.T.s, our origin, our purpose here on this planet, etc.). Commander Hatonn, and the other Higher Spiritual Teachers who have authored these *Journals*, weave spiritual lessons and insights throughout the unveiling of lies which have been deceptively forced upon us, throughout time, by the Elite anti-Christ controllers. These *Journals* are the "*Dead Sea Scrolls*" of our time. Their importance for the growth of mankind cannot be overstated. They are the textbooks of understanding which God promised us we would have, to guide us through the "End Times".

Here is what Commander Hatonn has said about the *Phoenix Journals*. Quoting from *Journal* #40, *THE TRILLION DOLLAR LIE*, Vol.II, pgs. 47 & 48: "Some day in the far recesses of the future experiences of another human civilization—these *Journals* will be found and TRUTH will again be given unto the world manifest so that another lost civilization can regain and find its way. God always gives His creations that which they need when the sequence is proper. It is what man DOES WITH THESE THINGS which marks the civilization. WHAT WILL YOUR LEGACY BE????? I focus on current activities which might turn your world about in time to save your ecosystems and your sovereignty as nations and peoples. You cannot wait to be filled in on the lies of the generations, lest you wait until too late to take control of your circumstance presently within the lies. YOU ARE A PEOPLE OF MASSIVE DECEPTION AND WHAT YOU WILL DO WITH THIS INFORMATION IN ACTION DETERMINES YOUR PURPOSE AND GROWTH IN THIS WONDROUS MANIFESTED EXPERIENCE. WILL YOU PERISH PHYSICALLY OF THE EVIL INTENT, OR WILL YOU MOVE INTO AND WITHIN THE PLACES OF HOLY CREATOR? THE CHOICE IS YOURS."

TELEPHONE HOTLINE

805-822-0202

This is a service for our dedicated readers. *Today's Watch* telephone hotline carries the latest news and comments from Commander Hatonn's most recent writings. This is our way of keeping you informed about fast-breaking news and events.

The message machine will answer after 2 rings if there are any new messages for that day, and after 4 rings if not. Thus *daily* callers can hang up after 2 rings and save toll charges if no new message has been recorded. The message update(s), if any, occur by 6 PM Pacific Time.
