TODAY'S WATCH

Hatonn. Good morning.

We will only write for a short while this morning for there is need for you to be away from this location; there are also other things which need attention.

Please take note of the "flap" regarding news reporters in the Middle East ("physical fitness", censorship by the military, etc). This goes along with that which we are writing--this is to insure total control of all news. You will be told that the news will be censored and controlled to keep the enemy off guard. No, it is to disallow your parents and loved ones and objective governmental officials to know truth.

By the way--Botulism and Anthrax are deadly diseases and there are no effective vaccines for either. At best, there are some very dangerous "partial" vaccines--still in research and which I would not utilize on any animal which would be mine enemy. Again, you are lied to. The same one, from your great halls of wisdom and national research, has announced this--"Sandy", as CNN's Larry King fondly calls his regular visitor on this enlightening "show and

tell" (that which is intended for you to swallow whole). When confronted, *he also ADMITTED that "innocent" microbes were introduced into the subway system of New York as an experiment. It was estimated that 500,000 people were directly introduced to the microbes and almost 400,000 came down with the "infection". He added with a smile, "But it was totally harmless microbes."* **HOW COULD IT BE HARMLESS IF, IN FACT, YOU COULD DETERMINE THAT ALMOST 400,000 (ACTUALLY, THE COUNT WAS GENERALIZED AT 367,000) CAME DOWN WITH SYMPTOMS WHICH COULD BE IDENTIFIED? I WARN YOU PEOPLE, IF YOU DO NOT STOP THIS SORT OF THING--YOUR SELECTIVE POPULATIONS WILL BE WIPED OUT BEFORE YOUR EYES, ALONG WITH YOU!**

What of the meeting of Iraq and the U.S. in Geneva? You are told a great deal about facts, if you pay attention. Bush continues to say "no-deal" of any kind. But, the meeting is arranged for on the brink of deadline and, further, in neutral territory. **YOU ARE MAKING HEADWAY, PEOPLE OF THE WORLD--ESPECIALLY THE RUSSIAN WORLD OF CONTROLLING POWER. BE**

GRATEFUL FOR WHAT-EVER WE CAN GAIN IN "TIME" WITHOUT BLOWING YOUR WORLD AWAY. Watch the sleight-of-hand: the administration--with Kissinger now on TV with his monotone, emotionless, robotic voice of a computer, projecting the next move--that of economic disaster in the face of stalled-out war. ***The need is to pull down America very soon so that the other controlling factors can come into play and be totally operational by year 2000. I believe you can see from that which we are presenting here regarding psychopolitical sweeping of the world--America in specifics--the plan has alternative measures and ALL are functional. They only needed one generation to pull you down, America--and they got it! The plan is to sacrifice all of your current youthful generation. It is up to you of the prior generation to get this thing of freedom back on track for your children, nation and God. The youth are caught in the jaws of control and chaos and have nothing to which to relate--YOU WILL DO IT, OR IT WILL NOT BE DONE.***

Please, Dharma, back to the laying forth of the Russian plan and textbook mandates for world^a dominion through the mind: **PSYCHOPOLITICS; MIND-CONTROL.** We will

begin this portion speaking about "OBEDIENCE": TOTAL OBEDIENCE THROUGH FORCE. You have many examples throughout history and, now, even beautiful America is ruled by police force established unlawfully, unconstitutionally, and through the Elite--by the acts of violence and fear. Harken back to history: Alexander the Great, Napoleon, Hitler, Stalin, and Mao Tse-tung--all ruled in this manner. Dear Desiree', I dare say you would not have enjoyed a relationship, of any type at all, with Alexander, per your distractor and deceiver projectors! He was simply not a nice person!

THE GENERAL SUBJECT OF OBEDIENCE

Again note that I will Quote from the document as written. My comments will be in parens, in italics.

QUOTE:

Obedience is the result of force.

Everywhere we look in the history of Earth we discover that obedience to new rulers has come about entirely through the demonstration on the part of those rulers of greater force than was to be discovered in the old ruler. A population overridden, conquered by war, is obedient to its conqueror. It is obedient to its conqueror because its conqueror has exhibited more force.

Concurrent with force is brutality, for there are human considerations involved which also represent force. **The most barbaric, unrestrained, brutal use of force, if carried far enough, invokes obedience. Savage force, sufficiently long displayed toward any individual, will bring about his concurrence with any principle or**

order.

Force is the antithesis of humanizing actions. It is so synonymous in the human mind with savageness, lawlessness, brutality, and barbarism, that it is only necessary to display an inhuman attitude toward people, to be granted by those people the possession of force.

Any organization which has the spirit and courage to display inhumanity, savageness, brutality, and an uncompromising lack of humanity, will be obeyed. Such a use of force is, itself, the essential ingredient of greatness. We have to hand no less an example than our great Communist Leaders, who, in moments of duress and trial, when faced by Czarist rule, continued over the heads of an enslaved populace, yet displayed sufficient courage never to stay their hands in the execution of the conversion of the Russian State to Communist rule.

If you would have obedience you must have no compromise with humanity. If you would have obedience you must make it clearly understood that you have no mercy. Man is an animal. He understands, in the final analysis, only those things which a brute understands.

As an example of this, we find an individual refusing to obey and being struck. His refusal to obey is now less vociferous. He is struck again, and his resistance is lessened once more. He is hammered and pounded again and again, until, at length, his only thought is direct and implicit obedience to that person from whom the force has emanated. This is a proven principle. It is proven because it is the main principle Man, the animal, has used since his earliest beginnings. It is the only

principle which has been effective, the only principle which has brought about a wide and continued belief. For it is to our benefit that an individual who is struck again, and again, and again from a certain source, will, at length, hypnotically believe anything he is told by the source of the blows.

The stupidity of Western civilizations is best demonstrated by the fact that they believe hypnotism is a thing of the mind, of attention, and a desire for unconsciousness. This is not true. Only when a person has been beaten, punished, and mercilessly hammered, can hypnotism upon him be guaranteed in its effectiveness. (*Hatonn: Note that torture of P.O.W.'s is NOT for the purpose of gaining information but, rather, for total indoctrination!*)

It is stated by Western authorities on hypnosis that only some twenty percent of the people are susceptible to hypnotism. This statement is very **UNTRUE**. Given enough repetition and/or punishment, ALL of the people in any time and place are susceptible to hypnotism. In other words, by adding force, hypnotism is made uniformly effective. Where unconsciousness could not be induced by simple concentration upon the hypnotist, unconsciousness **CAN BE INDUCED** by drugs, by blows, by electric shock, and by other means. And where unconsciousness cannot be induced so as to make an implantation or an hypnotic command effective, it is only necessary to amputate the functioning portions of the animal Man's brain to render him null and void and no longer a menace. Thus we find that hypnotism is entirely effective.

The mechanisms of hypnotism demonstrate clearly that people can be made to believe in certain conditions, and even in their environment or in politics, by the administration of force. Thus, it is necessary for a psychopolitician to be an expert in the administration of forces. Thus, he can bring about implicit obedience, not only on the part of individual members of the populace, but on the entire populace itself and its government. He need only take unto himself a sufficiently savage role, a sufficiently uncompromising inhuman attitude, and he will be obeyed and believed. (*Hatonn: For this reason, a good hypnotherapist in working with a client MUST have discipline and often REQUIRE the subconscious mind respond with truth. If the practitioner simply gets more emotional and sympathetic, strokes the hand in agreement, etc., the mind continues to be reinforced with the negative input already in command. In other words--truth must be confronted in order to change of the behavior structure. It matters not to the subconscious mind what the instructions are, it will function and cause function of the individual to continue with the dominant and structured input available until such time as new instructions are given and accepted which override the prior commands.*)

The subject of hypnotism is a subject of belief. What can people be made to believe? They CAN be made to believe anything which is administered to them with sufficient repetition, brutality and force. The obedience of a populace is as good as they will believe.

Despicable religions, such as Christianity, knew this. They knew that if enough faith could be brought into being a

populace could be enslaved by the Christian mockeries of humanity and mercy, and thus could be disarmed. But one need not count upon this act of faith to bring about a broad belief. One must only exhibit enough force, enough inhumanity, enough brutality and savageness to create implicit belief and therefore and thereby implicit obedience. **As Communism is a matter of belief, its study is a study of force.** (*Hatonn: Note that as ones are brought into the shelter of the "Church", gradually the Laws of God have been broken in total by a "voting-in" and "modernization" and "allowance" of all the negative and moral values. You can SEE that the actions are both destructive and incorrect and yet the BELIEF IS ENGENDERED THROUGH THE PRESSURE AND FORCE OF THE TEACHERS, PREACHERS AND COUNCILS WHO CHANGE THE LAWS BY HUMAN CONTROL FACTORS.*)

The earliest Russian psychiatrists, pioneering this science of psychiatry, understood thoroughly that hypnosis is induced by acute fear. They discovered it could also be induced by shock of an emotional nature, and also be extreme privation, as well as by blows and drugs.

In order to induce a high state of hypnogy (hypnosis) in an individual, a group, or a population, an element of terror must always be present on the part of those who would govern. The psychiatrist is aptly suited to this role, for his brutalities are committed in the name of science and are inexplicably complex, and entirely out of view of the human understanding. A sufficient popular terror of the psychiatrist will, in itself, bring about insanity on the part of many individuals. A

psychopolitical operative, then, can, entirely cloaked with authority, commence and continue a campaign of propaganda, describing various "treatments" which are administered to the insane. A psychopolitical operative, must at all times insist that these treatments are therapeutic and necessary. He can, in all of his literature and his books, list large number of pretended cures by these means. But these "cures" need not actually produce any recovery from a state of disturbance. As long as the psychopolitical operative or his dupes are the only authorities as to the difference between sanity and insanity, their word as to the therapeutic value of such treatment will be the final word. No layman would dare adventure to place judgment upon the state of sanity of an individual whom the psychiatrist has already declared insane. The individual, himself, is unable to complain, and his family, as will be covered later, is already discredited by the occurrence of insanity in their midst. There must be no other adjudicators of insanity; otherwise it could be disclosed that the brutalities practiced in the name of treatment are not therapeutic.

A psychopolitical operative has no interest in "therapeutic means" or "cures". The greater number of insane in the country where he is operating, the larger number of the populace will come under his view, and the greater will become his facilities. Because the problem is apparently mounting into uncontrollable heights, he can more and more operate in an atmosphere of emergency, which again excuses his use of such treatments as electric shock, the pre-frontal lobotomy, trans-orbital leucotomy, and

other operations long-since practiced in Russia on political prisoners. (Hatonn: Do you believe the tremendous increase in "insanity" just happened? I suggest you go back and very carefully reread the Journals dealing with the Conspiracy, Global Plan 2000 and all Eustace Mullins' material. In J.E. Hoover's iron law FBI days, forceful incarceration and "mental adaptation" or life-long incarceration in the institution was "the" *modus operandi*!

It is to the interest of the psychopolitical operative that the possibility of curing the insane be outlawed and ruled out at all times. For the sake of obedience on the part of the population and their general reaction, a level of brutality must, at all costs, be maintained. Only in this way can the absolute judgment of the psychopolitical operative as to the sanity or insanity of public figures be maintained in complete belief. Using sufficient brutality upon their patients, the public at large will come to believe utterly anything they say about their patients. Furthermore, and much more important, the field of the mind must be sufficiently dominated by the psychopolitical operative, so that wherever tenets of the mind are taught they will be hypnotically believed. The psychopolitical operative, having under his control all psychology classes in an area, can thus bring about a complete reformation of the future leaders of a country in their educational processes, and so prepare them for Communism (Hatonn: and/or "New Age" inaction, thought "beingness" and "allowing").

To be obeyed, one must be believed. If one is sufficiently believed, one will unquestioningly be obeyed. (Hatonn: If you ones do not see this in ac-

tion right out of "THE LIPS" then I fear for our ever reaching stability again upon this earth. You-the-People are being pushed to the limits of that which you will accept! And, brothers, you go beyond the controllers wildest hopes.)

When he is fortunate enough to obtain into his hands anyone near to a political or important figure, this factor of obedience becomes very important. A certain amount of fear or terror must be engendered in the person under treatment so that this person will then take immediate orders, completely and unquestioningly, from the psychopolitical operative, and so be able to influence the actions of that person who is to be reached.

Bringing about this state of mind on the part of a populace and its leaders--that a psychopolitical operative must, at all times, be believed--could eventually be attended by very good fortune. It is not too much to hope that psychopolitical operatives would then, in a country such as the United States, become the most intimate advisors to political figures, even to the point of advising the entirety of a political party as to its actions in an election.

The long view is the important view. Belief is engendered by a certain amount of fear and terror from an authoritative level, and this will be followed by obedience.

The general propaganda which would best serve Psychopolitics would be continual insistence that certain authoritative levels of healing deemed this or that the correct treatment of insanity. These treatments must always include a certain amount of brutality. Propaganda should

continue and stress the rising incidence of insanity in a country. The entire field of human behavior, for the benefit of the country, can, at length, be broadened into abnormal behavior.

Thus, anyone indulging in any eccentricity, particularly the eccentricity of combatting psychopolitics, could be silenced by the authoritative opinion on the part of a psychopolitical operative that he was acting in an abnormal fashion. This, with some good fortune, could bring the person into the hands of the psychopolitical operative so as to forever more disable him, or to swerve his loyalties by pain-drug hypnotism.

On the subject of obedience itself, the most optimum obedience is unthinking obedience. The command given must be obeyed without any rationalizing on the part of the subject. The command must, therefore, be implanted below the thinking processes of the subject to be influenced, and must react upon him in such a way as to bring no mental alertness on his part.

It is in the interest of Psychopolitics that a population be told that an hypnotized person will not do anything against his actual will, will not commit immoral acts, and will not act so as to endanger himself. While this may be true of light, parlour hypnotism and general welfare therapy, it certainly is not true of commands implanted with the use of electric shock, drugs, or heavy punishment wherein the entire structure of thought processes are altered permanently. (Hatonn: An excellent example of this point is G. Gordon Liddy, of Watergate fame and now a recognized speaker, writer and talk-show participant. This man is totally indoctrinated into extremes and

mindless actions--without compassion or ability to recognize immorality.)

It is counted upon completely that this will be discredited to the general public by psychopolitical operatives, for if it were to generally be known that individuals would obey commands harmful to themselves, and would commit immoral acts while under the influence of deep hypnotic commands, the actions of many people, working unknowingly in favor of Communism, would be too-well understood. People acting under deep hypnotic commands should be acting apparently of their own volition and out of their own convictions.

The entire subject of psychopolitical hypnosis, Psychopolitics in general, depends for its defense upon continuous protest from authoritative sources that such things are not possible. And, should anyone unmask a psychopolitical operative, he should at once declare the whole thing a physical impossibility, and use his authoritative position to discount any accusation. Should any writings of **Psychopolitics** come to view, it is only necessary to brand them a hoax and laugh them out of countenance. Thus, psychopolitical activities are easy to defend.

When psychopolitical activities have reached a certain peak, from there on it is almost impossible to undo them, for the population is already under the duress of obedience to the psychopolitical operatives and their dupes. The ingredient of obedience is important, for the complete belief in the psychopolitical operative renders his statement cancelling any challenge about psychopolitical operations irrefutable. The optimum

circumstances would be to occupy every position which would be consulted by officials on any question or suspicion arising on the subject of Psychopolitics. Thus, a psychiatric advisor should be placed near to hand in every government operation. As all suspicions would then be referred to him, no action would ever be taken, and the goal of Communism could be realized in that nation.

Psychopolitics depends, from the viewpoint of the layman, upon its fantastic aspects. These are its best defense, but above all these defenses is implicit obedience on the part of officials and the general public, because of the character of the psychopolitical operative in the field of healing.

END QUOTING

I request that this portion be closed at this point. I would like, further, to respond to the queries regarding the term "Communism". That term was chosen for it connotes that which a moral man would like to achieve--balance, charity, all for all, etc. It is only a label given to this particular movement for global control to further fool the masses of humanity. There is nothing of true communistic intent in any manner and perhaps this where the public awakening must begin! The PRINCE OF DARKNESS AND DECEIT has pulled it off again and again right before your eyes! You-the-citizens of the world have become mesmerized into dullness and stupefaction and know not that which has come upon you. WAKE UP! I certainly care not whether you believe me real or figment--THE TRUTH LIES IN PHYSICAL/MENTAL DISPLAY BEFORE YOU! IT SHOULD NOT REQUIRE

ONE OF GOD'S HOSTS TO POINT IT OUT UNTO YOU, BUT SO BE IT! WHATEVER IS REQUIRED WILL BE GIVEN FORTH--IN LOVE AND ALLOWANCE OF CHOICES. I WOULD HOPE THAT THE LIGHTED CHOICES SHALL BE TURNED UNTO TRUTH AND GOD. SALU.

PSYCHOPOLITICS--MIND-CONTROL
(RUSSIAN TEXTBOOK)

CONTINUED:

Let us immediately move on to the Russian textbook, PSYCHOPOLITICS (MIND-CONTROL): I realize that the flood of objections is flowing back. How could this be true? No, you must have "just written" this material, etc., etc., etc. No, dear friends, it was written first as a portion of the Protocols of the Zionist Men of Wisdom. Remember, that the Zionists--as they are represented today--came out of Russia. They were the Russian Khazars! As the protocols became taught and active within the more modern setting, the mandates became taught under the guise of "Communism". This textbook is still utilized daily and is the operating manual of the Soviet government and KGB. It has been structured appropriately and is the guiding handbook for the Mossad of Israeli origin. It has now been rewritten into the handbook of the collective "intelligence agencies" which appear to be separate but are actually working in coalition: the KGB, CIA, Mossad and your FBI. There are others,

i.e., Chinese, etc., but we have not the time nor I, the inclination to cover it all for we would be all month on the subject.

Suffice it to say the material is currently utilized EVERY day! This IS the plan of mind-control of the masses!

ANATOMY OF STIMULUS-RESPONSE MECHANISMS OF MAN

QUOTE:

Man is a stimulus-response animal. His entire reasoning capabilities, even his ethics and morals, depend upon stimulus-response machinery. This has long been demonstrated by such Russians as Pavlov, and the principles have long been used in handling the recalcitrant, in training children, and in bringing about a state of optimum behavior on the part of a population.

Having no independent will of his own, Man is easily handled by stimulus-response mechanisms. It is only necessary to install a stimulus into the mental anatomy of Man to have that stimulus reactivate and respond any time an exterior command source calls it into being.

The mechanisms of stimulus response are easily understood. The body takes pictures of every action in the environment around an individual. When the environment includes brutality, terror, shock, and other such activities, the mental image picture gained contains in itself all the ingredients of the environment. If the individual, himself, was injured during that moment, the injury, itself, will re-manifest when called upon to respond by an exterior command source.

As an example of this, if an

individual is beaten, and is told during the entirety of the beating that he must obey certain officials, he will, in the future, feel the beginnings of the pain the moment he begins to disobey. The installed pain, itself, reacts as a policeman, for the experience of the individual demonstrates to him that he cannot combat, and will receive pain from, certain officials.

The mind can become very complex in its stimulus responses. As easily demonstrated in hypnotism, an entire chain of commands, having to do with a great many complex actions, can be beaten, shocked, or terrorized into a mind, and will lie there dormant until called into view by some similarity of the circumstances of the environment to the incident of punishment.

The stimulus we call the "incident of punishment" where the response mechanism need only contain some small part of the stimulus to call into view the mental image picture, and cause it to exert against the body, the pain sequence. So long as the individual obeys the picture, or follows the commands of the stimulus implantation, he is free from pain.

The behavior of children is regulated in this fashion in every civilized country. The father, finding himself unable to bring about immediate obedience and training on the part of his child, resorts to physical violence, and after administering punishment of a physical nature to the child on several occasions, is gratified to experience complete obedience on the part of the child each time the father speaks. **In that parents are wont to be lenient with their children, they seldom administer sufficient punishment to**

bring about entirely optimum obedience. The ability of the organism to withstand punishment is very great. **Complete and implicit response can be gained only by stimuli sufficiently brutal to actually injure the organism.**

The Kossack method of breaking wild horses is a useful example. The horse will not restrain itself or take any of its rider's commands. The rider, wishing to break it, mounts, and takes a flask of strong Vodka, and smashes it between the horse's ears. The horse, struck to its knees, its eyes filled with alcohol, mistaking the dampness for blood, instantly and thereafter gives its attention to the rider and never needs further breaking. Difficulty in breaking horses is only occasioned when light punishments are administered. There is some mawkish sentimentality about "breaking the spirit", but what is desired here is an obedient horse, and sufficient brutality brings about an obedient horse.

The stimulus-response mechanisms of the body are such that the pain and the command subdivide so as to counter each other. The mental image picture of the punishment will not become effective upon the individual unless the command content is disobeyed. It is pointed out in many early Russian writings that this is a survival mechanism. It has already been well and thoroughly used in the survival of Communism.

It is only necessary to deliver into the organism a sufficient stimulus to gain an adequate response.

So long as the organism obeys the stimulus whenever it is restimulated in the future, it does not suffer from the pain of the stimulus. But should it dis-

obey the command content of the stimulus, the stimulus reacts to punish the individual. Thus, we have an optimum circumstance, and one of the basic principles of Psychopolitics. A sufficiently installed stimulus will thereafter remain as a police mechanism within the individual to cause him to follow the commands and directions given to him. Should he fail to follow these commands and directions, the stimulus mechanism will go into action. As the commands are there with the moment of duress, the commands themselves need never be repeated, and if the individual were to depart thousands of miles away from the psychopolitical operative, he will still obey the psychopolitical operative, or, himself, become extremely ill and in agony. These principles, built from the earliest days of Pavlov, by constant and continuous Russian development, have, at last, become of enormous use to us in our conquest. For less modern and well-informed countries of Earth, lacking this mechanism, failing to understand it, and coaxed into somnolence by our own psychopolitical operatives, who discount and disclaim it, cannot avoid succumbing to it.

The body is less able to resist a stimulus if it has insufficient food and is weary. Therefore, it is necessary to administer all such stimuli to individuals when their ability to resist has been reduced by privation and exhaustion. Refusal to let them sleep over many days, denying them adequate food, then brings about an optimum state for the receipt of a stimulus. If the person is then given an electrical shock and is told while the shock is in action that he must obey and do certain things, he has no choice but to do them, or to re-experience, because of his mental image picture of it, the

electric shock. This highly scientific and intensely workable mechanism cannot be over-estimated in the practice of psychopolitics.

Drugging the individual produces an artificial exhaustion, and if he is drugged, or shocked and beaten and given a string of commands, his loyalties, themselves, can be definitely rearranged. This is P.D.H., or Pain-Drug Hypnosis.

(Hatonn: Please note that in 1969, it was stated in an issue of "TODAY'S EDUCATION", the National Education Association predicted complete control of Americans, by educators, by 1980. It should also be noted that the entire educational system is based on the premise of destruction of any "true" education. This has been the focus for many decades and has finally been accomplished and was, surely, an accomplished fact--even if not recognized--by 1980. There is actual chaos in your schools and a wash of misinformation or, actually, false information in every field of study. You might think, "Well, in the grades, etc." No, it began its influential destruction in the universities--beginning in the U.S. with Yale. This is because of the fact that THE ORDER had its most potent thrust at Yale with the Skull and Bones Society, etc. The price of the destruction was made available in funding from the foundations, such as Ford, Rockefeller, etc. Hard to believe? Of course! I shall, however, give you a blow-by-blow of how the Order controls education after we finish the reproducing of this document so that there is a basis of communication regarding the issue.)

Exercises in bringing about insanity seizures at will, simply

by demonstrating a signal to persons upon whom pain-drug hypnosis has been used, and exercises in making the seizures come about through talking to certain persons in certain places and times should also be used.

Brain surgery, as developed in Russia, should also be practiced by the psychopolitical operative in training, to give him full confidence in 1) the crudeness with which it can be done, 2) the certainty of erasure of the stimulus-response mechanism itself, 3) the production of imbecility, idiocy, and dis-coordination on the part of the patient, and 4) the small amount of comment which casualties in brain surgery occasion. *(Hatonn: This is called pre-frontal lobotomy.)*

Exercises in sexual attack on patients should be practiced by the psychopolitical operative to demonstrate the inability of the patient under pain-drug hypnosis to recall the attack, while indoctrinating a lust for further sexual activity on the part of the patient.

Sex, in all animals, is a powerful motivator, and is no less so in the animal Man, and the occasioning of sexual liaison between females of a target family and indicated males, under the control of the psychopolitical operative, must be demonstrated to be possible with complete security for the psychopolitical operative, thus giving into his hands an excellent weapon for the breaking down of familial relations and consequent public disgraces for the psychopolitical target.

(Hatonn: This occurs randomly and constantly in your mental institutions and hospitals for the mentally retarded. The staff

actually passes out condoms in these facilities--and the occasions of pregnancy are rampant. This actually occurs in the majority of cases of psychiatric encounters. Do you now begin to see the programming which is starting to impact your children even at pre-school? "Safe-sex" in gradeschool is taught and condoms are provided more and more widespread, free, in your junior and senior high schools. Can not you not see the results of all of the programmings exactly as laid forth in this "how-to" book utilized by the "master destroyers"?)

Just as a dog can be trained, so can a man be trained. Just as a horse can be trained, so can a man be trained. Sexual lust, masochism, and any other desirable perversion can be induced by pain-drug hypnosis and the benefit of Psychopolitics.

The changes of loyalties, allegiances, and sources of command can be occasioned easily by psychopolitical technologies, and these should be practiced and understood by the psychopolitical operative before he begins to tamper with psychopolitical targets of magnitude.

The actual simplicity of the subject of pain-drug hypnosis, the use of electric shock, drugs, insanity-producing injections, and other materials, should be masked entirely by technical nomenclature, the protest of benefit to the patient, by an authoritarian pose and position, and by carefully cultivating governmental positions in the country to be conquered.

Although the psychopolitical operative working in universities where he can direct the curricula of psychology classes is often tempted to teach some of the principles of Psychopolitics to

the susceptible students in the psychology classes, he must be thoroughly enjoined to limit his information in psychology classes to the transmittal of the tenets of Communism under the guise of psychology, and must limit his activities in bringing about a state of mind on the part of the students where they will accept Communism tenets as those of their own action and as modern scientific principles. The psychological operative must not, at any time educate students fully in stimulus-response mechanisms, and must not impart to them, save those who will become his fellow-workers, the exact principles of Psychopolitics. It is not necessary to do so, and is dangerous.

(Hatonn: Reread that last sentence several times. Knowledge is the weapon against this thrust. Stay balanced within the laws and Truth of God and Creation and KNOW THAT THIS IS THE MODE OF ATTACK. THIS IS THE ONLY WAY TO WITHSTAND THIS PROCESS OF ALTERING THE MINDS OF THE POPULACE.)
